1. District Fund budget estimates of receipts and disbursements for 1907-08.

Resolved that as the balance available will only amount to Rs. 5,210 after deducting the one-eighth of the total Revenue for the opening balance, only Rs. 1,018 can be spared for the Public Works Department original works out of Rs. 20,000 asked for, and that this Rs. 1,000 be devoted to the opening of the road from Nelamangala to Sondekoppa and that the balance of Rs. 4,192 be kept for unforeseen expenditure. Further, that Government be asked to contribute Rs. 3,000 out of Local Funds General for the rebuilding of the bridge on the Bangalore-Magadi road.

Also that the Muzrai Department be asked to expend Rs. 1,000 on the improvement of the road to Subrayanghati as it is used exclusively for the temple.

2. Read docket No. 5253, dated 27—29th November 1906 from the Executive Engineer, Bangalore Division, forwarding for countersignature an estimate for Rs. 2,460 for opening a new road from the 21st mile of Bangalore-Mangalore road to Sondekoppa, Nelamangala Taluk.

The Board is of opinion that the local officers are the only persons to judge in a matter of this kind and are best able to give an opinion.

3 a. Letter No. 2575, dated 2nd January 1907, from the Military Assistant to Government requesting to move the District Board to pass the additional expenditure of Rs. 220-9-8 on account of the up-keep of the road between Iverkhandpur and Banavar Railway Station.

The Board regret to state that they have no funds for this.

4. Letter No. 6041-8—L. F. 185-06-1, dated 4th January 1907, from the Secretary to Government, General and Revenue Departments, forwarding for consideration of the District Board, Subject No. 218 of the Dasara Representative Assembly, to set apart a portion of Local Fund amount for the sanitary improvement of villages, and to utilize the same every year for the benefit of the villages containing more than 50 houses.

The Board is of opinion that it is impossible to lay down any hard and fast rules on the subject, but is always willing to allot sums for this purpose when funds permit.

5. Letter No. 6021-8—L. F. 200-06-1, dated 4th January 1907, from the Secretary to Government, General and Revenue Departments, forwarding for report with the views of the District Board, Subject No. 239 of the Representative Assembly Proceedings of 1906 *re* the giving up of maintenance of roads leading to certain estates from District Funds on account of the prohibitive cost as compared with the local cess realised from those estates.

There are no such estates in this district.

The Board is of opinion that the present fine of one anna per head is quite sufficient.

9. Letter No. 6241-8—L. F. 178-06-1 of 11th January 1907, from the Secretary to Government, General and Revenue Departments, forwarding for consideration of the Board Subject No. 211 of Dasara Representative Assembly Proceedings *in re* the maintenance of District Fund roads to be met from Provincial Funds.

F. 227-06-1 of 11—16th January 1907, from the Secretary to Government, General and Revenue Departments, forwarding for consideration of the Board and needful action, Dasara Subject No 511 *in re* the repair of Krishnarajpur-Whitefield road to be entrusted to the Public Works Department.

The Board is of opinion that as Whitefield has ample roads at present, it would only be a waste of money to repair the present proposed road.

11. Letter No. 325—93 of 21st—23rd January 1907, from the Executive Engineer, Bangalore Division, *re* the construction of a damaged bridge at 3—25 of Bangalore-Magadi-Huliyurdurga road, at a cost of Rs. 3 000 instead of constructing a bridge at a cost of Rs. 3,000, across the fort ditch at Hoskote, which was sanctioned in the District Fund budget for 1906-07.

Resolved that this amount may be reappropriated for the work mentioned.

The bill for furniture to the Vaidyasala for Rs. 15 is passed.

13. Docket No. 4861 of 21st—24th January 1907, from the Senior Surgeon and Sanitary Commissioner requesting to obtain sanction of Government for incurring an expenditure of Rs. 86-10-3 for the construction of sheds to locate the Dispensary at Vartur during the prevalence of plague there.

The Board is of opinion that as this was done on account of plague, the Senior Surgeon should himself obtain the sanction of Government to meet the expenditure out of plague funds.

14. Petition of Mr. N. Narasimhiengar of 14th February 1907 recommending the improvement of a cart-track from Bidadi to Mudavadi in the Kankanhalli Taluk.

The Board is of opinion that the good work done by the applicant amongst the raiyat of this part of the country is deserving of every encouragement and therefore think that Rs. 500 should be allotted this year for repairing the worst parts of the road.

Resolved that the next Meeting be held on 15th May next.

1. The following Government Proceedings were read and recorded :—

(i) Government Order No. 3783-97—L. B. 357-92-34 of the 9th November 1906, declining to sanction the proposal of the Senior Surgeon to convert the in-patient wards attached to the Local Fund Dispensaries into quarters for Hospital Assistants.

(ii) Government Order No. 4100-8—L. F. 131-06-2 of the 19th November 1906, laying down that Vaidyasalas should be under the control of Amildars, subject to the general supervision of the District Medical and Sanitary Officer.

2. Read Government Order No. 3995-7—Ml. 392-05-10 of the 16th November 1906, desiring to know what amount will be contributed by the District Board for the sanitary improvements of the Seringapatam town.

Resolved that the Government be requested to get up an estimate for the work by the Sanitary Engineer before the question of the contribution from the District Fund Board be decided.

3. Read Subject No. 239 of Dasara Representative Assembly Proceedings of 1906 :—

Roads leading to certain estates now maintained from District Funds should be given up.

Resolved that Government be informed that the Board is of the same opinion.

4. Read Subject No. 228 of Dasara Representative Assembly Proceedings of 1906 :—

The patel of a Village Union should not be a pound-keeper.

Resolved that the existing practice is sound and be adhered to.

5. Read Subjects Nos. 218 and 221 of Dasara Representative Assembly Proceedings of 1906, regarding the setting up of a certain portion of the District Funds for the sanitary improvement of villages.

Resolved that a separate formation of funds for the purpose is uncalled for, as the Board is now doing all that is possible in this direction.

6. Read Subject No. 231 of the Dasara Representative Assembly Proceedings of 1905, proposing that the pound-keepers may be allowed to retain with them the feeding charges of impounded cattle without remitting the same to the Treasury.

The Board learning that the practice prior to Government Proceedings of 1894 was in accordance with this proposal, resolved that the old practice be revived, as the pound-keepers will be in a better position to feed the impounded cattle.

7. Read Subject No. 230 of the Dasara Representative Assembly Proceedings of 1905, recommending that the rate of fine on impounded goats may be raised.

Resolved that the rate of fine may be raised from one to two annas, as the damage done to crops and plants by goats are more injurious than that done by a cow, on which a fine of four annas is levied.

8. Read Subject No. 223 of the Dasara Representative Assembly Proceedings of 1906 requesting that the Village Sanitation Rules may be made applicable to villages containing 50 houses.

The Board is of opinion that the time has not yet arrived for this proposal being given effect to for the present.

9. Read Subject No. 211 of the Dasara Representative Assembly Proceedings of 1906, suggesting that the maintenance charges of District Fund roads may be paid from the Provincial Funds.

Resolved that such a general proposition is neither called for nor reasonable but that in special cases the facts may be submitted to the favorable consideration of Government.

10. Read Subject No. 213 of Dasara Representative Assembly Proceedings of 1905, suggesting that roads may be opened out in villages containing more than 100 houses.

Resolved that the Board opines that this is not feasible for want of funds. The Board also observes that this work has to be done by the villagers themselves.

11. Read Subject No. 222 of Dasara Representative Assembly Proceedings of 1906, suggesting that the Village Sanitation Rules may be enforced in all villages.

Resolved that this is not called for.

12. Read Subject No. 369 of Dasara Representative Assembly Proceedings of 1906, recommending the entertainment of a special Sub-Overseer to complete the incomplete works of the Nanjangud Taluk.

Resolved that the entertainment of a special man for this purpose was not only superfluous but unnecessary seeing that there are the Work and Tank Inspectors whose services are at the disposal of the Amildar.

13. Read Subject No. 374 of Dasara Representative Assembly Proceedings of 1906, recommending the opening of a cart-track from the 14th mile of the Mysore-T.-Narsipur road *via* Chidaravalli, Kalkuni and other places.

Resolved that the maintenance of this road at the cost of public funds is not necessary.

15. Read docket No. 6576 of the 24th January 1907, from the Secretary to the Government in the General and Revenue Departments, requesting to be informed whether the District Board is willing to transfer the amount in favor of the Saligram Union on the 30th June 1906, to the Municipal Board formed there on the next day.

Resolved that the Board is willing to re-transfer the unexpended balance on the 30th June 1906 to the reconstituted Municipality.

16. Read letter No. 52-483 of the 21st January 1907, from the Chief Engineer of Mysore, requesting to know whether the District Board would maintain the Punjur-Bidaguli road.

Resolved that the Board is not prepared to do this.

17. Read Mysore Division Executive Engineer's docket No. 1275 of the 21st November 1906, forwarding an estimate amounting to Rs. 1,018 for repairing the bund of the Gowdakere tank, over which the Bangalore-Mysore road runs.

The Executive Engineer having explained that the work proposed is necessary in the interests of the safety of the road, the Board resolved that the estimate be approved and the amount required be recommended as an additional grant.

18. Read Mysore Division Executive Engineer's docket No. 42 of the 12th January 1907, forwarding an estimate amounting to Rs. 365 for the special repairs of Nanjangud-Narsipur road.

Resolved that the amount required be sanctioned as an additional grant.

19. Mysore Division Executive Engineer's docket No. 1390 of the 26th December 1906, forwarding a reappropriation statement of the budget grant for the current year; also his letter No. 144 of the 15th February 1907 proposing certain modifications in the above reappropriation statement, and requesting that an additional grant of Rs. 2,000 for repairing certain 3rd class travellers' bungalows be sanctioned.

Resolved that the amended reappropriation statement be approved and that an additional grant of Rs. 1,500 be sanctioned for the bungalow repairs as it was stated by the Executive Engineer that the buildings, if left unrepaired in the current year, might cost the Board more.

20. Read Senior Surgeon's docket No. 4267 of the 29th December 1906, forwarding a statement showing the names of dispensaries that are in need of repairs.

Resolved that the quota of cost payable therefor, from the District Funds be provided for in the next year's budget.

21. Read Senior Surgeon's docket No. 4370 of the 4th January 1907, recommending the grant of an allowance of Rs. 3 per mensem to the servant who helps the Hospital Assistant at Talkad in the T.-Narsipur Taluk.

Resolved that the proposal be deferred till the question of establishing a branch dispensary at the place, which is now before the Government, is disposed of.

22. Read District Medical and Sanitary Officer's memo No. 2501 of the 11th January 1907, proposing the construction of in-patient wards to the Local Fund Dispensary at Nagamangala.

Resolved that the proposal be sanctioned with the observation that the quota of cost payable for the work from the District Funds be provided for in two successive years' budgets.

23. Read District Medical and Sanitary Officer's memo No. 2429 of the 9th January 1907, recommending the construction of a compound wall or a wire fence around the dispensary at Malvalli.

Resolved that the Board does not see any necessity for this work.

24. Read yadi No. 102 of the 11th January 1907, from the Assistant Commissioner of the Hunsur Sub-Division, forwarding an estimate amounting to Rs. 2,396 for constructing a rest-house at Hanagode in the Hunsur Taluk.

Resolved that there exists no necessity for this work.

25. Read Hunsur Sub-Division Officer's letter No. 140 of the 10th January 1907, suggesting the purchase of a set of boring-tools for the District Board estimated to cost Rs. 600.

The Executive Engineer having explained that the carriage of these tools from place to place would not only be cumbersome, but cost much, and that an establishment specially trained for setting up and working this would be required, the Board resolved that the proposal might be dropped.

26. Read correspondence ending with Hunsur Taluk Amildar's report No. 52 of the 28th November 1906, forwarding an estimate amounting to Rs. 192 for repairing a tank at Halaganahalli.

It having been reported that the tank water is mostly used for drinking purposes, the Board resolved to sanction the estimate from the District Funds.

27. Read Yedatore Taluk Amildar's report No. 184 of the 13th November 1906, submitting proposals for the formation of a Union at Tippur.

Resolved that the proposal of the Amildar be recommended for the sanction of Government.

28. Read Mysore District Forest Officer's No. 434 of the 27th November 1906, recommending the holding of a shandy at Antersante in the Heggaddevankote Taluk.

Resolved that the recommendation be approved and submitted to Government for sanction.

29. Read resolution of the District Board, dated the 10th November 1906, regarding the holding of a cattle show at Hemagiri in the Krishnarajpete Taluk, during the jatra occasion.

Resolved that the proposal be sanctioned tentatively that, as in the case of the Chunchinkatte cattle fair half the amount required for the distribution of prizes be provided for in the next year's budget and that the Government be requested to meet the other half from the realization of fees which are being credited to Muzrai Funds.

30. Read petition dated the 16th December 1906, from the inhabitants of Konanur in the Nanjangud Taluk, praying that a road may be opened from Konanur to Santemarahalli.

Resolved that the petitioners might be informed that the Board does not consider it necessary to form this road from the funds at its disposal. If the villagers do all the necessary earthwork, the Board will then consider if any grant could be made for the construction of road drains or tunnels.

31. On the motion of the President, it was resolved that the construction of rest houses at the Yaliyur and Hanakere Railway Stations in the Mandya Taluk, for which estimates each amounting to Rs. 495 were sanctioned in November last, be stopped pending further investigation as to the necessity or otherwise of the buildings.

32. The list of works sanctioned by the President out of the budget grant from the 10th November 1906 to the 15th February 1907 was read and approved.

33. It was resolved that the resolution of the Krishnarajpete Taluk Board, dated the—— January 1907, to the effect that the French Rocks Station-Nellegire road and Seringapatam-Channarayapatna road be maintained by Government from Provincial Funds, might be recommended for the favorable consideration of Government as these roads were of sufficient importance to be maintained by the Public Works Department out of their budget allotments

34. The Amildar of Krishnarajpete Taluk having reported that earthwork to the value of Rs. 8,939 to Akkihebbal-Mandagere road and to Santebachahalli-Nagamangala road has been done by the raiyats in his taluk, it was resolved that the Board do record their sense of appreciation and that the same be communicated to the villagers concerned through the Amildar.

X. Read General and Revenue Secretary's docket No. 6041-8—L. F. 185-06, dated 4th January 1907, forwarding for the consideration of the District Board, Subject No. 218 of the Dasara Representative Assembly of 1906, representing that a portion of the Local Funds be set apart for the sanitary improvement of villages and that the same may be utilized every year for the benefit of villages containing more than fifty houses.

F. 179-06-1, dated 11th January 1907, forwarding for needful action and report in consultation with District Board, Subject No. 212 of the Dasara Representative Assembly of 1906, in the matter of the allotment of funds for village roads.

Resolution.—Resolved that, as the road in question is one of the railway feeder-roads of Arsikere Railway Station, there is considerable traffic on it, but owing to paucity of District Funds, Government be moved to sanction the cost of constructing culverts from Local Funds General.

XVI. Read Executive Engineer's docket Nos. 69—6 and 345—34, dated 10th January 1907 and 5th February 1907, respectively, in the matter of providing Rs. 860 as contribution on account of widening the bunds of the Melgode Bekkinkere in the Hassan Taluk and Ponnathpur tank in the Belur Taluk.

Resolution.—Resolved that for want of funds owing to the over-estimate of toll-gate realizations which are found to be very much below the estimate, nothing can possibly be sanctioned for special repairs until the toll-gate realizations improve. All repairs and improvements must therefore be undertaken from the allotment of Rs. 250 per mile. The amount of Rs. 1,000 provided by the Finance Committee for special repairs on the Hassan-Arsikere road is disallowed and transferred to Hassan Taluk Board as extra provision for building a 1st class musafirkhana at Hassan, the want of which has very long been felt by the travelling public.

STATEMENT OF OBJECTS AND REASONS.

*Published at page 119 of the *Mysore Gazette*, dated 4th May 1867.

The Law in force in Mysore regarding treasure-trove is contained in the Rules published under the late Chief Commissioner's Notification No. 6, dated the 17th April 1867. These rules were adopted from Regulation XI of 1832 of the Madras Code; but having been published by the late Chief Commissioner without the sanction of the Government of India, it is a question how far they can be regarded as valid. Moreover they have become unworkable in practice and unsuited to present requirements in certain respects. Hence the necessity for the present Regulation.

2. The Draft Regulation is based on the Indian Treasure-Trove Act VI of 1878) but it makes certain departures therefrom.

3. The object of the Regulation is to define the rights in treasure-trove of the finders thereof and the other parties interested. The Regulation requires intimation to be given of the finding of the treasure and secures the right of all persons who can establish an antecedent property in it. This antecedent right can be established only in cases where there is presumptive evidence that the treasure was hidden within one hundred years. If such right cannot be established, the Regulation proceeds to determine the respective rights of the finder and the owner of the soil where the treasure was found. All claims to the treasure and all disputes as to the ownership of the land are to be referred to the Civil Court. Where the treasure exceeds one lakh of rupees in amount or value, and when no person other than the finder has established his right to a share, the finder is to get one lakh, the excess going to Government. The Government has also power to retain the treasure on payment of one-fifth in excess of its intrinsic value.

4. The Draft Regulation lays down the following procedure for observance:—

(*a*) The finder shall give notice of the finding to the Deputy Commissioner.

(*b*) Notice shall be given by Deputy Commissioner to the owner or owners of land where the treasure was found.

(*c*) The discovery of the treasure shall be advertised and all claimants desired to come forward within six months.

(*d*) Claims to the treasure or to a share in it shall be enquired into.

5. The Draft Regulation differs from Act VI of 1878 in the following particulars:—

(*a*) The right of Government to the excess beyond one lakh, when no person other than the finder has established his right to a share (Section 17). This is taken from the Chief Commissioner's Rules, though there is no similar provision in the Indian Act.

(*b*) As between the owner and finder, the Indian Act allots three-fourths to the finder and one-fourth to the owner. An equal division between the two is considered more equitable and the Regulation provides for this accordingly (Section 12).

(*c*) When the Deputy Commissioner proceeds to sell the treasure under section 12, he is required to take the orders of Government as to the particulars of sale.

(*d*) Power is reserved to Government to make rules on matters incidental to treasure-trove not provided for in the Regulation.

The accompanying Draft of a Regulation further to amend the Code of Civil Procedure as in force in Mysore, together with a statement of objects and reasons therefor, is published for general information.

2. The Draft Regulation will be taken up for consideration at the end of three months from the date of its publication in the Gazette and all suggestions and criticisms received within that period will be duly considered.

By Order,

K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

Draft of a Regulation further to amend the Civil Procedure Code.

Whereas it is expedient further to amend the Code of Civil Procedure as in force in Mysore; His Highness the Maharaja is pleased to enact as follows :—

Addition to Section 310A of the Civil Procedure Code.

1. To Section 310A of the said Code, the following Sub-Section shall be added between Sub-Sections (1) and (2), namely,

"(1. A.) If such deposit is made within thirty days of the sale, the Court shall pass an order setting aside the sale."

Addition to Section 584 (*d*).

2. In clause (*d*) of Section 584 of the said Code, after the words "in those cases," there shall be inserted the following words, namely,

"of which the amount or value of the subject matter is five hundred rupees or above and"

Amendment of Section 586.

3. In Section 586, for the words "fifty rupees," the words "five hundred rupees" shall be substituted.

Addition to Section 588.

4. To Section 588 of the said Code, the following clause shall be added, namely,

"(16. A.) orders under Section 310A."

STATEMENT OF OBJECTS AND REASONS.

The accompanying draft Regulation is intended, *firstly*, to rectify certain formal defects in the Code of Civil Procedure as amended by Regulation III of 1906, and *secondly*, to promote the speedier disposal of business in the Chief Court by curtailing the right of second appeal to a certain extent.

2. Section 310A as inserted by Regulation III of 1906 provides that a person owning immoveabe property or holding certain kinds of interest therein may apply to have the sale of such property set aside on making certain deposits within thirty days from the date of the sale. A Sub-Section has been added to the Section to make it clear that, where such deposit as above is made, the Court shall pass an order setting aside the sale. A clause has also been added to Section 588, so as to render orders under Section 310A appealable, a fact already implied in Sub-Section (4) of Section 310A.

3. When the Code of Civil Procedure was introduced into Mysore in 1884, clause (*d*) was added to Section 584 so as to allow to the Chief Court (then newly formed, with three Judges) a second appeal on questions of fact when the two lower Courts differed in opinion on such questions. The Chief Court have recommended that either clause (*d*) may be repealed altogether, or that the provisions in regard to second appeals on questions of fact may be limited to appeals of the value of Rs. 500 and over. Considering the fact that the decrees of the Chief Court are final in Mysore, and that there is no further appeal to a higher tribunal as in British India, the Government are of opinion that the second alternative is the preferable one. Hence the amendment proposed as regards Section 584.

4. Section 586 as amended by Regulation II of 1884, allows second appeals in all suits of a small cause nature exceeding Rs. 50 in value. The limit is Rs. 500 in British India; and there seems to be no good reason why the limit should not be similarly raised in Mysore. The Chief Court have urged the change on the ground that second appeals in petty cases have greatly blocked the progress of litigation. Section 586 is proposed to be amended accordingly.

NOTIFICATION.

No. J. 2916—*Leg.* 47 *of* 06, *dated* 20*th March* 1907.

His Highness the Maharaja considers that the time has arrived for associating with his Government in the task of legislation a certain number of official and non-official gentlemen qualified by practical experience and knowledge of local conditions and requirements to assist in the making of laws and regulations, and that it is desirable to form a Legislative Council, comprising both official and non-official elements, so as to secure to measures proposed the benefit of discussion by a number of qualified men and from different standpoints. The introduction of any such institution is not, it may be remarked, intended in any way to affect or diminish the responsibility which, in legislation as in all other matters connected with the administration of the State, rests ultimately with His Highness himself; but solely to enable His Highness and his Government to ascertain correctly the wants, wishes and feelings of the people, and to ensure that the laws enacted by him as the Ruler of the State are in all respects well adapted to serve the ends in view. The publicity under which the discussions will ordinarily be carried on, and the facility afforded for the detailed consideration of every measure in a Select Committee, which is one of the features of a regularly constituted Legislative Council, are additional reasons for anticipating much practical good from such an institution.

His Highness the Maharaja has for these reasons been pleased to enact the accompanying Regulation to establish a Council for making Laws and Regulations in Mysore.

2. Under this Regulation, which will come into force on the expiry of three months from the date of its first publication, the Legislative Council will consist of the Dewan as President, the two Councillors as *ex officio* members, and not less than ten or more than fifteen additional members to be nominated by Government and holding office for a period of two years at a time. Not less than two-fifths of such additional members will be non-officials, and provision has been made for defining the conditions under which all or any of the non-official members are to be selected prior to nomination by Government. For the present, the number of additional members has been fixed at ten, and all nominations will be in the hands of Government, the question of allowing local bodies the privilege of submitting recommendations being considered later on when sufficient experience has been gained. The names of the additional members appointed will be notified separately.

3. While it is the function of the Legislative Council itself to make such rules as it may, from time to time, find necessary to regulate the conduct of its business, it is thought convenient to set out a few rules on the subject in a schedule to the Regulation, both as an example of what such rules are intended to provide for, and as likely to be sufficient in themselves for all practical purposes in the early days of a new Council, till it feels the necessity for adding to or altering them. The right of disallowing all or any of the rules made by the Council is reserved to the Government; but will, of course, only be exercised in the rare cases in which a rule made is likely to be prejudicial to the efficient, harmonious or speedy transaction of business.

4. The business to be transacted at meetings will be confined to the "consideration and passing" of measures introduced therein. The "enactment" of every

measure rests with His Highness the Maharaja and is constituted by the act of according his assent thereto. The proviso to section 12 excludes from the consideration of the Council a class of cases which all involve imperial relations, as also any other matters which may be specially reserved by His Highness the Maharaja for consideration by the Government. In all such cases it will be competent to Government to frame the necessary Regulations by means of the power reserved by section 14, and submit the same to His Highness the Maharaja for assent.

5. Special provision is made in section 15 for the passing of measures which, while not outside the jurisdiction of the Legislative Council, are yet so emergently required that the regular course of introduction, consideration and passing thereof in the Council is likely to entail serious delay or is otherwise inexpedient. Such Regulations, however, are not intended to be operative for more than six months; their further extension beyond that period being a matter dependent on the measures being formally placed before the Council in the regular course.

By Order,
K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

SCHEDULE.

RULES FOR THE CONDUCT OF BUSINESS OF THE MYSORE LEGISLATIVE COUNCIL.

I. DEFINITIONS.

1. In these Rules—

"Bill" means a proposed enactment in any stage before it has received the assent of His Highness the Maharaja.

In the computation of "Clear days," Sundays and holidays are not included.

II. SUMMONING AND ADJOURNMENT OF COUNCIL.

2. The times and places of meetings shall be fixed by the Dewan, and the Secretary shall notify the same in the Official Gazette and to each member by letter.

3. When the business before a meeting is concluded, the President shall declare the meeting dissolved. The President may adjourn, without any discussion or vote, any meeting or business, to any future day or to any part of the same day. The Council also may, upon motion made and carried, adjourn any meeting or business.

4. A motion that any meeting or business be adjourned or that the Council pass to the business next in order in the statement of business may be moved at any time and without previous notice as a distinct question, but not so as to interrupt a speech. If the motion is carried, the Council shall adjourn the meeting or business, or the further consideration of the business then under discussion shall be dropped, as the case may be.

5. A motion of the kind referred to in the last preceding rule shall take precedence of any other motion then before the Council, and, if such motion is rejected, no similar motion shall be made until after the lapse of what the President shall deem to be a reasonable time, nor by the Member by whom the previous motion was made.

6. If, at the time appointed for holding a meeting or adjourned meeting as aforesaid, or if at any time after the commencement of business at such meeting, the quorum required by section 9 of the Regulation (that is to say, the Dewan or some one of the councillors and one-half of the whole number of members of Council), is not present, the members present shall, without proceeding to business of any kind, adjourn until again summoned by the Dewan, and the fact shall be noted by the Secretary in the journal of the Council.

III. COURSE OF BUSINESS.

7. The Secretary shall send to every member a statement of the business to be transacted at each meeting so as to reach him at least three clear days before the date fixed for such meeting.

8. No business which is not entered in the statement of business prepared under Rule 7 shall be transacted at any meeting, unless the permission of the Dewan has been obtained previously to the meeting.

9. The President shall have power to regulate the order in which business is transacted, but, ordinarily, the succession of business shall be as described in Rule 10.

10. After the President has taken the chair—

(1) the Secretary shall report to the Council the Regulations which have received the assent of His Highness the Maharaja, under section 13 of the Regulation, and the Bills which have been disallowed since the last meeting;

(2) the Secretary shall report to the Council the petitions and other communications relating to the business of the Council which have been received by him since the last meeting, and shall, if required, read such petitions and communications to the Council;

(3) Members desirous of obtaining leave to introduce Bills, and having obtained the written sanction of the Dewan therefor, shall move that such leave be granted;

(4) the Council shall then proceed to dispose of the business left unfinished at the last meeting, if any; and this being done,

(5) the Council shall proceed to deal with the remaining business of the day.

IV. REGULATION OF DISCUSSIONS.

11. The President shall preserve order and shall decide all points of order submitted for his decision by the members and all questions connected with the interpretation of these rules

There shall be no discussion on any point of order and the President's decision shall be final.

12. Any member may draw the attention of the President to a violation of order and, while he is doing so, all other members shall remain silent.

13. In discussing questions coming before the Council for consideration, a member shall speak from his place and shall address the President.

14. Members may read their speeches and may also read, as part thereof, passages from books or papers bearing upon the question under discussion.

15. No member shall speak except upon business which is at the time regularly before the Council or, by special permission of the President, in explanation of what he said in a previous debate.

16. Except in discussing amendments, when the Council is settling the several clauses of a Bill, no member other than the mover shall speak more than once upon a question; but the mover shall, if he has spoken to the question when making his motion, be allowed a reply.

Provided that, if the matter before the Council be an amendment of a Bill, the member in charge of the Bill shall be entitled to speak next after the mover and seconder of the amendment.

17. A member who has spoken upon a motion may speak again upon any amendment of that motion. A member may also speak again in order to explain what he has previously said if it has been misunderstood.

18. When for the purpose of explanation or for any other reason, a member has any occasion to ask of another member a question relative to the business before the Council, he shall ask the question through the President.

19. Every matter which comes before the Council for decision shall be decided in accordance with the majority of votes after (1) motion has been made and seconded and (2) the question has been put by the President.

20. No discussion whatever shall take place after the question has been put by the President.

21. Any member may ask for any papers or information connected with the business before the Council, and the President shall determine whether such papers or information can be furnished.

If the President be not the Dewan, and the papers or information called for belong to any Department of the State other than the Legislative Department, the Dewan may veto the decision of the President.

V. MOTIONS GENERALLY.

22. Members who wish to make any motion at any meeting must give notice of their intention at the next preceding meeting or must send such notice in writing to the Secretary so as to reach him at least six clear days before the day fixed for the meeting, at which they intend to make the motion. Provided that the President may, at his discretion, permit a motion to be made of which such notice has not been given.

23. All motions of which notice is given under the preceding rule shall be entered in the statement of business prepared by the Secretary under Rule 7.

24. No motion shall be taken into consideration by the Council unless it is seconded.

25. A motion of which due notice has been given may, in the absence and at the request of the member by whom notice was given, be made by any other member; but, if not so made, or if a member announces his intention of withdrawing a motion standing in his name, the motion may be made by any other member, and, if not so made, shall not be put unless the Council otherwise orders.

26. If amendments of any motion are moved, the President, when taking the sense of the Council thereon, shall in his discretion put first to the vote either the original motion or any of the proposed amendments thereof.

27. A purely verbal amendment of a motion may be moved at any time during the discussion upon the motion and without previous notice, but no amendment which is substantially the negative of a motion shall be taken into consideration by the Council.

28. A motion shall not be taken into consideration by the Council if it substantially raises a question already disposed of at the meeting or is inconsistent with any resolution already passed thereat.

29. If any motion, as made, involves several points, the President may, at his discretion, divide it, so that each point may be determined separately.

VI. INTRODUCTION OF BILLS.

30. Any member who may have obtained the previous sanction of the Dewan in writing to introduce a Bill into the Council may move at a meeting of the Council for leave to introduce the same in accordance with section 12 of the Regulation; provided that at least six clear days' previous notice of the title and subject of the Bill has been given to the Secretary.

31. If the motion for leave to introduce a Bill be carried, the mover shall send the Bill, together with a full statement of the objects of and reasons for the proposed measure and any connected papers, to the Secretary, who will forthwith cause the Bill, the statement of objects and reasons and the connected papers to be printed and communicated to each of the members, and will also cause the Bill and the statement of objects and reasons to be published in the Official Gazette in English and in Kanarese.

Provided that the publication may be deferred under the orders of the Dewan until the next meeting of the Council, when the publication of such Bill shall be considered.

32. The Dewan may, at his discretion, direct the Secretary to publish any Bill together with a statement of the objects of and reasons for it, in the Official Gazette in English and in Kanarese, although leave to introduce the Bill has not been applied for under Rule 30; and the Secretary shall publish it accordingly and shall send a copy of the Bill and of the statement of the objects and reasons to each of the members. When a Bill has been published under this rule, it shall not be necessary to move under Rule 30 for leave to introduce it.

33. At any time after leave to introduce a Bill has been granted under Rule 31 or after publication has been ordered under Rule 32, the member in charge of the Bill may introduce it after giving six clear days' notice to the Secretary; provided that no Bill shall be introduced until fifteen clear days from the date of its publication.

When introducing a Bill, the member in charge of it shall move that the Bill be read in Council. The principle of the Bill and its general provisions may then be discussed, and, if the motion be carried, the Council shall then consider the question of referring the Bill to a Select Committee, and, if the question be decided in the affirmative, the Council shall appoint the Committee and may further direct that its report shall be submitted within a special period.

34. At any time during the progress of a Bill the member in charge of it may move for permission to withdraw it, and, if such permission is granted, the Bill shall be withdrawn accordingly. The member in charge of a Bill which has been published under Rule 32, but which has not been introduced and read in Council, may withdraw the same without further formality than a mere announcement of the withdrawal to the Council.

VII. SELECT COMMITTEE.

35. Select Committees may be appointed by the Council for any purpose connected with the business of the Council and may sit and submit their reports although the Council is adjourned. The member in charge of a Bill shall always be member of the Select Committee appointed to consider the Bill.

36. When a Bill has been referred to a Select Committee for consideration, it shall be the duty of the Committee to discuss each clause of the Bill and to recommend to the Council such amendments as seem to it to be advisable.

37. If the Council has fixed a period within which the Select Committee shall submit its report upon a Bill and the Committee is unable for any reason to submit its report within that period, the Dewan may, from time to time, extend the period on the application of the member in charge of the Bill.

38. The report of the Select Committee shall be signed by all the members of the Committee or a majority of them; but any member of a Select Committee may record his views in a separate minute.

39. The report of the Select Committee appointed to consider a Bill shall contain particulars of the principal amendments proposed and of the reasons for such amendments, or it may contain a recommendation that the Bill under consideration be abandoned.

40. The report of the Select Committee, any minutes that may have been recorded by individual members of the Committee, and (if the Bill has been amended) the Bill as amended by the Committee, shall be printed and copies furnished to each member of the Council. The report and minutes (if any) and (if the Bill has been amended) the Bill as amended, or such portion thereof as may have been amended, shall also, unless otherwise directed by the Select Committee, be published in the Official Gazette in English and Kanarese.

41. No business shall be transacted at any sitting of the Select Committee unless a majority of the members of the Committee including the member in charge of the Bill is present.

42. The Committee may elect their own Chairman, who shall have power to report to the Dewan the name of any member of the Select Committee who neglects or is unable to attend its sittings, and the Dewan may thereupon appoint, out of the members of the Council, an additional member to the Select Committee.

43. A Select Committee may, for the purpose of obtaining information, invite any person to be present at its sittings.

44. While a Select Committee is sitting to consider a Bill, all communications relating to the Bill which are received by the Secretary shall be referred to it.

VIII. PASSING OF BILLS.

45. When a Bill has been introduced and read in Council under Rule 33 and the Council has decided that it is not necessary to refer it for consideration to a Select Committee, the Council shall not proceed to take the Bill into consideration until the expiration of fifteen clear days from the date on which Bill was read under Rule 33.

In this case it shall not be necessary to make, on the day on which the Bill comes on for consideration, a formal motion that the Bill be taken into consideration.

46. When a Bill has been referred to a Select Committee under Rule 33, it shall not be taken into consideration by the Council unless copies of the report of the Select Committee and (if the Bill has been amended) of the Bill as amended shall have been sent to each of the members of the Council, at least fifteen clear days beforehand, and, in cases in which the Select Committee has not dispensed with the publication referred to in Rule 40, until the expiration of twenty-one clear days from the date of such publication. Subject to these conditions, the member in charge of a Bill, when presenting the report of the Select Committee to the Council, may move either that the Bill and Report be taken into consideration at once or that the consideration of them be postponed to a subsequent meeting.

The discussion upon a motion under this Rule that a Bill be taken into consideration shall not extend to the principle of the Bill.

47. Any member wishing to propose an amendment affecting the substance of a Bill shall send a copy of the proposed amendment to the Secretary in accordance with Rule 22, and the Secretary shall enter the same in the statement of business prepared under Rule 7; but it shall not be necessary to give previous notice of amendments of a purely verbal character or of amendments consequential upon, or moved in respect of, amendments which have been carried.

48. Proposed amendments of Bills shall not be moved until the Bill is actually taken into consideration and, when moved, they shall be considered in the order of the sections to which they relate.

Proposed amendments of Bills shall be governed by Rules 24, 25, 26, 28 and 29 relating to motions.

49. The President may declare that a proposed amendment of a Bill shall not be discussed or put into the vote on the ground that it is irrelevant or incomplete or that an amendment identical in substance with it has been previously disposed of by the Council in considering the same Bill.

50. When the amendments proposed by the Select Committee (if the Bill has been referred to a Select Committee), and such other amendments as may be proposed by any of the members before the Council, have been considered by the Council, the member in charge of the Bill, or in his absence any other member, may move that the Bill as amended be taken up and passed at a subsequent meeting.

At such meeting the Council shall consider the amendments, if any, moved on behalf of Government, and pass the Bill. No amendments other than those connected with the amendments moved on behalf of Government shall, without the special permission of the Dewan, be brought up for consideration at this stage.

IX. FINAL STAGES OF BILLS.

51. When a Bill has been passed by the Council, the Secretary shall revise and complete the marginal abstracts and the numbering of the sections thereof and shall forward it to the Dewan for submission to His Highness the Maharaja.

52. The Dewan shall communicate His Highness' assent or dissent to the Council by certificate in writing at the foot of the Bill, and the Bill with such certificate shall be lodged in the records of the Council.

53. No member shall make any motion upon, or otherwise bring under the consideration of the Council, the exercise by His Highness of the prerogative of withholding assent to a Bill, or of according sanction to it with any alteration which His Highness may consider necessary.

54. When a Bill has received the assent of His Highness the Maharaja under section of the Regulation, it shall be published in the Official Gazette in English and in Kanarese.

X. RULES RELATING TO PETITIONS.

55. Petitions to the Council must—

1. relate to some matter actually under the consideration of the Council;
2. be superscribed "to the Legislative Council;"
3. be dated and signed by the Petitioner or Petitioners;
4. be in respectful and temperate language; and
5. conclude with a distinct prayer.

56. If a petition is not in conformity with Rule 55, or if the Secretary sees reason to doubt the authenticity of any signature appended thereto, he shall certify the same on the back of the petition and report the fact to the Council. The Council may thereupon reject the petition, which shall then be returned to the petitioner or petitioners with a statement of the reason for such rejection.

The following Order of Government is published for general information.

By Order,
K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

No. G. 6027-99—G. M. 12-06-50, DATED THE 2ND APRIL 1907.

ORDER.—Under the Mysore Civil Service Rules of the 28th June 1906, the new A Schedule is to consist exclusively of members of the then existing A and B Schedules and of candidates admitted to the Civil Service as the result of a competitive examination; while the new B Schedule is reserved for those admitted to the Civil Service by special selection of His Highness the Maharaja.

2. The question of including in Schedule B such of the members of the present grade of Extra Assistant Commissioners as are duly qualified therefor had been reserved for separate orders, as also, impliedly, that of including therein officers of parallel grades in the Judicial, Police, Survey, Accounts and other non-technical Departments. On a careful consideration of the matter, and having regard to the fact that officers already borne on the permanent strength in these grades have been in service in many cases for several years, and have in most instances duly qualified themselves for the particular departments in which they are employed, Government think it unnecessary to exclude any of these officers from the new Schedule B on the ground of his not having passed all the tests prescribed in Rule VII of the Civil Service Rules. Any such course would also tend to perpetuate the existing diversity of grades indefinitely, contrary to the spirit of the Civil Service Scheme. All officers who are now permanently in the grades in question, and not merely acting or on probation, will therefore be included in Schedule B without reference to the tests they may still have to pass. It should, however, be distinctly understood that no such officer will be eligible for promotion to the special grade of Senior Assistant Commissioner, unless he shall have fully qualified himself by passing all the prescribed tests.

3. In arranging the names in the new Schedules A and B, regard should, the Government observe, be had to the following principles:—

(1) The classes in which officers are to be placed must be determined with reference to their present pay, which, if it is not the same as the pay of any of the classes of Assistant Commissioners under the new Rules, will, in the case of officers not of the grade of Assistant Commissioners in the past, be deemed to be the pay of the class carrying the next lower rate of pay, the difference being treated as personal allowance. Thus an officer drawing Rs. 380 in a grade of which the pay is Rs. 300 rising to Rs. 500 by annual increments of Rs. 40, will be placed in the third class on Rs. 350 with a personal allowance of Rs. 30. The cases of the Assistant Commissioners of the old Schedule B who have not reached the 1st class will be dealt with under the Civil Service Rules of 1891 applicable to them.

(2) The relative position of officers placed in the same class as above must be fixed with reference to the dates on which they respectively attained the pay of that class.

(3) Officers who are already in special grades carrying a progressive scale of pay may be allowed to draw the increments attached to such special grades, the excess at any given time above the pay of the class of Assistant Commissioners in which they are placed being treated as personal allowance.

4. Applying the principles indicated in the preceding paragraphs, the composition of the new Schedules will be as follows :—

44	Mr. B. Sreenivasa Iyengar ...	1-2-1907	.....	Appointed Assistant Comptroller on Rs. 200, on 16-5-1906. Not advantageous to this officer to retain the special scale of pay of Assistant Comptroller, (Rs. 200—20—400) which will therefore, as preferred by himself, not be applied to him.

5. The cases of the officers acting as Extra Assistant Commissioners *sub pro tem* and of the Probationary Extra Assistant Commissioners have next to be considered. Of these, Messrs. G. Hanumanta Rao and M. G. Krishnasami Rao virtually fill permanent appointments, namely, those of Vice-Presidents of the Mysore and Bangalore City Municipalities, besides being fully qualified for confirmation as Assistant Commissioners by passing all the prescribed tests. Their confirmation, however, is not possible at present, as the appointments of Vice-Presidents are outside the cadre of Assistant Commissioners under the Civil Service Scheme. They will therefore continue to be shown as *sub pro tem*, but will be absorbed at the earliest possible opportunity when vacancies occur in the Assistant Commissioners' grade, and seconded therein during their employment as Vice-Presidents. Meanwhile, they may count their service in such capacity towards the periods necessary for their promotions, their relative position in the list of Assistant Commissioners being determined by the date of their appointment as Vice-Presidents and Assistant Commissioners *sub pro tem*, namely, the 1st July 1906.

6. The other *sub pro tem* Extra Assistant Commissioners are Messrs. B. Shamanna and Mahomed Raza. The case of these officers is not, strictly speaking, on all fours with that of the officers who are already permanently in the grade. But Mr. Shamanna, although appointed *sub pro tem*, has been virtually filling a permanent place in the Excise Department for over five years past, and will therefore be confirmed as an Assistant Commissioner of the last class with effect from the 1st July 1906, even though he has not passed any of the qualifying tests. Mr. Mahomed Raza's case presents somewhat similar features, and will be similarly treated, especially as he is advanced in age, and not likely to pass the Civil Test, Parts I and II.

7. The case of the Probationary Extra Assistant Commissioners will be considered when they have qualified themselves for confirmation by passing the prescribed tests.

No. R. 8879—*L. R.* 488-06-3, *dated* 28*th March* 1907.

BANGALORE, THURSDAY, APRIL 11, 1907.

PART II.

REVENUE DEPARTMENT.

Circular No. 11117—25, *dated 1st April* 1907.

The following Inspection Note of the Revenue Commissioner on the working of the Agricultural Banks in the Seringapatam and Mandya Taluks is published for the information and guidance of the Inspector of Agricultural Banks and Deputy Commissioners of Districts.

2. The accounts and registers of the Agricultural Banks at Palhalli, Kyathanhalli, French Rocks and Seringapatam and those of the late Banks at Mandya and Satnur were inspected on the 26th and 27th of February 1907.

3. As regards the Mandya and Satnur Banks which have already been ordered to be wound up, several registers including the register of balance sheets were not forthcoming; and an inspection of the rest revealed many irregularities, of which the most serious relate to the execution of bonds by members for certain amounts due to the Bank which do not tally with the amounts shown, in the cash book and the ledger, to have been actually given out to them. In more than one instance, especially in the transactions of the Satnur Bank, it was found that members had executed bonds for larger amounts than what they had actually received from the Bank. It is therefore necessary that caution should be exercised by the Inspector of Agricultural Banks in ascertaining sums due to the Bank from such members before their recovery.

4. The other four Banks which are now working have maintained the registers in a fairly satisfactory manner.

5. Of these four Banks, all except that at French Rocks show in their accounts a decent reserve (about two or three thousands of rupees). The poor financial condition of the French Rocks Bank is chiefly due to the unscrupulous management entailing heavy expenditure on establishment. A clerk on Rs. 25 is certainly a luxury for such a small Bank. It is time that all these Banks are compelled by the Inspector to curtail their regular establishment charges, so as not to exceed a prescribed maximum of expenditure. It will not be unfair if some of the Banks be required to reimburse expenditure improperly incurred.

6. A comparison of the forms of registers maintained by these Banks discloses a want of uniformity in the forms as well as the wording of individual columns. The Inspector of Agricultural Banks should take steps to prescribe suitable forms for being adopted by all the Banks in the State, after studying the existing forms in detail. Further, the form of the half-yearly cash balance statements requires revision. At present these do not show the receipts and

expenditure *for the half year* but deal with the *total* amount of the Bank's transactions *from its very commencement.* They should hereafter be made to show the various transactions for the half year separate from those of the period previous thereto. Again, as these half-yearly balance sheets do not really show the exact assets and liabilities of the Bank, the Inspector of Agricultural Banks should prescribe a half-yearly statement of assets and liabilities for each Bank in the following form, the figures for the statement being taken as they stand at the end of the half year :—

Assets.	*Liabilities.*
(1) Loans due from members.	(1) Government loan unpaid.
(2) Interest due from members.	(2) Interest due to Government.
(3) Penalty, etc., due.	(3) Loans and deposits repayable to members and others.
(4) Deposit in Treasury or Savings Bank.	(4) Interest due on the above.
(5) Cash in the hands of the President or Agent.	(5) Reserve fund.
(6) Present value of furniture, etc., or any other property owned by the Bank.	(6) Others items (to be detailed).
(7) Any other items not included in the above.	
Total	Total

Surplus or Deficit.

7. The absence of touch between the Amildar and the Banks in his taluk is, in no small measure, responsible for the poor success achieved in the working of the Agricultural Banks. It is very essential that the Amildar should keep an intelligent watch over their proceedings without in any way interfering with their proper working. As auxiliary steps in this direction the Inspector of Agricultural Banks should arrange that the Banks should get the approval of the Amildar in cases of admission of new members or of resignation or removal of old members, that the proceedings of periodical meetings should be regularly communicated to the Amildar and that the half-yearly balance sheets and the monthly cash abstracts should be sent to the Deputy Commissioner through the Amildar who will be able to check them with the Taluk Treasury accounts.

8. It is necessary in the interests of Government that the solvency and worth of in-coming and out-going members of the Banks should be watched by the Amildar with a view to ensure that the security of the Banks for the loans advanced to them by Government, which consists of the property of the members, is not unduly depreciated by wealthy members leaving the Banks and new members of little substance taking their places. Further the list of valuation of the property of members should be revised every year by the Amildar and thus kept up to-date.

Circular No. 11127-34, *dated 1st April* 1907.

In acknowledging receipt of this office No. 2309-16 of 3rd September 1906, requiring submission of the Revenue Administration Report before the 1st September of every year the Deputy Commissioner of Kolar in his letter No. 2150—94, dated 20th September 1906, stated that "the nature of works and accounts in particular are such as are not conducive to get up any really accurate or useful report with such expedition, with our official year closing on 30th June and leaving barely 60 days for verification or needful adjustments, etc. If the 1st September is adhered to, it will eventually necessitate the submission of another more accurate and correct report later on in the year or of giving merely approximate figures for the year under report compared with later corrected figures of the previous year. Even till now, several departmental accounts are not yet received corrected or verified from the Comptroller's office, and I think that matters cannot be expected to be bettered with our system of Khistbandi."

2. Copy of the above letter was forwarded to the Comptroller for opinion and he was asked whether "there is anything in the system of accounts obtaining at present to prevent their adjustment within the time prescribed for the submission of the Administration Report."

3. The Comptroller in reply in his letter No. 4720—B. R. 718 of 22nd February 1907, says :—

"I beg to state that under the existing system it is not possible to close the financial accounts of a year before the 1st week or so of December of the succeeding year without seriously interfering with the accuracy of the year's records, and that Government after consideration of all the matters connected with the subject decided that the books of this office might be closed in December each year."

"For the purpose of the District reports, the Treasury preliminary figures will be available for verification in the last week of July and in case verification with the figures of this office is considered desirable, it may be done in the 1st week of September."

"If proper arrangements are made by District Officers for a monthly verification of their figures with those of the Treasuries, the errors for adjustment in the final accounts will be minimised and there should not be any important variations between the preliminary and final figures of a year on this account."

4. It will be seen from the above-quoted observations of the Comptroller, that while the accounts of a year cannot be finally closed by the Account Department till the following December, there is nothing to prevent the District Officers from verifying their accounts with the Treasury preliminary figures which will be available in the last week of July, and that if the District Officers made a monthly adjustment of their figures with those of the District Treasury, the errors requiring adjustment in the final accounts would be minimised.

5. The Deputy Commissioners of Districts are accordingly requested to adopt these suggestions of the Comptroller in time and submit their reports to this office on or before 1st September of each year, without waiting for final adjustment of accounts.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

GENERAL PROCEDURE AND CONDUCT OF BUSINESS.

MYSORE MUNICIPAL REGULATION OF 1906.

Sections 26 (1), (4) *and* (5), 24 (1) *and* 46 (*a*).

1. The ordinary meeting of the Municipal Councillors shall be held at the Municipal Office once a month on the third Thursday of each month at 8 A.M., or on such date and time as may seem expedient to the President.

2. At an hour fixed for a meeting of the Councillors, if a quorum be present, the business of the meeting may at once commence, and, if neither the President nor a Vice-President be present, the meeting may proceed at once to choose a presiding Councillor under Section 26 (5). If the President or the Vice-President arrives after a presiding Councillor has been chosen by the meeting, the presiding Councillor shall leave the chair, and the President or Vice-President shall preside.

3. A Councillor wishing to speak must rise in his place. The Councillor who first rises to speak has the right to be heard. In cases of doubt, the Chairman shall decide who is entitled to speak. No interruption to the speech of a Councillor shall be permitted, except that the Chairman may call the Councillor to order, and any other Councillor may rise and request the Chairman to call the speaker to order.

3 (a). All questions from one Commissioner to another relating to the business of the meeting shall be put through the President.

4. All points of order shall be decided by the Chairman alone, and the Chairman's decision upon a point of order shall not be disputed at the meeting at which it is given.

5. Each Councillor rising to speak shall direct his speech to the question before the meeting or at an amendment which he himself is about to propose, or to a point of order always addressing the President from his place. A Councillor having spoken to a proposition or amendment is not at liberty to speak again to such proposition or amendment.

Provided that the mover of a proposition or amendment shall have a right of reply, after the Chairman has ascertained that no other Councillor entitled to speak, desires to speak.

Provided also, that any Councillor may second a proposition or amendment by saying "I second the proposition" or "amendment," and may reserve his right to speak later.

Provided also, that a Councillor who wishes to explain any misconception of expressions used by him may do so with the permission of the Chairman.

6. Routine resolutions such as recording periodical statements or confirming the proceedings of a Committee, may be put to the meeting by the Chairman without their having been moved or seconded. Propositions regarding the choice of a presiding Councillor, adjournments and the like must be seconded, but need not be in writing.

Except as provided above, every proposition and every amendment must be in writing and must be seconded.

7. After the proposition has been moved and seconded, any Councillor may propose an amendment thereto.

Provided that no Councillor shall be at liberty to propose more than one amendment to any proposition, except when such proposition is for the passing of a budget or of a set of general rules, or is otherwise of such a nature as to require the making of many amendments to different parts of it.

8. The proposer of any amendment shall state it to the Chairman at any time before he resumes the seat. When the mover of a proposition or an amendment has resumed his seat, the Chairman shall read the proposition or amendment to the meeting and ask if any Councillor seconds it, and until the proposition or amendment is seconded, the Chairman shall not permit any discussion on the question. If no Councillor seconds the proposition or amendment, the Chairman shall declare that the proposition or amendment is lost.

9. A Councillor shall not read his speech, but may refresh his memory from notes and may, with the consent of the Chairman, read passages from books or documents cited in behalf of his argument.

10. If a Councillor has given due notice of his intention to move a proposition, and if that Councillor be not present at the meeting, or shall have ceased to be a Councillor before the meeting, or be unwilling to move the proposition of which he has given notice, any Councillor present at the meeting may, with the consent of the Chairman, move the proposition of which notice has been given.

11. An amendment shall usually be in the form of a proposal to omit words from the original proposition, to insert words therein or to add words thereto.

Every amendment must be relevant to the proposition it is proposed to amend, and must be framed so as to form therewith an intelligible and consistent sentence. An amendment which is the direct negative of the proposition shall not be allowed.

12. A Councillor who intends to propose an amendment to a proposition is at liberty to send at any time beforehand to the President or Chairman, his proposed amendment in writing.

13. After a proposition has been proposed and seconded, the proposed amendments which the President or Chairman has received shall be arranged in the order in which, if agreed to, each would stand in the amended proposition, and if any more proposed amendments are handed to the Chairman, they shall be inserted in that order and the Chairman shall call upon the proposers of amendments in that order to move their amendments.

14. Each amendment must be decided before the next amendment is entered upon, but after any amendment has been proposed and seconded, any Councillor may move that the amendment be amended by the omission, insertion or addition of certain words, and the Chairman shall thereupon ask if any other Councillor seconds the proposal, and if seconded, the proposal to amend the amendment shall then become the question before the meeting.

15. No amendment may be made to words which it has already been resolved shall stand part of, or be added to, the original proposition or amendment, except by addition of other words.

16. No amendment may be proposed which is the same, in substance, as a proposition or amendment which has been negatived during that meeting.

17. A proposition or amendment which has been moved and seconded, cannot be withdrawn without the permission of the meeting.

18. The Chairman may move and second propositions or amendments, speak and vote without vacating the chair.

19. When a question is put to the vote, the Chairman shall call for a show of hands, and the Chairman or a Councillor at his request, shall count the hands shown for and against and declare the result. If any Councillor challenge the correctness of the members thus declared, the hands shall be counted a second time. Provided that if any two Councillors request a poll, the Chairman shall call the roll of the Councillors and record on the minutes of the meeting the names of the Councillors voting for and against.

20. A Councillor who is present at a meeting may refrain from voting. If the question before the meeting be the confirmation of a report, or proceedings of a Committee, the members of that Committee may vote. If the conduct of a Councillor be in question, that Councillor may vote.

21. At a meeting the Councillors may resolve themselves into a Committee to consider any subject which is before the meeting. In Committee, a proposition need not be seconded and a Councillor may speak more than once. The decision of the Committee shall be reported to that or to a subsequent meeting for confirmation.

No money orders will be received by the undersigned except from outside the Province.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipts of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

MYSORE CITY MUNICIPALITY.

EXPLANATORY MEMO ON THE BUDGET ESTIMATES OF THE MYSORE CITY MUNICIPALITY FOR THE YEAR 1907-08.

Receipts:

I. Octroi.—The estimate under the several sub-heads are based on the actual realizations of the past six months of the current year and the realizations of the last six months of the previous year.

II. Taxes on houses.—The sanctioned budget estimate figure is retained for this year's estimate.

III. License receipts.—The estimated demand is based on the actual realization of the past six months of the current year and the realization of the last six months of the previous year.

IV. Carriage tax.—V. Taxes on animals.—As a Municipal Tax Collector has lately been appointed to the City, the estimated demand is entered with the hope that he would find out carriages or animals hitherto left out for want of proper check and bring them all for taxation.

VI. Tolls and ferries.—As the right to collect tolls at the several toll-gates is sold by auction, it is not possible to say what amount would be realized under this head. For budget purposes the actual receipt of 1905-06 has been taken.

VII. Other Mohatarfa taxes.—The estimate is based on the average realization of the past two years.

VIII. Rent.—The estimate is based on the realization of the last six months of the current year and the realization of the last six months of the previous year.

IX. Fines.—The estimate is based on the average realization of the past three years.

X. Miscellaneous.—A demand of Rs. 2,000 under the head (4) scavenging fees is entered as the system of daily conservancy has been ordered to be introduced tentatively in Chamaraj and Nazarbad Mohallas. The demand under other heads except contribution which was reduced from Rs. 20,302 (specially raised during last year with a view to deal with the special repairs of roads in the City on account of the visit of Their Royal Highnesses) to Rs. 7,770, has been based on the collection of last six months of the current year and the second six months of the previous year.

XI. Payments for Municipal services rendered to individuals.—No provision has been made under this head as the supervision of laying house service connections has been transferred to the Public Works Department as per orders of Government.

Expenditure.

Besides the fixed charges on all other items a sum of Rs. 156 has been provided to meet the increments payable to munshi sanctioned by Government and increment to peons recommended by the Board as per details given in Form No. III.

The provision under office furniture has been raised from Rs. 40 to Rs. 500 as the Municipal office is very badly in need of tables, record-racks and almirahs, etc.

As approved by the Board a sum of Rs. 300 has been provided under the head reserve fund to increase the pay of officials whom the President considers deserving. As much inconvenience is felt by the Municipal Councillors for want of peons for each of them a provision for seven extra peons (on Rs. 5 each per month) has been made under this head.

III. Collection.—(*a*) *Octroi.*—Besides the fixed charges a sum of Rs. 60 has been provided to meet the increment of pay to the Sayer Daroga as per Government Order No. 73—San. VI. Registration of Births and Deaths.—Last year's sanctioned provision has been retained.

VII. Lighting.—Last year's sanctioned provision has been retained.

VIII. Public Works.—(*a*) *Establishment.*—The pay and allowance of Sub-Overseer has been omitted as per Government Order No. 7386-7—Ml. (568-05)-9, dated 1st March 1907. Provision has been made to increase the pay of Municipal Executive Engineer from Rs. 80 to Rs. 100 per month as the Board have resolved to secure the services of an Engineering graduate on Rs. 100 rising to Rs. 150 by an annual increment of Rs. 10 with the usual allowance in place of the present Municipal Engineer as reported in this office No. 115, dated 7th March 1907.

(*b* to *n*) *Works.*—Out of the available funds after meeting the fixed charges, the amounts required to keep the roads and other works in an efficient order have been distributed under several heads. Particulars of works are given in Form No. II. All estimates for original works, etc., for Rs. 500 and upwards will be submitted to Government for sanction as usual. No provision has been made under Water Works as it has since been transferred to the Public Works Department.

IX. Charitable grants.—Besides the fixed charges on all the other heads a provision of Rs. 264 has been made to meet the $\frac{3}{4}$rds cost of the establishment of the Dispensary at Weavers' Lines, Mysore.

Provision has also been made to meet the proportionate cost of a geyser required for the use of the Maharani's Hospital at Mysore as per Government Order No. 8732-5—Ml. 251-05-6, dated 22nd March 1907, and for a midwife to the Dispensary at Nazarbad as well as the increased rate of rent to the building.

X. Education.—As the Board intend to have one pial school for every 200 houses in the City for primary education and as the amount set apart for this purpose is quite insufficient to meet the requirements for giving effect to the above proposal, the allotment under this head has been increased from Rs. 9,600 to Rs. 12,000.

XI. Miscellaneous.—Rs. 931 has been provided in excess of the sanctioned estimate for 1906-07 with a view to meet the demands under the heads "Fairs and festivals," Peoples Park, other charges and other items such as reward for dog and snake killers and subsistence allowance to cholera contacts.

Closing balance.—Necessary closing balance has been retained.

BANGALORE,

A. RANGASWAMI IYENGAR,

RULES FOR THE GRANT OF LICENSES FOR TIMBER AND OTHER PRODUCE.

For all timber and other forest produce sold otherwise than from forest or sale depots, a prepaid license must be obtained from persons authorized to grant it before any of the aforesaid produce can be cut, collected or removed by the purchaser.

2. License forms will be in books containing 50 forms in each in triplicate and shall be supplied only by the District Forest Officer. The forms should bear two printed numbers,—one book number and the other serial license number as in Forest cheque books. The former shall run on continuously for each kind of license not changing with the year, and the latter serially from 1 to 50. Such licenses should also bear the stamp of the District Forest Office.

3. Licenses will be of seven kinds as detailed below:—

1. For timber of reserved kinds	...	Printed on white paper.	
2. For timber of unreserved kinds	...	Do	yellow do
3. For firewood and charcoal	...	Do	red do
4. For bamboos	...	Do	blue do
5. For grazing	...	Do	green do
6. For minor forest produce	...	Do	brown do
7. For general	...	Do	rose do

4. All license books will be supplied from the Stationery Office, Bangalore, to the Conservator of Forests in Mysore, who will keep a stock of them and supply as many as may be required on indent to each District Forest Officer, who will submit an abstract statement of receipts, issues and balances in hand in Form A.

5. The District Forest Officer will supply the license books to issuing officers either direct or through the Range officers on indent which should be accompanied by a statement in Form A.

6. An account shall be kept by the District Forest Officer and Range officers of all license books received and issued in Form B and of a ledger account in Form C. License books of all descriptions must be kept securely under lock and key, and the District Forest Officer and Range officers will invariably check and compare the numbers with the periodical statements on inspecting offices.

7. *License-issuing officers.*—There will be four classes of license-issuing officers, *viz.*:—

I would retain the Taluk Amildar in this category. He has been authorized by the subsidiary rules of 21st September 1889 to issue licenses for felling and removing bamboos, etc., from District Forests and it seems undesirable to divest him of this power. H. R.

1. Specially authorized Forest officers.
2. Specially authorized village officers.
3. Salaried license vendors.
4. Commissioned license vendors.

There shall not be more than three or four vendors in each Range, including Forest and village officers.

Village officers and commissioned vendors will receive commission ranging between a minimum of Rs. 6-4-0 and a maximum of Rs. 12-8-0 per cent on the monthly amounts collected. The limits within which Forest officers are authorized to receive and retain moneys, prescribed in Government Proceedings No. 2907-16—Ft. F. 16-96, dated 5th October 1899, should not be exceeded.

To ensure the success of the new scheme I would be more liberal in fixing the commission. It may well be allowed at double the rate recommended by the District Forest Officer. Kamaishdars are given their commission at this rate. H. R.

Security is not necessary in the case of village officers whose solvency and respectability are vouched for by Amildars, but in the case of others as well as of the last two classes, cash security in the shape of Savings Bank deposit for Rs. 150 or personal security for Rs. 300 should be taken. They should further execute an agreement for good behaviour in Form D.

8. License-issuing officers shall remit to the nearest Taluk Treasury the amount of their collections accompanied by a letter of advice as often as possible, but not less than once a month. License-issuing officers of the last two classes shall not retain in their hands revenue in excess of their securities.

In the case of patels who are appointed license vendors, the help of Forest subordinates may be given in carrying the remittances to the Treasury whenever necessary. H. R.

9. The commission earned by vendors of the second and fourth classes will be paid to them by the Range officers on receipt of their monthly accounts supported by Treasury receipts.

10. *License-recovering officers.*—Duplicates of licenses issued shall be recovered

1. Forest officers. 2. Specially appointed recovering officers. 3. Village officers.

Licenses should be checked and the produce covered by them compared, as far as possible, before the produce leaves the limits of the forest. Patels of villages should check every license taken out in their villages and recover the duplicates. All duplicates recovered by recovering officers shall be sent to the Range officer once a month.

But when the patel is himself the license vendor, an independent recovering officer will of course be necessary. H. R.

11. *How to write up license forms.*—Issuing officers will receive from applicants the prescribed fee on the produce applied for and write up all the three parts of the license form in accordance with instructions as regards locality, quantity, route, etc., which will be issued from time to time by the District Forest Officer. They shall sign and date each part, hand over the original and duplicate to the purchaser and keep the triplicate attached to the book as a counterfoil for record in his office.

12. *Duties of license issuing officers.*—Licenses should be issued at all hours of the day and no purchaser should be detained longer than it is necessary to receive his fees and write up the license. License vendors will remit all the collections into the Taluk Treasury with as little delay as possible. They will be solely responsible for the safe custody and transmission of revenue. They should maintain a register of receipts and issues of licenses in Form E and a daily abstract in Form F. A monthly abstract of the latter should be submitted to the Range officer in the same form supported by Treasury receipts. License books, accounts and cash will be open to the inspection of all Revenue, Forest and Police officers.

This will not be practicable in the case of the village officer whose Revenue and Police duties not infrequently require his attendance at the taluk head-quarters or elsewhere. To meet this difficulty, I would propose that he may be authorized to perform his duties as license vendor by proxy, during periods of his unavoidable absence from the village. H. R.

Counterfoils of used-up license books should be returned to the Range officer.

13. *Duties of Range officers.*—The Range officers will maintain the following registers:—

1. Register of receipts and issues of license books in Form B.
2. Ledger showing license books issued and returned by issuing officers in Form C.
3. Register showing abstract of monthly statements of permits issued and revenue realized in support of the entries in their cash accounts in Form F. This register will be compiled from the corresponding monthly returns received from the issuing officers. They shall take care to compare the figures with those entered in recovered duplicates. A copy of this register will be submitted to the District Forest Officer with the monthly accounts.

14. All revenue obtained by sale of licenses and credited into the Treasury should be exhibited with full particulars in the debtor and creditor sides of the cash book.

15. On receipt of the license-issuing officer's accounts, they should check them carefully, and, if found correct, disburse to vendors entitled to them the commissions they have earned. License books and accounts of license-issuing officers should be checked once a month by the Range Officers or Foresters.

16. The counterfoils of license books returned by issuing officers will be checked carefully with the monthly returns submitted by issuing officers, and any differences noticed shall immediately be brought to the notice of the District Forest Officer. Recovered duplicates of licenses will be compared with their corresponding counterfoils and pasted on to them, reporting to the District Forest Officer any differences noticed between them. Counterfoils of used-up license books together with the recovered parts shall be sent to the District Forest Officer for custody. District Forest Officers will check Registers E and F of license vendors and their license books at least twice a year and note the result in their weekly diaries. They will also check Registers B and C maintained at Range Offices and license forms, counterfoils and recovered duplicates of licenses and record the result in their half-yearly Range Office inspection report.

17. *Duties of recovering officers.*—As soon as produce has been checked with the license and found to be correct, the original and duplicate parts of the license shall be endorsed under the signature of the recovering officer with the words "checked and passed," and the endorsement shall be dated and the original license will be handed over to the person producing it and the duplicate retained for transmission to the Range Officer. Should the produce not agree in quantity or kind with that specified in the license, it will be retained and a report to that effect submitted to the nearest Magistrate or Forest or Police Officer.

Patels of villages will be held responsible for checking licenses and comparing the produce covered by them when such produce is removed into their villages and for the punctual transmission of recovered licenses to the Range Officer.

18. *Conditions under which the license is granted.*—The following conditions will be printed on the back of the original license for the guidance of the licensee:—

(*a*) The license is not transferable and must be shown on demand to any Forest Officer, any Revenue Officer or to any Police Officer.

(*b*) The licensee shall produce this for check with the produce before the Forest Officer from whose jurisdiction the produce has been removed or to any recovering officer specially appointed for the purpose or to the patel of the village into which the produce is removed.

(*c*) The licensee shall observe all the conditions stated in this license as to quantity and kind of produce and as to the locality where it should be collected and the road by which it should be removed.

(*d*) Any breach of the above conditions will render the holder liable to immediate cancelment of this license and to the punishment provided by law.

19. *General.*—If, before the expiry of the period mentioned in the license, the produce has not been cut, collected or removed in pursuance of the license, the license shall be deemed to be cancelled, but the licensee shall be entitled to an extension of the period upon his proving to the satisfaction of the Range Officer that the non-removal was owing to unavoidable causes, such as heavy rains, floods or any accident while in transit on his paying a renewal fee equivalent to one-fourth of the fee already paid. Such extension of period should be immediately intimated to the license-issuing officer for note in the original license.

BANGALORE,
1st May 1907.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

REVENUE DEPARTMENT.

Jute Substitutes.

The demand for jute is steadily on the increase in British India and attempts are being made thereto extend the jute-growing area and to increase the yield of fibre from lands on which the crop is already grown. But the conditions in Mysore do not appear to be favourable for the cultivation of jute on any large scale. Therefore it is worth consideration whether the cultivation of other fibre-producing plants cannot with advantage be recommended to the raiyats.

2. Bulletin No. 3 of 1906 of the Agricultural Research Institute, Pusa, contains the results of an enquiry into the extension of jute cultivation in India by Mr. R. S. Finlow, B. Sc., F. C. S., Jute Specialist to the Government of Eastern Bengal and Assam; and in pages 34 to 41, information is given regarding some jute substitutes: The following precis made of the information contained therein, is published for the information of the people and the officers of the Revenue Department. The Deputy Commissioners of Districts are requested to circulate this to the leading raiyats and advise them to try these jute substitutes and mention the result thereof in the annual jamabandi report.

3. The two fibres which are likely to succeed as substitutes for jute, and promise to develop at a great rate in the near future are—

(*a*) *Hibiscus cannabinus.*

("Bimlipatam jute," "Bombay hemp," "Ambari" in Bombay, "Gogunara" in Madras and "Patwa" or "Mestha Pat" in Bengal and "Pundi" in Mysore)

and (*b*) *Crotolaria juncea.*

(Sunn hemp, Jubbulpore hemp, "Sann" or "Sani" in Bengal and "Janupanara" in Madras and "Janupu" or "Sanab" in Mysore.)

4. *Hibiscus cannabinus* (or Pundi).

This fibre meets the growing demands of the gunny factories and it is used on a large scale for the manufacture of gunny bags. The places where most of the fibre is at present produced are the Vizagapatam District (48,731 acres) and the Guntur District (12,914 acres). The cultivators in Vizagapatam have three different kinds of this fibre.

(*a*) *Salakana Vittanu,* sown with the first rain on low lands in May and reaped in August or September in time to allow of transplantation of winter paddy;

(*b*) "*Pedda Gogu*" sown in June or July in high lands and reaped in November; this forms the major portion of the supply of fibre;

(*c*) "*Chilly Gogu*" grown chiefly as a vegetable and not as a fibre crop. The kind grown in Ongole is said to be different from all the above.

The profit.

5. It is a very paying crop at present prices. A fairly good yield is given at two kandis (1 kandi=500 lbs) per acre and the prices last season varied between Rs. 30 and 50 per kandi the latter figure being the price at the end of the season. These figures indicate a net profit of from Rs. 30 to 50 per acre. If the land is well manured the return is considerably higher.

Conditions of cultivation.

6. The rainfall of places where it thrives well is between 34 and 40 inches though it thrives also in places where the rainfall is heavier, provided the land is not water-logged. It responds well to manuring, the chief manure used being cattle or goat dung, refuse and tank silt. The cultivators in Vizagapatam have evolved a rotation with paddy, sesamum, ginger, pea, cotton, ragi, etc., which in addition to giving the land the advantage of growing one leguminous crop in three, provides for frequent manuring. The amount of seed sown per acre varies from 14 to 18 lbs for a pure crop. The seed is often raised from plants grown in nursery beds used for chillies, which being watered and manured produce a vigorous development of the plant and thereby healthy seed. "Bimlipatam jute" can be successfully grown as a pure crop and with good profit.

Harvesting.

7. The most suitable time for cutting is when the flowering stage is just over or when the fruits of the plants have just set.

Extraction of fibre.

8. The process is said to be similar to that adopted in the case of jute in which the plants are cut with a sickle just above the ground, and tied in bundles about eight inches in diameter, exposed to the sun for a few days in order that the leaves may wither, then placed upright in water about 1 to 2 feet deep for a day or two, and finally the whole plant is immersed completely in the clearest water available and is allowed to remain until fermentation has proceeded so far that the fibre

separates easily from the stem; then the fibre is stripped off each stem by hand and washed by swinging it round the head and threshing it on the surface of the water.

9. *Crotolaria juncea (or Janupu or Sanab).*

Crotolaria juncea is grown as a fibre plant and also as fodder and green manure. It is capable of thriving on almost any soil; it grows luxuriantly in the rich heavy alluvial soil of the Godaveri and Krishna Deltas; also though not so vigorously on almost pure sandy lands on the East Coast and in the shallow stony soils of the plateau districts in the Central Provinces.

(*N. B.*—This is cultivated in the Sidlaghatta Taluk both for purposes of fibre and for manure. It has lately been grown in the Nanjangud Taluk also for leaf manure.)

10. When grown for fibre, it is sown as a monsoon crop on high land with the first rains; it is also cultivated as a cold weather crop in the Konkan. About one maund (82 lbs) of seed per acre is usually sown. On account of the fact that it is allowed to grow thickly to prevent branching, very little after cultivation is required as the thick growth (2 to 3 inches apart is a suitable distance) tends to stifle weeds from the commencement. Usually the crop is cut when the seed is ripe; so that besides the fibre a good yield of seed is also obtained, which is esteemed as cattle food. If the plant is not cut until the seed is dead ripe the fibre suffers in quality.

Its use.

11. It is stronger and more durable than jute and is used for sails, ships, cordage, etc.

Profit to be made.

12. Taking the average yield of sunn hemp on good land at ten maunds per acre and the price at Rs. 9 per maund the gross return will be Rs. 90 per acre, giving net profit per acre of over Rs. 50. On inferior land without manure the yield may fall to five maunds giving a probable net return of Rs. 15 per acre which is more than would be obtained from most other crops on the same land.

Retting.

13. In damp regions the plant is retted green and in a dry climate it is dried before being steeped in water. In either case the stems are stacked erect for a few days to kill the leaves and afterwards are allowed to stand in water for a day or two in order that the process of retting may be complete at the same time over the whole length of the plant. The period of steeping varies between five days and twelve days or longer according to the temperature of the water. The water should be clear. In some cases the fibre is stripped from the stem and washed afterwards but in others the whole is threshed on the surface of water until all adherent matter has been washed away. Stem and fibre are then dried after which the fibre is stripped from the stem.

Yield.

14. The average yield in the Betul District is from five to seven maunds of 82 lbs per acre but on good land or with manure it reaches double this amount.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Government Order No. Fl. 3246, dated the 28th May 1904, defining the scope of the powers and duties of the Comptroller and fixing his relations to Government.

Rules 21 to 24 of the Confidential Rules for the guidance of Secretariat Officers.

No. Fl. 8328-33, DATED BANGALORE, THE 6TH MAY 1907.

ORDER THEREON.—The Government of His Highness the Maharaja, having given their best consideration to the position and responsibilities of the Comptroller, and his relations towards the Government as fixed under the orders and rules read above, are of opinion that the present condition of things is not quite satisfactory. On the one hand, it is represented that the Comptroller does not, under the present system, possess full access to all matters in which he is concerned, and full opportunity for explaining his views before final orders of Government are passed and formally communicated to the Comptroller for needful action. And, on the other, it is found to lead to interminable discussions in cases of differences of opinion, and to fail to ensure finality at a specified stage.

In order to remedy this state of things and to give complete effect to the understanding that the Comptroller is the responsible adviser of Government in financial matters, the Government of His Highness the Maharaja are pleased to lay down the following rules and instructions in supersession of all previous ones.

2. The Comptroller will be *ex-officio* Financial Secretary to Government.

3. For purposes of records, appointment, gradation and discipline of establishment and office management generally, the Financial Branch will, as heretofore, be part and parcel of the General and Revenue Secretariat; but for purposes of case work, the instructions laid down below will be followed.

4. The following descriptions of work will be dealt with in the Financial Branch :—

(i) General Finance and Accounts—
- (a) Salaries and allowances, including pensions and gratuities.
- (b) Revision of salaries and establishments in all Departments.
- (c) Estimates.
- (d) Accounts.
- (e) Classification in accounts.
- (f) Audit and adjustment.
- (g) Interpretation and application of financial rules.
- (h) Ways and means.
- (i) Loans and investments.
- (j) Financial aspect of commercial and financial schemes.

(ii) Banking (including Savings Banks and State Life Insurance but not Co-operative Societies and Agricultural Banks).

(iii) Separate Revenue, comprising—
- (a) Salt.
- (b) Opium.
- (c) Ganja.
- (d) Hemp.
- (e) Arrack and toddy.
- (f) Stamps.

(iv) Miscellaneous, including—
- (a) Census.
- (b) Co-operative Societies.
- (c) Agricultural Banks.

5. (1) All correspondence relating to subjects comprised under sub-heads (a) and (c) to (j) of "General Finance and Accounts" and under the head "Banking" shall be addressed to the Financial Secretary. Correspondence relating to "revision of salaries and establishments" shall be addressed in the first instance to the Secretary to Government in the Administrative Department primarily concerned, who, after the administrative aspect of the case shall have been duly considered, shall refer the case to the Financial Secretary as provided in Rule 5 (3).

(2) All cases received in the Financial Branch as above shall, after being referenced and noted upon in the Branch, be submitted to the Financial Secretary in the ordinary course.

(3) The Public Works, Geological and other Departments shall consult the Financial Secretary unofficially on all questions embraced under the head of "General Finance and Accounts," and no orders shall issue from these Departments in exercise of powers conferred by the Mysore Service Regulations without such consultation.

(4) In original cases (other than Council matters) the Financial Secretary will submit the papers to the Councillors or the Dewan according to the usual procedure. The final orders in such cases shall be drafted by and issued under the signature of the Financial Secretary.

(5) Where the cases are received unofficially from another Department of Government or Branch of the General and Revenue Secretariat, the file with the views of the Financial Secretary recorded upon it, shall be returned to such Department or Branch. The Financial Secretary shall, in cases referred to him, have access to all papers relating thereto, including the minutes of the Dewan and Councillors and the orders of His Highness the Maharaja, but not papers of a confidential nature which may be directed by His Highness or the Dewan to be withheld.

(6) In Council matters the file, after submission to the Member of Government in charge, shall be transferred to the General and Revenue Secretary for disposal under the Rules of Council Business.

6. All cases falling under Separate Revenue and Miscellaneous, as well as all references from the Comptroller regarding the revision of his own establishment or the alteration of the pay or allowances of officers working under him, even if they come under the heads referred to in para 5 (*viz.*, General Finance and Accounts and Banking), shall be submitted by the Financial Branch to the General and Revenue Secretary.

7. Where cases are referred unofficially to the Financial Secretary for opinion, his views on questions of classification in accounts, audit and adjustment, and interpretation and application of financial rules, shall, subject to the rule contained in the next para, be accepted.

8. PUBLISHED BY AUTHORITY.

BANGALORE, FRIDAY, MAY 10, 1907.

NOTIFICATION.

No. 4130, *dated* 10*th May* 1907.

SALE OF SEPARATE ARRACK SHOPS FOR 1907-08.

1. Notice is hereby given that the exclusive right of selling arrack in each of the scheduled shops for the twelve months beginning with 1st July 1907 and ending with 30th June 1908, will be put up to public auction at upset prices, by the respective Deputy Commissioners or by Revenue Assistant Commissioners or by Divisional Officers of the Excise Department or other Officers specially authorized by the Deputy Commissioners for the purpose, on the dates and at the Taluk Head-quarters or other places mentioned below, subject to the conditions hereinafter set forth. If the sales are not completed on abovenamed days, they will be continued on the next following days (close holidays excepted).

2. (*a*) Each bidder at the auction will deposit a sum of Rs. 60 for shops in the Kolar Gold Fields, Rs. 25 for those in the Mysore and Bangalore Cities and Rs. 10 for those in other places, or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. It will, if offered, be received at any time within three days prior to the date of sale, provided that the Government may, at any time, dispense with such initial deposit. The deposits made by unsuccessful bidders, if not forfeited as hereinafter provided, will be returned at the close of the sale. The shops or group of shops will be knocked down to the approved highest bidder, subject to formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject any bid at his discretion without assigning reasons for the same. Such formal confirmation will, *unless revised by Government for special reasons*, be tantamount to an acceptance of the bid and will be necessary whether the sale be held by the Deputy Commissioner himself or by any other officer appointed by him. Parties intending to bid must attend either in person or by duly accredited agents. Should there be no bid above the upset price, for any shop singly, the officer conducting the sale may, in consultation with the Excise Divisional Officer, if present, club together more than one shop but not more than two in the District Head-quarter taluks and Kolar Gold Fields and six in other places or, if necessary, reserve shops for which there may be no bids, for disposal hereafter. He may, subject to formal confirmation of the Deputy Commissioner, sell the right in any particular case by means of tenders or by private negotiation. He may also lower the upset price at his discretion. The officer conducting the sale may at his discretion, and without assigning any reason, refuse to accept the bid of any person, on the ground that he has been convicted by a criminal court of such an offence, or has been guilty of such breach of the conditions of the license, or of a contract under the Excise Regulation or Opium Act, as to render him undesirable as a

holder of a license, or on the ground that he is insolvent, or in order to prevent arrangements to the detriment of Government interests, or for any other valid reason.

(*b*) No shop shall be knocked down in the name of more than one person or of more than one company or firm duly represented. The selling officer shall refuse to register as a purchaser any one in whose name the bidding has not proceeded.

3. (*a*) The successful bidder shall, on the exclusive privilege being knocked down to him, at once, if so required by the selling officer, or otherwise at the close of the day's sale, further deposit a sum equal to one-twenty-fourth part of his bid for the year, that is to say, one-half of the monthly rent, unless the initial deposit equals or exceeds two months' rent. Should he fail to do so, the deposit, if any, made by him under clause 2 (*a*) will be forfeited, and the privilege will be sold again on the above conditions, or otherwise disposed of at his risk, as the Deputy Commissioner or selling officer may determine.

(*b*) The person to whom a shop or group of shops has been knocked down and who has made deposits as provided above, shall be required to leave his address with the selling officer, in order that the confirmation of the sale may be communicated to that address by a notice, and he shall, within seven days after the service of the said notice by its presentation to himself or to any adult male member of his family at the place of said address or by its being affixed thereto or by its forwardal duly registered by post, pay at the Taluk Treasury concerned, such further sum as, with the former deposits, will make up an aggregate sum equal to two months' rent, and execute at the same time before the Amildar the necessary engagements and take out the necessary licenses, as hereinafter set forth.

4. (*a*) The deposit made under the preceding para shall be either in cash or in Government of India securities duly endorsed in favor of the Deputy Commissioner, provided that in cases where the monthly rent exceeds Rs. 10 in lieu of a deposit of two months' rent as above, the Deputy Commissioner may, in his discretion, allow any purchaser to deposit one month's rent as above, and to furnish approved personal security for an amount equal to four months' rent. In all cases where the monthly rent does not exceed Rs. 10, a cash deposit equal to two months' rent shall invariably be taken, and no personal security shall be accepted. If, on enquiry subsequent to sale, the purchaser shall be found to be a foreigner having no property in the Mysore State, or to be of doubtful solvency, he may be required to deposit twice the prescribed sum or to get a surety or sureties, residents of and possessing property in the Mysore State, to execute a security bond for the due payment of *all moneys* that may become due by him under the terms of the contract.

(*b*) Should the initial deposit exceed the sum required to be deposited under clause 3(*b*) or clause 4 (*a*), the excess will be refunded to the purchaser.

5. The purchaser shall execute an agreement in the prescribed form, binding himself and, unless exempted by the Deputy Commissioner by an order duly recorded, so much of his movable and immovable property as may be deemed sufficient by the Deputy Commissioner, to observe the conditions hereinafter set forth, as well as those specified in the license to be issued to him; and his surety or sureties, if any have been accepted, shall also execute a bond in the prescribed form binding himself or themselves and so much of his or their movable or immovable property as may be deemed sufficient by the Deputy Commissioner for the due fulfilment by the purchaser of the terms of the agreement. The agreement and the bond so executed shall be stamped at the expense of the purchaser. They shall also be registered at his expense when the amount secured is Rs. 100 and above.

6. If default is made in making the deposit or deposits or in executing the agreement or the security bond, if any, and in taking out licenses as aforesaid, the exclusive privilege shall be forthwith re-sold or otherwise disposed of by the Deputy Commissioner at the risk of the first purchaser, who shall forfeit to the Government any deposit or deposits already made by him, and shall further be liable to make good any loss caused by such re-sale or other disposal. He shall not be entitled to any gain accruing from the re-sale or other disposal, and he shall be debarred from bidding again for the same or for any other shop or group of shops. In the case of loss the forfeited deposits will be deducted from it and the remainder, if any, shall be recovered as if it were an arrear of land revenue. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

7. Re-sales or other disposal effected under para 6 will be at the risk of the defaulting bidder, who shall forfeit all gain; and in the event of a loss caused by re-sale or other disposal he shall make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale or other disposal. In the latter case, the forfeited deposit shall be deducted from the loss arising from the re-sale or other disposal, and the remainder, if any, shall be recovered from the defaulter in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit shall be credited to Government.

8. Schedules showing the amount of rental, the consumption of arrack in each shop, etc., during past years will be separately issued and may be had on application to Amildars, Excise Divisional Officers, Inspectors and Assistant Inspectors.

9. The license to be taken out under para 3 (*b*) above, shall be subject to the following conditions but nothing herein contained shall exempt the purchaser of the privilege from liability to the penalties prescribed for breaches of the conditions set forth below though a formal license may not have been issued :—

(1) The amount for which the privilege has been purchased shall, if it exceeds Rs. 12 per annum, be payable into the local Taluk Treasury in equal monthly instalments commencing from July 1907. But where it does not exceed Rs. 12 per annum, it shall be paid quarterly in not more than three equal instalments. Each instalment shall be regarded as the rent for the month or quarter in respect of which it is payable. The licensee is not required to make any additional payment on account of local cess. Each month's or quarter's rent shall be payable on or before the 20th of the same month, or before the end of the quarter for which the instalment is due. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, suspend, or declare by record in writing that the license is forfeited, and proceed to re-sell or otherwise dispose of the shop or group of shops as soon after the last day of the month or quarter as may be possible with effect from the date of issue of license to the new purchaser or from the date of other disposal. The officer who has power to suspend license may, however, at his discretion, allow sales to continue pending re-sale of other disposal of the privilege.

Note.—The licensee of a Jatra shop shall pay the rent thereof in full before the Jatra begins.

(2) The deposit made by the licensee shall be taken as security for the due performance of the conditions of the license and if not forfeited, credited or otherwise disposed of, shall be credited in payment of the instalments due in the last two months of the period of the lease. Provided, however, that where the shop or group of shops is re-sold or otherwise disposed of, the deposit shall, at the discretion of the Deputy Commissioner, be either forfeited or be appropriated towards the arrears due by the defaulter as well as towards the deficits, if any, arising from the re-sale or other disposal of the shop or group of shops. The balance of such arrears and deficits, if any, shall be recoverable from the licensee under the rules in force for the recovery of arrears of land revenue. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee.

(3) Interest at 6 per cent per annum shall be recoverable on all arrears from the date of default, and on deficits from the date of re-sale.

(4) The privilege conferred by the license extends only to the sale of arrack ordinarily of the strength of 20° under-proof and with the special permission of the Deputy Commissioner or other officer authorized by him to the sale of arrack of 30° U. (5) The lease shall not be transferable by sale, gift or otherwise or be sub-rented except with the permission of the Excise Commissioner, nor, if the Deputy Commissioner so orders, may any agent be appointed for the management of any privilege without his previous approval. All engagements entered into by the agent shall be deposited with the Deputy Commissioner within one month from the date of execution.

(6) Application for resignation of shop or group of shops will be summarily rejected by the Deputy Commissioner.

(7) The manufacturers of arrack or double-distilled or rectified country spirits or other special liquors as well as the licensees of arrack Bonded Depôts are prohibited from holding any interest in the retail vend of the above-mentioned spirits or from employing any person who has such interest.

(8) The sale or transport of arrack by persons suffering from leprosy or any contagious disease and the employment of such persons in the shop are prohibited.

(9) The license-holder shall purchase from the Bonded Depôts established palmyra jaggory and molasses arrack at Re. 0-10-11 per gallon of 20° under-proof, sugarcane jaggory arrack in duly corked sealed bottles at Rs. 1-6-5 per gallon and also special liquors referred to above, at such prices as may be fixed by the manufacturers.

(10) The licensee shall sell palmyra jaggory and molasses arrack to the public at Rs. 6-6-0 per gallon of 20° under proof (*i.e.*, at annas two per dram which is equal to 1—51st part of a gallon) and sugar-cane jaggory arrack at Rs. 1-3-10 per reputed quart bottle and at proportionate rates for lower strengths.

(11) The licensee of every shop in the Cities of Bangalore and Mysore shall pay a registration fee under the Municipal Regulations at the rate of rupees (180) one hundred and eighty per annum in advance for the period of the license for his shop, and he shall pay a surcharge of (4) four annas per gallon on all arrack sold by him in excess of 55 gallons a month in each such shop.

(12) The above rates to be charged for palmyra jaggory and molasses arrack, sugar-cane jaggory arrack, double distilled or rectified country spirits or other special liquors by the manufacturers. and the above fees are in addition to excise duty, which shall be prepaid at the prescribed rate of Rs. 4-12-0 (including local cess) per gallon of 20° U. P. and proportionately for higher or lower strengths, before the removal of the liquor from a Bonded Depôt established under the sanction of Government.

(13) The licensee shall pay the above duty and price into a Taluk Treasury or to a special shroff, if any, appointed on this behalf at the cost of Government, and located at the Taluk Cutcherry to receive such duty and price *daily* including Sundays and holidays or to such other officer as may be appointed by the Deputy Commissioner, and shall obtain a receipt in the prescribed printed form. On production of such receipt and an indent for the supply of the liquor covered by the receipt, the Bonded Depôt-keeper shall issue the quantity of liquor equal to the amount of duty and price shown in the said receipt which will be forwarded to the Excise Commissioner's office under the endorsement of the Bonded Depôt-keeper aforesaid, as to the date and hour when the liquor was issued. The Depôt-keeper aforesaid shall issue a pass in the prescribed form for the transport of liquor from the Bonded Depôt. He shall also issue sample bottles with the consignments in such manner as may be ordered by the Excise Commissioner.

(14) The licensee shall be bound to take over any liquor which may remain as stock in hand belonging to the out-going licensee on 1st July 1907, in the shop, paying him such compensation for the same as may be fixed by the Excise Commissioner.

(15) The licensee shall possess or use on any licensed premises only such standard measure as may, from time to time, be prescribed by the Excise Commissioner. The officers authorized to inspect licensed shops are empowered to enter and examine the premises, to test the measures in use and the liquor under sale and to call for and check the accounts kept in the shops.

(16) The licensee shall be bound by the provisions of the Excise Laws and rules in force and by any additional rules which may, from time to time, be prescribed under the Excise Laws, and if so required, deliver up his license for amendment or issue of a fresh one.

(17) The Deputy Commissioner may, whenever he thinks fit, direct shops to be closed, or permit transfer of shops from one place to another, provided the distance is not more than 200 yards, or direct new shops to be opened with the previous sanction of the Excise Commissioner.

(18) Persons who purchase group of shops may, with the special permission of the Excise Commissioner, who is at liberty to refuse it, and under a license by a competent authority, open a depôt and remove thereto liquor purchased from the Bonded Depôt and issue therefrom the requisite supply to their shops.

(19) The licensee of shop or group of shops shall not, during the term of the license, have any interest in the exclusive privilege of vending toddy or foreign spirits or liquors or both within 5 miles from it, nor permit any person having interest in the exclusive privilege of vending toddy or foreign spirits or liquor or both within the said area, to hold any share or interest in his exclusive privilege of selling country liquor; nor shall he, during the term of his license, without the written permission of the Excise Commissioner, have any interest, direct or indirect, in any arrack farm in any districts of the Madras or Bombay Presidency under the British Government or any other Foreign State or Territory, or Civil and Military Station, Bangalore.

(20) An Inspection note book with the pages numbered consecutively for inspecting officers to enter their remarks shall be maintained and be handed over to the Excise Inspector in charge of the Range or any officer authorized by him to receive it on a receipt being given therefor.

(21) If the licensee shall be convicted on prosecution before a Magistrate of any offence against the Excise Regulation, or Opium Act or other law for the time being in force, which in the Deputy Commissioner's opinion renders him unfit to hold the

license, it shall be lawful for the Deputy Commissioner to declare his license forfeited and sell or otherwise dispose of the privilege at the risk of the licensee.

(22) All sums payable by the licensee may be deducted from the amount of his deposit or recovered by attachment and sale of the property of the licensee or his surety, under any law for the time being in force for the recovery of arrears of land revenue.

With all consignments from the Depôt to the shop, sample bottles shall be taken in such manner as may be ordered by the Excise Commissioner.

(27) No consignments of arrack received at the shop, and which have been transported through British Territory, shall be opened before they have been verified by the officers authorized to do so.

(28) No water or other beverage, or liquor other than arrack of any quantity whatever shall be kept or sold in the shop in which arrack is sold, or on the person or in possession of the license-holder or vendor or any of his employees in the shop. No ingredients noxious to health shall be added to it either to increase its intoxicating power or for any other purpose. All officers authorized to inspect shops and depôts are empowered to detain any liquor found unfit for consumption or use and the Excise Commissioner, all Deputy Commissioners, Deputy Excise Commissioner and Excise Assistant Commissioners are authorized to destroy such liquor.

(29) No robbers or thieves or disorderly or riotous persons or prostitutes or soldiers or others known or believed to be deserters shall be harboured in the shop, and gaming, disorderly conduct, etc., therein shall be prevented, and information of their resort shall be given to the nearest Magistrate or Police Officer. REVENUE DEPARTMENT.

Circular No. 12980-88, *dated* 10*th April*—4*th May* 1907.

Copy of letter No. 146, dated 8th January 1907, from the Chief Engineer in Mysore, suggesting that in the matter of voluntary lump-sum contribntions promised by raiyats for the restoration, improvement or repair of irrigation works, the acceptance by Revenue Officers of instalment payments should be avoided as far as possible, except in cases of real hardship to raiyats, is circulated to the Deputy Commissioners of Districts for careful attention.

2. Deposit of payments of contribution in cases where there is no prospect of the balance being paid in promptly or of the work being put in hand should be returned to the parties concerned.

ENCLOSURE.

Letter No. 146, dated 8th January 1907, from W. McHutchin, Esq., M.I.C.E., Chief Engineer in Mysore, to A. Rangaswami Iyengar, Esq., B.A., B.L., Revenue Commissioner in Mysore.

I have the honor to inform you that in the matter of voluntary lump-sum contributions promised by the raiyats towards the restoration, improvement or repair of irrigation works, the procedure at present followed by the Revenue Department is to accept instalment payments of the same and pass them on to the credit of the Public Works Department as they are received, which encumbers the accounts of this Department and swells the objectionable items statement submitted monthly by the Comptroller, Public Works Branch, to this office.

This is due to the fact that these partial credits cannot be finally adjusted as, under standing orders, the works for which contributions are promised should not be started till after the entire accounts promised as contribution are recovered from the raiyats. There are many cases in which these unadjusted contributions continue to appear in the monthly and quarterly statements of objectionable items for years together, which is most objectionable. To remedy this state of affairs, it has been suggested by the late Examiner that these partial credits for contributions should be refused by this Department, but in my opinion, such an extreme measure is undesirable in view of the fact that there may be real cases of hardship to raiyats in some cases, and that it may be necessary to accept instalment payments: but at the same time such cases ought to be comparatively few in number.

2. I am of opinion that the cases in which partial credits are afforded should be avoided as much as possible, and that the Deputy Commissioners should co-operate with this Department to reduce them to a minimum, and refuse to accept instalment payments except in such cases as would entail serious hardship to the raiyats.

3. I shall be glad to be favoured with your views in the matter.

No. 12907, *dated* 1*st*—3*rd May* 1907.

Circular No. 2091—*T. A.* 236, *dated* 6*th May* 1907.

It is observed in the course of the audit of travelling allowance and detailed contingent bills, that there is no uniformity in the procedure adopted for the payment of the rent prescribed in Article 565(*c*) of the Mysore Service Regulations for the use of Government tents partly for Government and partly for private purposes. The rent is in some cases deducted from the amount claimed on the travelling allowance bill of the officers concerned, while in others it is deducted from the amount of the contingent bills of their office. The undersigned therefore requests that in future the rent referred to may be invariably deducted from the contingent bills.

EXCISE DEPARTMENT.

SALE OF TODDY SHOPS FOR 1907-08.

Notification No. 3962, *dated 3rd May* 1907.

1. It is hereby notified that the exclusive privilege of selling toddy in the several shops established for the purpose for one year, beginning with 1st July 1907 and ending with 30th June 1908, will be put up to public auction at upset prices by the respective Deputy Commissioners or by Revenue Assistant Commissioners or Divisional Officers of the Excise Department or other officers specially authorised by the Deputy Commissioners for the purpose, on the dates mentioned in the statement annexed, and at the respective Taluk or Sub-Taluk Kasabas, and, except as hereinafter provided, will be knocked down to the bidder offering the highest amount of rent above those prices. If the sales are not completed on the abovenamed days, they will be continued on the next following days (close holidays excepted). Should there be no bids for any shops singly, the officer conducting the sale shall be at liberty to group when necessary, in consultation with the Excise Divisional Officer, if present, the shops or if necessary, to reserve shops for which there may be no bids, for disposal hereafter, or to sell the said privilege in any particular case, by means of tenders or by private negotiation. The privilege in any Coffee Estate may be sold to the planter for a fixed amount not less than Rs. 12 per shop per annum. The shops in alienated villages shall be separately sold, and the amounts connected therewith shall be shown in the accounts under a distinct head. The sale in every case shall be subject to the conditions hereinafter set forth, and shall, *unless revised by the Government*, take effect on formal confirmation by the Deputy Commissioner, who shall be at liberty to accept or reject any bid at his discretion without assigning reason for the same. Such formal confirmation will be necessary whether the sale be held by the Deputy Commissioner himself or by any other officer appointed by him. Should there be no bid above the upset price, the officer conducting the sale may lower the upset price at his discretion. The officer conducting the sale may, at his discretion and without assigning any reason, refuse to accept the bid of any person on the ground that he has been convicted by a criminal court of such an offence, or has been guilty of such an infringement of the terms of his license or of a contract under the Excise Regulation or Opium Act as to render him undesirable as a holder of a license, or on the ground that he is insolvent, or in order to prevent arrangements to the detriment of Government interests, or for any other valid reason.

2. (*a*) Parties intending to bid must attend either in person or by duly authorized agents and no person shall be permitted to bid either on his own behalf or on account of any one else until he has made a deposit of Rs, 25 for shops in the Kolar Gold Fields and the Cities of Bangalore and Mysore and Rs. 10 for shops in other places, or such other reasonable amount as may be fixed by the officer conducting the sale, provided that the Government may at any time dispense with such initial deposit. Such deposit will, if offered, be received within three days previous to the date of sale. Deposits made by unsuccessful bidders will be returned at the close of the sale.

(*b*) No shops or group of shops shall be knocked down in the name of more than one person or of more than one company or firm duly represented. The selling officer shall refuse to register as a purchaser any one in whose name the bidding has not proceeded.

3. (*a*) The successful bidder shall, on the exclusive privilege being knocked down to him, at once, if so required by the selling officer, or otherwise at the close of the day's sale, further deposit a sum equal to one-twenty-fourth part of his bid for the year, that is to say, one-half of the monthly rent unless the initial deposit equals or exceeds two months' rent. Should he fail to do so, the deposit, if any, made by him under clause 2 (*a*) will be forfeited, and the privilege will be sold again on the above conditions, or otherwise disposed of at his risk, as the Deputy Commissioner or selling officer may determine.

(*b*) The person to whom a shop or group of shops has been knocked down and who has made deposits as provided above, shall be required to leave his address with the selling officer, in order that the confirmation of the sale may be communicated to that address by a notice, and he shall, within seven days after the service of the said notice by its presentation to himself or to any adult male member of his family at the place of said address or by its being affixed thereto or by its forwardal duly registered by post, pay at the Taluk Treasury concerned, such further sum as, with the former deposits, will make up an aggregate sum equal to two months' rent, and execute at the same time before the Amildar the necessary engagements and take out the necessary licenses, as hereinafter set forth.

4. (*a*) The deposit made under the preceding para shall be either in cash or in Government of India Securities duly endorsed in favor of the Deputy Commissioner. Provided that in cases where the monthly rent exceeds Rs. 10, in lieu of a deposit of two months' rent as above, the Deputy Commissioner may, in his discretion, allow any purchaser to deposit one month's rent as above and to furnish approved personal security for an amount equal to four months' rent. In all cases where the monthly rent does not exceed Rs. 10, a cash deposit equal to two months' rent shall invariably be taken, and no personal security shall be accepted. If, on enquiry subsequent to sale, the purchaser shall be found to be a foreigner having no property in the Mysore State, or to be of doubtful solvency, he may be required to deposit twice the prescribed sum or to get a surety or sureties, residents of and possessing property in the Mysore State, to execute a security bond for the due payment of *all moneys* that may become due by him under the terms of the contract.

(*b*) Should the initial deposit exceed the sum required to be deposited under clause 3 (*b*) or clause 4 (*a*), the excess will be refunded to the purchaser.

5. The purchaser of the exclusive privilege shall execute an agreement binding himself and, unless exempted by the Deputy Commissioner by an order duly recorded, so much of his movable and immovable property as may be deemed sufficient, to observe the conditions hereinafter set forth, as well as those specified in the license to be issued to him; and his surety, if any has been accepted under the above para, shall also execute a bond in the prescribed form binding himself and so much of his movable and immovable property as may be deemed sufficient by the Deputy Commissioner, for the due fulfilment by the purchaser of the terms of his agreement. The agreement and bond so executed shall be stamped at the expense of the purchaser. They shall also be registered at his expense when the amount secured is Rs. 100 and above.

6. If default is made in making the deposit or deposits or in executing the agreement or the security bond, if any, and in taking out licenses as aforesaid, the exclusive privilege shall be forthwith re-sold or otherwise disposed of by the Deputy Commissioner at the risk of the first purchaser, who shall forfeit to the Government any deposit or deposits already made by him, and shall further be liable to make good any loss caused by such re-sale or other disposal. He shall not be entitled to any gain accruing from the re-sale or other disposal, and he shall be debarred from bidding again for the same or for any other shop or group of shops. In the case of loss, the forfeited deposits will be deducted from it and the remainder, if any, shall be recovered as if it were an arrear of land revenue. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

7. As soon as the agreements and bonds have been executed, the Deputy Commissioner will issue a license in the prescribed form, assigning to the purchaser the exclusive privilege referred to therein, subject to the following conditions; but nothing herein contained shall exempt the purchaser of the privilege from liability to the penalities prescribed for breaches of the conditions set forth below, though a formal license may not have been issued to him :—

(1) The exclusive privilege conferred by the license extends to the sale of Date, Palmyra, Cocoanut, Bagani and Dadasal toddy. But in tracts where both Date and Bagani toddy shops exist, the licensee of the Date toddy shop shall not

tap Bagani trees and the licensee of the Bagani toddy shop shall not tap Date trees; but both licensees can tap any of the other palm trees named above.

(2) The Deputy Commissioner shall be at liberty to issue license for the sale of foreign liquors, for the manufacture and sale of country beer, and for the manufacture and sale of arrack and other country spirits.

(3) The amount of rent shall be payable into the local Government Treasuries on printed chellans furnished for the purpose by Government, in equal monthly instalments commencing from 1st July 1907. No amount shall be paid to or received by the Excise officers. In the malnad and semi-malnad taluks, the Deputy Commissioner may permit patels of villages who are not themselves licensees to receive payments not exceeding Rs. 50 from any individual at a time. But if the amount of annual rent for any shop does not exceed Rs. 12, the whole of it shall be paid quarterly in not more than three equal instalments. Each instalment shall be regarded as the rent for the month or quarter in respect of which it is payable. Each month's or quarter's rent shall be payable on or before the 20th of the same month or before end of the quarter. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, by record in writing, suspend or cancel the license, order the forfeiture of all deposits made by the defaulter and proceed to re-sell or otherwise dispose of the shop or group of shops at the defaulter's risk, as soon after the last day of the month or quarter as may be possible, with effect from date of issue of license to the new purchaser, or from the date of other disposal. Provided, however, that instead of re-selling the same as above, the Deputy Commissioner may, in his discretion, direct the Amildar to issue licenses to sub-vendors or vendors under the defaulting licensee for rents, the aggregate of which is not less than the rent the defaulting licensee had agreed to pay. The officer who has power to suspend the license may, however, at his discretion, allow sales to continue pending re-sale or other disposal of the privilege.

NOTE.—The licensee of a Jatra shop shall pay the rent thereof in full before the Jatra begins.

(4) For the supply of toddy to his shops the licensee shall have the privilege of obtaining, subject to tree-tax rules, toddy-yielding trees in the groves assigned to his shops or groups of shops, and he shall be at liberty to manufacture toddy from the trees in private lands, under private arrangements between himself and the owners of such lands. He may purchase toddy from any licensed toddy shopkeeper on application to the Inspector, who will grant the required permits on proof of the necessity for the same. No toddy except the produce of trees marked by a proper officer and tapped under a license shall be kept in the shop or offered for sale or sold.

(5) For all toddy-yielding trees, tree-tapping licenses shall be annual. For the convenience of the licensee, the applications for tree-tapping licenses will be received, trees will be marked, and licenses will be issued during the fifteen days and pots may be attached to such marked trees during the eight days, immediately preceding the period to which they relate to take effect from the commencement of such period. Provided that no toddy shall be removed from the trees except during the currency of such license.

(6) (*a*) Persons applying for the issue of tree-tapping licenses will be responsible to Government for all sums payable as tree-tax on account of the trees licensed therein to be tapped and also for tree-rent in the case of trees on Government unoccupied lands.

(*b*) On receipt of an application, the Inspector will at once take steps for the marking of the tree by an officer superior in rank to a Sub-Inspector, and for the timely issue of the license. Applicants for date trees shall get the requisite spaces on their stems prepared and point out to the marking officer, when required by the latter to do so, the trees applied for by them. Should they fail to do so, after reasonable notice, the tree-tax and tree-rent paid by them shall be liable to be forfeited at the Deputy Commissioner's discretion.

(7) No tree shall be tapped, nor shall toddy be drawn from any toddy tree, nor shall any pot be attached to any toddy tree until the tree has been marked by the proper officer. But the removal of leaves for the purpose of making incisions and the preparation of the spathes or incisions for the drawing of toddy is permitted as soon as the application in the prescribed form has been delivered to the Treasury concerned.

(8) (1) No tree shall be tapped for toddy without a license therefor to be obtained by payment of tree-tax at the following rates:—

Description of trees.	Rates of tree-tax per tree per annum. Rs. a. p.
Date	1 4 0
Cocoanut	2 2 0
Palmyra	1 9 6
Bagani or sago	2 0 0
Dadasal (Arenga wightii)	0 8 6

NOTE.—The licenses will be free of tax to the Mysore Government in the cases specified in clause 15 (1) (*b*) below.

(2) In addition to the above tax, tree-rent at Re 0-4-3 per tree per annum shall be paid for all Government trees applied for being tapped for the supply of toddy shops whether within or outside the Mysore Territories or in the Civil and Military Station, Bangalore.

NOTE.—No trees upon Government occupied land can be tapped without the consent of the owner. The present arrangement as regards trees on alienated land will hold good, subject, of course, to the levy by Government of tree-tax.

(9) The tree-tax shall be payable in the following instalments, unless the Excise Commissioner shall otherwise direct :—

Period within which license is applied for	Proportion of tree-tax to be paid at the time of application for license	Proportion of tree-tax to be paid on the first of the 3rd month
Between 1st July 1907 and 30th April 1908.	One-third	The remaining two-thirds.
Between 1st May 1908 and 30th June 1908.	The whole	.....

(10) (*a*) The tree-rent for trees applied for shall be payable in full at the time of application for tapping license.

(*b*) If any instalments are not paid within the time, the license shall be liable to be cancelled or suspended under Section 26 of the Excise Regulation.

(*c*) When the licensee makes defaulit and his shop is re-sold, his rights to and claim on Government trees cease and determine.

(*d*) In case of default, the Amildar with the Deputy Commissioner's permission, will order the suspension of the tapping license till the arrears are paid up ; and if, after receiving notice of such suspension, the defaulter continue to tap the trees, he will be prosecuted for illicit tapping.

(11) The deposit made by the licensee will be taken as security for the due performance of the conditions of the license, and if not forfeited or credited or otherwise disposed of, shall be taken in payment of the instalment due in the last months or month of the period of the license. All arrears and deficits payable by the licensee shall, with interest at 6 per cent per annum, be recoverable from him or his surety under the rules in force for the recovery of land revenue. Interest shall be calculated on all arrears from the date of default and on deficits from the date of re-sale or disposal otherwise. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee, nor will he be entitled to any compensation for any trees withdrawn or taken for the public purpose.

(12) If the Deputy Commissioner does not confirm the re-sale, he may make such other arrangements as may appear advisable for the remainder of the period of the lease, in which case he shall serve a notice on the defaulting licensee, informing him of the nature of the arrangements made.

(13) If the licensee of a group of shops wishes to establish a depot for depositing toddy required for distribution to his shops, he shall obtain a license for it in the prescribed form. The passes issued with the toddy transported, shall be subject to examination and check by the officers authorized in this behalf.

(14) The tree-tax on toddy produced by trees in the Madras Presidency but consumed in the Mysore State, will be credited to the Mysore Government. The rate of tree-tax to be paid in such cases will invariably be the highest in force on either side of the frontier. Tree-tax on trees in the Madras Presidency for which tapping licenses are about to be taken out by Mysore shop-keepers, must be paid in one instalment to the Amildar of the taluk concerned in the Mysore State, who will grant a receipt in the prescribed chellan form and certify at the foot that the applicant is a person entitled to take out tree-tapping licenses. The applicant will then make his application to British authorities in accordance with the Madras Government Tree-tapping Rules, and will obtain a transport permit from the Inspector concerned in the Mysore State for the transport of the toddy drawn from the frontier to the shop or depot for which it is intended, after having complied with all requirements of the Madras Government Rules.

(15) (1) Tree-tapping licenses in the prescribed form shall be issued on the application :—

(2) The licenses may be issued in the name of the applicant himself or of his nominees.

Notice No. 4007, *dated 7th May* 1907.

1. Notice is hereby given that the exclusive privilege of selling Country Beer or Porter in each of the taverns established in Bangalore and Kolar Gold Fields for the twelve months beginning with 1st July 1907 and ending with 30th June 1908, will be sold by public auction on the dates and at the places mentioned below by the Deputy Commissioner of the District concerned or other officer authorized by him.

2. The exclusive privilege will be put up to auction at the upset price fixed at Rs. 35 per Hogshead of Beer or Porter which will be sold in the taverns at Bowringpet and the Kolar Gold Fields and at Rs. 20 per Hogshead in the City of Bangalore.

3. The manufactures of Beer may bid for or purchase the taverns.

4. Each bidder at the auction shall deposit a sum of Rs. 250 for shops in Bowringpet Taluk and Rs. 100 for those in Bangalore or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. Each tavern will be knocked down to the approved highest bidder, subject to the formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject the bid at discretion, without assigning reasons for the same. Such formal confirmation will, unless revised by Government, be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents.

5. As soon as the auction is completed, the deposits made by the unsuccessful bidders, will be returned to them.

6. The person to whom the tavern has been knocked down, shall be required to leave his address with the sale-conducting officer in order that the confirmation of the sale may be communicated to that address, and within seven days after service of the said notice by its presentation to the purchaser or any adult male member of the family at the place of the said address or by its being affixed thereto or by its forwardal duly registered by post, deposit such further sum as, with the first deposit, will make up a total security of Rs. 500 for each tavern knocked down to him or such other reasonable amount as may be fixed by the Deputy Commissioner according to the value of each tavern; and shall take out licenses and execute counterpart-engagements, on the conditions hereinafter set forth. On the failure of any person to make the deposit or to take out license or to execute the counterpart-engagement, as aforesaid, the tavern will be re-sold at the risk of such person, or will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

7. Re-sales effected under para 6 *supra*, will be at the risk of the defaulting bidder, who shall forfeit all gain; and in the event of a loss by re-sale or other disposal he shall make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale or by disposal otherwise. In the latter case, the forfeited deposit shall be deducted from the loss arising from the re-sale or other disposal, and the remainder, if any, shall be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale or other disposal, the whole of such deposit shall be credited to Government.

The transport of the crop shall be covered by a permit which will be granted on the contractor's application by such officer. All plants uprooted in the process of cultivation or of harvesting, and not used for the preparation of Ganja as well as the plants pronounced by competent officers unfit for such preparation, shall be destroyed under the supervision of the said officer.

(5) The crop shall, as soon as it is harvested, be cured with the least possible delay, under the supervision of the Excise officer appointed for the purpose and the Ganja removed to the Provincial Depôt in the Government Central Distillery buildings, Bangalore, or such other place as may be ordered by the Excise Commissioner under a transport permit granted by the aforesaid Chief Excise Officer.

(6) On the arrival of the Ganja at the place referred to in clause (5) above, it shall be carefully garbled and picked so as to be free from powder, seed and stalk and fit for issue and shall then be duly weighed by the Excise Officer concerned, and reported upon to the Excise Commissioner for payment of its value in the usual course.

(7) Should the contractor harvest any portion of the Ganja hemp crop without permission, or fail to remove the crop from the field to the place of manufacture, or to deliver the whole Ganja manufactured therefrom, at the Government Central Distillery, Bangalore, or such other place as may be ordered by the Excise Commissioner within the time specified in the transport permit, or manufacture any intoxicating drugs therefrom in a place other than that specified in his license, or disregard the instructions issued by Excise Officers for the purpose of safeguarding the revenue, the contractor shall render himself liable, at the discretion of the Excise Commissioner, to forfeit a sum not exceeding rupees fifty for every such wilful act or omission to be with-held from his deposit amount. Such forfeit under this clause shall not be held to prevent the prosecution of the contractor for any offence which may thereby have been committed against the provisions of the Excise Regulation, V of 1901, as amended from time to time or other law for the time being in force.

(8) The supply of Ganja as above should be completed by 15th April of each year, and if by that date the contractor fails to supply the requisite quantity of Ganja to Government, he will be bound to pay to Government the charges which will be incurred to import Ganja from British Territory or other foreign territory on prepayment of the duty payable for the purpose and also any loss which will be sustained by the Mysore Government in consequence of his failure to supply Ganja. Such charges and loss will be recovered from the defaulter by forfeiting to Government his deposit and by attaching and selling his other property under the rules for the recovery of Land Revenue.

P. N. PURNAIYA,
Excise Commissioner.

(1) Subject No. 211 regarding the levy of tolls on District Fund roads.

Resolution.—At present the only District Fund toll-gate in this district is at Lakshmipura on the Kallurkatte-Kollurghat road. The establishment of a toll-gate at Sunnadakoppa on the Hirekerur-Siralkoppa road has lately been sanctioned by Government.

The Board are of opinion that additional toll-gates may be established at the undermentioned places as already proposed (*vide* President's docket No. 871—694, dated 20th May 1899).

(1) Near Badadabyle on the Sorab-Siddapur road.

(2) At Sampagod on the Shimoga-Sorab-Sirsi road.

(3) At Devarhalli on the bank of the Varada on Siralkoppa-Hanagal road.

(4) At Ganigankanve on the Honnali-Tumbinakatte road.

Information as to the traffic on these roads and the probable income from tolls will be collected and placed before the Board at a future meeting.

(2) Subject No. 223. Village Sanitation Rules to be made applicable to villages containing 50 houses.

Resolution.—The Board unanimously approve of the proposal to introduce the Village Sanitation Rules in villages containing 50 houses. A list of such villages will be prepared and submitted to Government.

(3) Subject No. Travelling allowance to Taluk Board members.

Resolution.—A mileage rate of 4 annas per mile may be granted to the members of Taluk Boards who have to travel more than five miles from their residences. The members of the District Board of Shimoga are now allowed mileage at that rate.

(4) Subject No. 205. Investiture of Taluk Board members with certain powers.

Resolution.—Recorded.

(5) Subject No. 218. Amounts to be set apart out of Local Funds for sanitation of villages containing more than 50 houses.

Resolution.—Such specific allotments are not possible under the present financial condition of the District Funds. There are now sweepers at Anantapur, Kudli and Aynur, paid out of District Funds. The case of each large village will be considered on its merits.

(6) Subject No. 448, regarding Shikarpur-Masur road. Read also petition from the inhabitants of Shikarpur Taluk on the above subject.

Resolution.—The Executive Engineer will be asked to give his opinion as to the suitability of the road with an estimate of cost.

(7) Subject No. Construction of bridges and road dams on Sulekere-Sasalu road.

Resolution.—The portion of the road lying within this district is in very good order.

(8) Subject No. 212. Allotment for village roads in the malnad.

Resolution.—The proposed increase is not desirable.

4. Read Secretary's memo No. 6815, dated 2nd February 1907, regarding Municipal share of the contribution payable for the dispensary building at Kumsi.

Resolution.—Towards the construction of a dispensary at Kumsi, the Board resolve to bear half the cost, *viz.*, Rs. 3,945. They observe that Rs. 1,500 has already been credited on this account to the Medical budget during 1905-06 and that Rs. 1,675 has been provided in the budget for 1906-07 on account of a dispensary at Siralkoppa. It is resolved that the construction of a dispensary at Siralkoppa be held in abeyance for the present and that both the above sums amounting to Rs. 3,175 be utilized for the Kumsi Dispensary, the balance of Rs. 770 being provided in the District Fund budget for 1907-08. The Board are also of opinion that considering the benefits of the dispensary at Kumsi to the coolies employed in the Manganese Mines, the Manganese Company may fairly be called upon to bear the Municipal quota of the cost of Rs. 2,630. The Secretary to the Company will be addressed accordingly.

5. Read Executive Engineer's docket No. 49, dated 31st December 1906, 16th January 1907, regarding the petition of the villagers of Ubrani hobli praying for the opening of a road from Channagiri to Ajjampur.

Resolution.—A road from Channagiri to Tavarakere and on the Bukkambudi is what is required to connect Channagiri with Sivane. Two miles of road has already been formed from Channagiri out of funds allotted for the repair of Channagiri-Tavarekere cart-track. The estimate for continuing the road to Bukkambudi which is under preparation should be expedited.

The question of a Vaidasala for Tavarekere and musafirkhana at Jammapur will be referred to the Taluk Board.

6. Read—

(1) Secretary's memo No. 6005, regarding the establishment of a dispensary at Humchakatte.

(3) Petition dated 7th January 1907, from the residents of Araga village praying that the Hospital Assistant of Tirthahalli may be allowed to pay weekly visits to their village.

Resolution.—The Board have in their meeting held on 5th November 1906, resolved that a sum of Rs. 5,000 may be granted for the Sulekere-Davangere road out of the

closing balance as a special case. As a reference has already been made to Government on the subject, there is no necessity to send a revised budget.

The re-appropriation proposed for improving drainage and metalling Godikoppa-Kallurkatte road, has also been sanctioned by the Board and sent to the Executive Engineer with this office docket No. 277, dated 5th December 1907, and therefore it does not seem necessary to sanction this again. 10. Read Honnali Taluk Board President's yadi No. 771 forwarding the resolution of the Taluk Board in the matter of opening an approach road from Heremath near Honnali town to the Honnali-Shikarpur road.

11. Read Honnali Taluk Board President's yadi No. 770, forwarding the resolution of the Taluk Board in the matter of opening a road to the Brahmin cremation ground on the Tumbinakatte road.

Resolution.—Approved.

17. Read Tirthahalli Taluk Board President's yadi No. 739, forwarding a resolution of the Taluk Board in the matter of maintaining the cart-track from Tudur to Koppa out of District Funds at Rs. 10 per mile.

Resolution.—Not necessary.

18. Read yadi No. 652, from the President of Honnali Taluk Board forwarding an estimate for Rs. 856 for constructing a tunnel and repairing the approach road to Chelur.

Resolution.—The estimate will be referred to the Executive Engineer for opinion.

19. Read Executive Engineer's docket No. 1363, dated 8th December 1906, forwarding plan and estimate amounting to Rs. 590 for a dam across the perenial stream in 5—2 of Gersoppa Falls road.

25. Read yadi number from the President of the Nagar Taluk Board forwarding a resolution of the Nagar Union in the matter of mohatarfa tax on carts levied in that Union to be given for the benefits of the Union.

Resolution.—The resolution of the Union will be forwarded to Government. It is observed that the shop-tax in this Union has not been abolished as directed in Government Proceedings No. 4743-51—L. B. 193-2, dated 3rd December 1904, but is levied and credited to the Union, because the tax on houses was found insufficient.

1. Read Government Order No. 3984-91—L. B. (294-05)-15, dated the 16th November 1906, stating that Government consider that the proposal of levying fees on every notice of demand served on the owners or occupants of houses in Village Unions may lie over till sufficient experience of the working of the Local Boards Rules has been gained and requesting to report at the end of the current official year whether the District Boards on further consideration of the subject still adhere to the resolutions now adopted by them in regard to the levy of notice fees.

Resolution.—Recorded.

2. Read Subject No. 15 of the District Board Proceedings of the 20th September 1906 and the resolution thereon regarding that no batta to the members was necessary, but that the savings thus effected might be utilized for the additional establishment and increase of salaries to the President's office establishment.

Resolution.—Resolved that no change in the existing rules is necessary.

3. Read Government Order No. 3613-21—Med. 97-06-2, dated 5th November 1906, requesting the Deputy Commissioners of Districts and the Presidents of District Boards and ascertain their views as to the utility, by placing the subject before the respective District Boards of the branch dispensaries and their willingness to bear the charges for establishment and medicine and submit copies of their resolutions with their opinions thereon for the orders of Government, and that members of the Representative Assembly who have taken an interest in the matter of medical aid may also be consulted with advantage.

Resolution.—It is resolved that the proposal does not commend itself to the Board. It is unanimously of opinion that in important villages where there is a necessity for a dispensary and where it is not at present possible to locate a Local Fund Dispensary, a native pandit may be appointed.

4. Read Chikmagalur Taluk Amildar's report No. 165, dated 20th December 1905, enclosing the opinion of the Chikmagalur Taluk Board *re* the taking over for management, the road opened out by Mr. Godwin Bower from the Handi Estate to join the Belur-Sanivarasante road to District Funds.

Resolution.—Resolved that further particulars should be called for.

5. Read Secretary's docket No. 6241-8—L. B. (78-06)-1, dated the 11th January 1907, forwarding for the consideration of the District Board, Dasara Representative Assembly Subject No. 211 *re* the maintenance of District Fund roads to be met from Provincial Funds, and the question of levying tolls if the District Funds are insufficient.

Resolution.—Resolved that after mature consideration, the Board considers that it is not advisable to levy tolls on any of the roads in the district, in view of the depression of the coffee and other industries. At the same time the Board again respectfully requests the Government to take up for maintenance by the Provincial Funds the Chikmagalur-Yedahalli road *via* Muthodi for the present, and thus grant relief to the District Funds to the extent of Rs. 4,000.

6. Read Executive Engineer's docket No. 326, dated 13th November 1906, forwarding an estimate for Rs. 1,785 for additional stone road rollers required for the District Fund roads in the Kadur District.

Resolution.—No funds for this at present.

7. Read Executive Engineer's docket No. 315, dated 27th October 1906, stating that 2¼ miles out of the 6 miles of the Koppa-Badagi road have been transferred to be maintained by the Provincial Funds and that the savings effected therefrom may be utilized for increasing the mileage allotment of the remaining length of road to be maintained from District Funds as the present mileage allotment is inadequate to maintain the road in good order.

Resolution.—Resolved that it may be granted.

8. Read Executive Engineer's docket No. 377, dated 30th December 1906, forwarding a revised estimate for Rs. 1,188 for widening the bund of the Thimmasettikere tank for obtaining sanction to the estimate.

Resolution.—Resolved that the widening of the bund is very necessary. Since there are no funds, the Government may be moved to provide funds from the Provincial Funds, or if this cannot be done, that it may be allowed to be paid from the minimum balance of the District Funds.

9. Read Executive Engineer's docket No. 347, dated 4th December 1906, forwarding for countersignature two estimates for Rs. 155 and Rs. 170, respectively, for improving and repairing the 3rd class travellers' bungalow at Aniganahalli.

Resolution.—Resolved that the estimates be countersigned.

10. Read Executive Engineer's docket No. 8 of the 12th January 1907, forwarding an estimate for Rs. 98 required for the preliminary operations for tracing the road from Chikanahalli to Chikmagalur to a length of 20 miles for countersignature.

Resolution.—Resolved that the amount may be granted.

11. Read Executive Engineer's docket No. 9, dated 12th January 1907, requesting sanction to certain reappropriations out of the grants sanctioned in the budget for the current year 1906-07, for works to be executed by the Public Works Department.

Resolution.—Resolved that the reappropriation be sanctioned.

12. Read Executive Engineer's docket No. 349, dated 5th December 1906, intimating that repairs required for the 3rd class travellers' bungalow at Lingadahalli could not be executed as the estimate was not sanctioned last year and that a reappropriation of the sanctioned grants in the budget is not possible.

Resolution.—The Board is strongly of opinion that this mud built and dilapidated bungalow is not worth spending any money on its repairs. There is no money in the District Funds for the construction of a new bungalow. This bungalow stands on the Provincial road—Chikmagalur-Tarikere road.

Resolved that the Government be approached with a request that necessary funds be granted from the Provincial Funds for its construction.

13. Read Executive Engineer's docket No. 2, dated 3rd January 1907, forwarding a statement showing the amount of contribution payable from District Funds on account of the repairs of the Local Fund Dispensaries during 1907-08.

14. Read Senior Surgeon's docket No. 3429, dated 24th November 1906, forwarding copy of memo No. 258, dated 18th October 1906, from the District Medical Officer, Kadur District, suggesting that the pay of the waterman of the Yedahalli Dispensary may be raised from Rs. 2 to Rs. 3.

Resolution.—Resolved that the question of granting an increase of pay from Rs. 2 to Rs. 3 to all the watermen in the dispensaries be reserved for consideration at the next meeting.

15. Read Senior Surgeon's docket No. 4564, dated 15th January 1907, forwarding copy of memo No. 356 of the 7th December 1906, from the District Medical and Sanitary Officer, requesting that Rs. 2-8-0, now included out of the detailed contingent amount of Rs. 5 per mensem allotted to the Women and Children's Dispensary at Chikmagalur may be separately provided for in the budget as allowance for the sweeper and dhobi, as the sum of Rs. 5 is entirely required for the purchase of things absolutely necessary.

Resolution.—Resolved that the additional amount may be sanctioned.

16. Read proposal of the Kadur Taluk Board to increase the contingency allowed for the Hindu Vaidyasala at Birur from Rs. 9 to Rs. 15 on the ground that more than 1,000 patients are attending monthly and that the sum of Rs. 9 now allowed is very insufficient.

Resolution.—Resolved that this Board is prepared to bear its quota of the additional cost.

17. Read Koppa Amildar's report No. 132, dated 24th January 1907, enclosing Mr. Parton's letter, stating that he is prepared to erect a pound and that the pound-keeper will be his mestri and in his absence, his munshi, and requesting to establish a cattle-pound on the score that the village cattle are doing great havoc to the crops in his estate.

Resolution.—Resolved that the receipt of the report called for from the Divisional Assistant Commissioner be awaited.

18. Read application from one Ramaswamaiya, Sanitary Engineering student, praying for a district scholarship to study for the Sanitary Inspector's test.

Resolution.—Resolved that no scholarship can be granted.

19. Read Chikmagalur Vice-President's yadi No. 585, enclosing the resolution of the Chikmagalur Municipal Board, dated 31st January 1907, stating that an additional allowance of Rs. 10 towards the cost of medicines and a compounder on Rs. 7, may be given for the Hindu Vaidyasala at Chikmagalur and requesting the opinion of the District Board in the matter.

Resolution.—Resolved that it may be reserved for enquiry and disposal at the next meeting.

20. Read Government Order No. 3455-65—Med. 297-05-4, dated 2nd November 1906, requesting to place the matter of granting mileage to midwives may be placed before the District Board and to submit their resolution.

Resolution.—Resolved that midwives attending on labour cases in the mofussil may be given allowances even for marches within twenty miles provided they travel beyond five miles from head-quarters.

21. Read the Divisional Assistant Commissioner's yadi No. 690, dated 29th January 1907, forwarding the proposal of the Kadur Taluk Board recommending that a road to Nidagatta from the Sakrepatna-Banawar road may be opened as the village is an important one and consists of 300 houses and 800 people and as the villagers have executed a mutchalika binding themselves to pay a contribution of 2 annas for every rupee of assessment that each raiyat pays and this amount is estimated at about Rs. 240.

Resolution.—Resolved that the District Funds cannot afford to undertake this work.

22. Read Revenue Commissioner's docket No. 8995, dated 12—18th February 1907, requesting to submit the resolution of the District Board *re* the source from which the cost of acquiring certain lands in Lingadahalli, Tarikere Taluk, for extending the compound of the travellers' bungalow and musafirkhana at Lingadahalli has to be met.

EXCISE DEPARTMENT.

No. 4130, *dated* 10*th May* 1907.

SALE OF SEPARATE ARRACK SHOPS FOR 1907-08.

1. Notice is hereby given that the exclusive right of selling arrack in each of the scheduled shops for the twelve months beginning with 1st July 1907 and ending with 30th June 1908, will be put up to public auction at upset prices, by the respective Deputy Commissioners or by Revenue Assistant Commissioners or by Divisional Officers of the Excise Department or other Officers specially authorized by the Deputy Commissioners for the purpose, on the dates and at the Taluk Head-quarters or other places mentioned below, subject to the conditions hereinafter set forth. If the sales are not completed on abovenamed days, they will be continued on the next following days (close holidays excepted).

2. (*a*) Each bidder at the auction will deposit a sum of Rs. 60 for shops in the Kolar Gold Fields, Rs. 25 for those in the Mysore and Bangalore Cities and Rs. 10 for those in other places, or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. It will, if offered, be received at any time within three days prior to the date of sale, provided that the Government may, at any time, dispense with such initial deposit. The deposits made by unsuccessful bidders, if not forfeited as hereinafter provided, will be returned at the close of the sale. The shops or group of shops will be knocked down to the approved highest bidder, subject to formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject any bid at his discretion without assigning reasons for the same. Such formal confirmation will, *unless revised by Government for special reasons*, be tantamount to an acceptance of the bid and will be necessary whether the sale be held by the Deputy Commissioner himself or by any other officer appointed by him. Parties intending to bid must attend either in person or by duly accredited agents. Should there be no bid above the upset price, for any shop singly, the officer conducting the sale may, in consultation with the Excise Divisional Officer, if present, club together more than one shop but not more than two in the District Head-quarter taluks and Kolar Gold Fields and six in other places or, if necessary, reserve shops for which there may be no bids, for disposal hereafter. He may, subject to formal confirmation of the Deputy Commissioner, sell the right in any particular case by means of tenders or by private negotiation. He may also lower the upset price at his discretion. The officer conducting the sale may at his discretion, and without assigning any reason, refuse to accept the bid of any person, on the ground that he has been convicted by a criminal court of such an offence, or has been guilty of such breach of the conditions of the license, or of a contract under the Excise Regulation or Opium Act, as to render him undesirable as a

holder of a license, or on the ground that he is insolvent, or in order to prevent arrangements to the detriment of Government interests, or for any other valid reason.

(*b*) No shop shall be knocked down in the name of more than one person or of more than one company or firm duly represented. The selling officer shall refuse to register as a purchaser any one in whose name the bidding has not proceeded.

3. (*a*) The successful bidder shall, on the exclusive privilege being knocked down to him, at once, if so required by the selling officer, or otherwise at the close of the day's sale, further deposit a sum equal to one-twenty-fourth part of his bid for the year, that is to say, one-half of the monthly rent unless the initial deposit equals or exceeds two months' rent. Should he fail to do so, the deposit, if any, made by him under clause 2 (*a*) will be forfeited, and the privilege will be sold again on the above conditions, or otherwise disposed of at his risk, as the Deputy Commissioner or selling officer may determine.

(*b*) The person to whom a shop or group of shops has been knocked down and who has made deposits as provided above, shall be required to leave his address with the selling officer, in order that the confirmation of the sale may be communicated to that address by a notice, and he shall, within seven days after the service of the said notice by its presentation to himself or to any adult male member of his family at the place of said address or by its being affixed thereto or by its forwardal duly registered by post, pay at the Taluk Treasury concerned, such further sum as, with the former deposits, will make up an aggregate sum equal to two months' rent, and execute at the same time before the Amildar the necessary engagements and take out the necessary licenses, as hereinafter set forth.

4. (*a*) The deposit made under the preceding para shall be either in cash or in Government of India securities duly endorsed in favor of the Deputy Commissioner, provided that in cases where the monthly rent exceeds Rs. 10 in lieu of a deposit of two months' rent as above, the Deputy Commissioner may, in his discretion, allow any purchaser to deposit one month's rent as above, and to furnish approved personal security for an amount equal to four months' rent. In all cases where the monthly rent does not exceed Rs. 10, a cash deposit equal to two months' rent shall invariably be taken, and no personal security shall be accepted. If, on enquiry subsequent to sale, the purchaser shall be found to be a foreigner having no property in the Mysore State, or to be of doubtful solvency, he may be required to deposit twice the prescribed sum or to get a surety or sureties, residents of and possessing property in the Mysore State, to execute a security bond for the due payment of *all moneys* that may become due by him under the terms of the contract.

(*b*) Should the initial deposit exceed the sum required to be deposited under clause 3(*b*) or clause 4 (*a*), the excess will be refunded to the purchaser.

5. The purchaser shall execute an agreement in the prescribed form, binding himself and, unless exempted by the Deputy Commissioner by an order duly recorded, so much of his movable and immovable property as may be deemed sufficient by the Deputy Commissioner, to observe the conditions hereinafter set forth, as well as those specified in the license to be issued to him; and his surety or sureties, if any have been accepted, shall also execute a bond in the prescribed form binding himself or themselves and so much of his or their movable or immovable property as may be deemed sufficient by the Deputy Commissioner for the due fulfilment by the purchaser of the terms of the agreement. The agreement and the bond so executed shall be stamped at the expense of the purchaser. They shall also be registered at his expense when the amount secured is Rs. 100 and above.

6. If default is made in making the deposit or deposits or in executing the agreement or the security bond, if any, and in taking out licenses as aforesaid, the exclusive privilege shall be forthwith re-sold or otherwise disposed of by the Deputy Commissioner at the risk of the first purchaser, who shall forfeit to the Government any deposit or deposits already made by him, and shall further be liable to make good any loss caused by such re-sale or other disposal. He shall not be entitled to any gain accruing from the re-sale or other disposal, and he shall be debarred from bidding again for the same or for any other shop or group of shops. In the case of loss the forfeited deposits will be deducted from it and the remainder, if any, shall be recovered as if it were an arrear of land revenue. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

7. Re-sales or other disposal effected under para 6 will be at the risk of the defaulting bidder, who shall forfeit all gain; and in the event of a loss caused by re-sale or other disposal he shall make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale or other disposal. In the latter case, the forfeited deposit shall be deducted from the loss arising from the re-sale or other disposal, and the remainder, if any, shall be recovered from the defaulter in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit shall be credited to Government.

8. Schedules showing the amount of rental, the consumption of arrack in each shop, etc., during past years will be separately issued and may be had on application to Amildars, Excise Divisional Officers, Inspectors and Assistant Inspectors.

9. The license to be taken out under para 3 (*b*) above, shall be subject to the following conditions but nothing herein contained shall exempt the purchaser of the privilege from liability to the penalties prescribed for breaches of the conditions set forth below though a formal license may not have been issued :—

(1) The amount for which the privilege has been purchased shall, if it exceeds Rs. 12 per annum, be payable into the local Taluk Treasury in equal monthly instalments commencing from July 1907. But where it does not exceed Rs. 12 per annum, it shall be paid quarterly in not more than three equal instalments. Each instalment shall be regarded as the rent for the month or quarter in respect of which it is payable. The licensee is not required to make any additional payment on account of local cess. Each month's or quarter's rent shall be payable on or before the 20th of the same month, or before the end of the quarter for which the instalment is due. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, suspend, or declare by record in writing that the license is forfeited, and proceed to re-sell or otherwise dispose of the shop or group of shops as soon after the last day of the month or quarter as may be possible with effect from the date of issue of license to the new purchaser or from the date of other disposal. The officer who has power to suspend license may, however, at his discretion, allow sales to continue pending re-sale of other disposal of the privilege.

Note.—The licensee of a Jatra shop shall pay the rent thereof in full before the Jatra begins.

(2) The deposit made by the licensee shall be taken as security for the due performance of the conditions of the license and if not forfeited, credited or otherwise disposed of, shall be credited in payment of the instalments due in the last two months of the period of the lease. Provided, however, that where the shop or group of shops is re-sold or otherwise disposed of, the deposit shall, at the discretion of the Deputy Commissioner, be either forfeited or be appropriated towards the arrears due by the defaulter as well as towards the deficits, if any, arising from the re-sale or other disposal of the shop or group of shops. The balance of such arrears and deficits, if any, shall be recoverable from the licensee under the rules in force for the recovery of arrears of land revenue. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee.

(3) Interest at 6 per cent per annum shall be recoverable on all arrears from the date of default, and on deficits from the date of re-sale.

(4) The privilege conferred by the license extends only to the sale of arrack ordinarily of the strength of 20° under-proof and with the special permission of the Deputy Commissioner or other officer authorized by him to the sale of arrack of 30° U. (5) The lease shall not be transferable by sale, gift or otherwise or be sub-rented except with the permission of the Excise Commissioner, nor, if the Deputy Commissioner so orders, may any agent be appointed for the management of any privilege without his previous approval. All engagements entered into by the agent shall be deposited with the Deputy Commissioner within one month from the date of execution.

(6) Application for resignation of shop or group of shops will be summarily rejected by the Deputy Commissioner.

(7) The manufacturers of arrack or double-distilled or rectified country spirits or other special liquors as well as the licensees of arrack Bonded Depôts are prohibited from holding any interest in the retail vend of the above-mentioned spirits or from employing any person who has such interest.

(8) The sale or transport of arrack by persons suffering from leprosy or any contagious disease and the employment of such persons in the shop are prohibited.

(9) The license-holder shall purchase from the Bonded Depôts established, palmyra-jaggory and molasses arrack at Re. 0-10-11 per gallon of 20° under-proof, sugar-cane jaggory arrack in duly corked sealed bottles at Rs. 1-6-5 per gallon and also special liquors referred to above, at such prices as may be fixed by the manufacturers.

(10) The licensee shall sell palmyra jaggory and molasses arrack to the public at Rs. 6-6-0 per gallon of 20° under-proof (*i.e.*, at annas two per dram which is equal to 1—51st part of a gallon) and sugar-cane jaggory arrack at Rs. 1-3-10 per reputed quart bottle and at proportionate rates for lower strengths.

(11) The licensee of every shop in the Cities of Bangalore and Mysore shall pay a registration fee under the Municipal Regulations at the rate of rupees (180) one hundred and eighty per annum in advance for the period of the license for his shop, and he shall pay a surcharge of (4) four annas per gallon on all arrack sold by him in excess of 55 gallons a month in each such shop.

(12) The above rates to be charged for palmyra jaggory and molasses arrack, sugar-cane jaggory arrack, double distilled or rectified country spirits or other special liquors by the manufacturers, and the above fees are in addition to excise duty, which shall be prepaid at the prescribed rate of Rs. 4-12-0 (including local cess) per gallon of 20° U. P. and proportionately for higher or lower strengths, before the removal of the liquor from a Bonded Depôt established under the sanction of Government.

(13) The licensee shall pay the above duty and price into a Taluk Treasury or to a special shroff, if any, appointed on this behalf at the cost of Government, and located at the Taluk Cutcherry to receive such duty and price *daily* including Sundays and holidays or to such other officer as may be appointed by the Deputy Commissioner, and shall obtain a receipt in the prescribed printed form. On production of such receipt and an indent for the supply of the liquor covered by the receipt, the Bonded Depôt-keeper shall issue the quantity of liquor equal to the amount of duty and price shown in the said receipt which will be forwarded to the Excise Commissioner's office under the endorsement of the Bonded Depôt-keeper aforesaid, as to the date and hour when the liquor was issued. The Depôt-keeper aforesaid shall issue a pass in the prescribed form for the transport of liquor from the Bonded Depôt. He shall also issue sample bottles with the consignments in such manner as may be ordered by the Excise Commissioner.

(14) The licensee shall be bound to take over any liquor which may remain as stock in hand belonging to the out-going licensee on 1st July 1907, in the shop, paying him such compensation for the same as may be fixed by the Excise Commissioner.

(15) The licensee shall possess or use on any licensed premises only such standard measure as may, from time to time, be prescribed by the Excise Commissioner. (16) The licensee shall be bound by the provisions of the Excise Laws and rules in force and by any additional rules which may, from time to time, be prescribed under the Excise Laws, and if so required, deliver up his license for amendment or issue of a fresh one.

(17) The Deputy Commissioner may, whenever he thinks fit, direct shops to be closed, or permit transfer of shops from one place to another, provided the distance is not more than 200 yards, or direct new shops to be opened with the previous sanction of the Excise Commissioner.

(18) Persons who purchase group of shops may, with the special permission of the Excise Commissioner, who is at liberty to refuse it, and under a license by a competent authority, open a depôt and remove thereto liquor purchased from the Bonded Depôt and issue therefrom the requisite supply to their shops.

(20) An Inspection note book with the pages numbered consecutively for inspecting officers to enter their remarks shall be maintained and be handed over to the Excise Inspector in charge of the Range or any officer authorized by him to receive it on a receipt being given therefor.

(21) If the licensee shall be convicted on prosecution before a Magistrate of any offence against the Excise Regulation, or Opium Act or other law for the time being in force, which in the Deputy Commissioner's opinion renders him unfit to hold the

license, it shall be lawful for the Deputy Commissioner to declare his license forfeited and sell or otherwise dispose of the privilege at the risk of the licensee.

(22) All sums payable by the licensee may be deducted from the amount of his deposit or recovered by attachment and sale of the property of the licensee or his surety, under any law for the time being in force for the recovery of arrears of land revenue.

All officers authorized to inspect shops and depôts are empowered to detain any liquor found unfit for consumption or use and the Excise Commissioner, all Deputy Commissioners, Deputy Excise Commissioner and Excise Assistant Commissioners are authorized to destroy such liquor.

(29) No robbers or thieves or disorderly or riotous persons or prostitutes or soldiers or others known or believed to be deserters shall be harboured in the shop, and gaming, disorderly conduct, etc., therein shall be prevented, and information of their resort shall be given to the nearest Magistrate or Police Officer. All such amounts of penalties and losses shall be recovered in the same manner as if they were arrears of land revenue.

Circular No. 13730-7, *dated* 14*th*—21*st May* 1907.

Subject :—

Prevention of embezzlements by village officers.

From reports of embezzlements by village officers received from time to time, the Revenue Commissioner is led to infer that the existing rules for the scrutiny of village accounts and demand, collection and balance statements by Amildars and higher revenue officers have not received sufficient attention.

The Revenue Commissioner therefore issues the following instructions for future guidance.

2. Foremost among the irregularities which lead to embezzlements may be mentioned the frequent violation of Rules 91 and 93 Land Revenue Rules. Rule 91 requires that the patel should as a rule collect the revenue giving receipts in the usual printed form attested by the shanbhog; but in a large number of cases the patel owing to illiteracy and incompetency leaves the work entirely to the shanbhog. Similarly the patel and shanbhog collect revenue in the absence of each other, without issuing the authorised printed receipt and crediting the payment then and there in the Khirdi. These irregularities of procedure should be systematically

checked by taking severe notice of lapses on the part of the village officers and giving preference to literate and capable persons in the appointment of patels in accordance with the orders passed by Government (Government Proceedings No. R. 5671-80—R. M. 521-05-12, dated 4th December 1906).

Under Rule 93, the patel has to remit the collections to the Treasury and the shanbhog's Khirdi should also accompany the remittance. In point of fact remittances are frequently sent without the Khirdis, the result being that there is no means of ascertaining whether the full amount shown as collected in the Khirdi is remitted and *vice versa*, that the whole amount remitted was duly entered in detail in the Khirdi. In all such cases, the amount should be received into the Treasury but no stray receipt should be given for such payments. The Khirdi should be sent for immediately for checking the entries and entering the Treasury certificate and due notice should be taken of the irregular conduct of the village officers concerned.

3. Another cause of the prevalence of embezzlements is that the rule which requires raiyats' receipt books to be compared with the Khirdi by Amildars and Assistant Commissioners has fallen into comparative desuetude. It is generally explained that the raiyats do not produce the receipt books at the time of Taluk or Huzur Jamabandi in spite of repeated warnings. A capable Amildar should be able to provide against this and the Huzur Jamabandi officer could ensure their production at least by the petitioners and other raiyats resorting to him, by refusing to hear their grievances till the receipts were produced. Further whenever a fair percentage of receipts are not produced in a village or firka, the shanbhog and patel concerned might be made to buy a number of printed receipt forms at their own cost and have them written up for issue to raiyats who have failed to produce their receipts.

If these precautions are steadily observed, shanbhogs and patels will have few opportunities to embezzle public funds.

4. The checking of the monthly demand, collection and balance statements and the shanbhog's khirdis is often left without sufficient control to the hobli gumasta who generally slurs over the work or colludes with the shanbhog to conceal irregularities and even embezzlements. A circular has been recently issued defining the responsibilities of the Taluk Sheristadar in this respect and the Revenue Commissioner trusts that Amildars and Taluk Sheristadars will supervise carefully the work of the hobli gumastas.

Revenue Commissioner.

Auditor's Report on Municipal accounts for March 1907.

1. Under the head "Licenses" a sum of Rs 1,811-8-0, under the head of "Scavengering cess" a sum of Rs. 4,872-6-0, and under the head of "Sale of manure" a sum of Rs. 737-1-6 have been shown as arrears due. None of these items should in the nature of things fall into arrears. These require explanation and prompt attention.

2. Seventy or eighty tins of kerosene-oil are purchased every month for lighting portions of the City departmentally. Whether the departmental management is economical or otherwise, requires scrutiny.

3. Vouchers 127 and 128 relate to an expenditure of Rs. 6-4-0 and Rs. 4-8-0 respectively for purchasing rulers and file-boards, etc. These are proper charges on contingent amount sanctioned in the budget, but we find that these items are put under the head of "Tools and plant." This method is irregular.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

COMMERCIAL EXHIBITION.

Simla, the 25th April 1907.

RESOLUTION.

The following papers relative to the Franco-British Exhibition, which will be held in London in the year 1908, are published for general information. The Government of India have decided not to participate in the Exhibition.

FRANCO-BRITISH EXHIBITION, LONDON, 1908.

No international movement in recent times has given more profound satisfaction to the people concerned than the growth of friendship with our continental neighbours and the efforts made to extend our commercial relations with them, and specially with those whose industries are complementary rather than competitive with our own. Foremost amongst those nations whose commerce with the United Kingdom is of that satisfactory description is France, and the idea of increasing the commercial intercourse between the two countries and materialising their friendly relations was proposed by the French Chamber of Commerce in London towards the end of 1905, and was eagerly taken up on both sides of the Channel. The proposal was brought before the French Government through M. Cambon, then Ambassador in London, and met with the warm support of the French Minister of Commerce, M. Doumergue, who invited the opinion of the Comitè Français des Expositions à l' Etranger, which acts as the official representative of the French Government and French exhibitors at all foreign exhibitions in which they take part. This body received the proposal with the greatest enthusiasm.

A crowded and representative meeting was held at the Mansion House on July 11th, 1906, with the Lord Mayor in the chair, and after the Duke of Argyll, the Honorary President, had explained the objects in view, a resolution was unanimously passed approving the steps already taken. It was also resolved that all profits should be devoted to some public purpose, and authority was given for the appointment of the necessary committees and the establishment of a guarantee fund.

A telegram sent by the Lord Mayor to the President of the French Republic informing him of the success of the meeting received a reply through the Ambassador, assuring his Lordship that the French Government would not fail to give its cordial support to the Exhibition. A deputation from the French Committee subsequently visited London, inspected the site selected at Shepherd's Bush, and expressed their high approval both of the grounds and of their accessibility from all parts of the metropolis and suburbs.

The French Minister of Commerce, who presided at a dinner given in Paris in October, 1906, by the French Committee to the Lord Mayor, repeated the assurance of support previously given, *viz.*, that the French Government had from the first associated itself with the project, which he was sure would have a great success. In the course of a banquet given by the Fishmongers' Company in honour of the Exhibition the Prime Warden, Sir Richard B. Martin, Bart., expressed his conviction that the Exhibition would be of the greatest importance in further cementing the interests of both nations. On the same day the British Empire League held a meeting at the House of Commons, at which Viscount Selby, late Speaker of that branch of the Legislature, moved a resolution which was unanimously agreed to, which not only promised the support of the League to the Exhibition, but invited its members to do all in their power to ensure its success.

The Exhibition of Franco-British Arts, Manufactures, and Industries will be opened early in May, 1908.

The site originally selected at Shepherd's Bush contained 98 acres, and an adjoining 42 acres have since been secured. The principal entrance is immediately adjoining the station of the Central London Railway (popularly known as the Tube) and the Uxbridge Road station of the West London, London, and North-Western, and Great Western Railways, the Metropolitan, Hammersmith and City Railway Station, the Great Western, Ealing and Shepherd's Bush Railway new station, and in close proximity to the Shepherd's Bush station of the London and South-Western Railway, and in direct communication with the District, North London, Metropolitan London, Brighton and South Coast, South-Eastern and Chatham, and Great Central Railways. It is besides at the centre of a net-work of tramways and omnibuses connected with all parts of London and its suburbs, and capable of conveying to the spot 75,000 persons per hour, or nearly a million visitors per day, during the hours in which an exhibition is usually kept open.

The exhibits will be housed in twenty places, each of which will be a marvel of architectural beauty, and each will be thoroughly fireproof, not a particle of wood being used in its construction. Amongst the larger buildings will be the Machinery Hall, which will contain with its annexes 321,066 square feet of floor space and will be the largest ever constructed in this country. Other places will be devoted to Education, Fine Arts, Liberal Arts and various processes, Electricity, Science, Applied Arts, Music. The restaurants, cafès, garden-clubs, sports arena (which will occupy a considerable area), tracks for automobiles, cycles, etc., and attractions and amusements generally are contiguous to but apart from the exhibition proper. Arrangements have been made for the erection, if required, of annexes, which will retain the same features of architectural beauty which belong to the buildings to which they form extensions.

The exhibition of painting, sculpture, and the fine arts generally, which will be housed in a palatial edifice, will be larger than at any previous exhibition in London, and visitors will be able to view the finest collection of French and British modern art which has ever been brought together.

One half of the entire space of the Exhibition will be devoted to the display made by France, which will be upon a more extensive scale than at any exhibition ever held by France outside Paris. When it is recollected that at St. Louis the French exhibition occupied 77,212 square metres, more than 800,000 square feet, the magnitude of the French section of the Franco-British Exhibition will readily be realized. A special association has been formed to arrange for the representation of the French Colonies, and it is intended to send a comprehensive collection illustrating their produce and resources, which will be displayed in buildings showing the various styles of architecture peculiar to those countries, and reproducing the picturesque features of the French Colonies at the Paris Exhibition of 1900, and more recently at the Colonial Exhibition held at Marseilles during the present year.

British manufacturers and producers will be afforded the opportunity which they have not enjoyed since 1862 of being able to display in the Metropolis of the Empire the progress which has been made in every department of human invention and industry since the middle of the last century, and they will for the first time be able to exhibit with the aid of an organization similar to that enjoyed for many years past by French exhibitors, so that the display made by the United Kingdom will be presented in such a manner that the attention of visitors will be drawn to its excellence so irresistibly that they will not be tempted to leave it without a thorough examination.

Facilities will be given to exhibitors and visitors by the establishment of a system of commercial bureaus. The principal one, at the main entrance to the Exhibition, will contain a department by which a visitor can at once obtain full information as to the locality where every exhibit can be found, its nature and character, and any literature which has been prepared in connection with it. Any person coming to the Exhibition in order to see the display made by any industry will be able to gratify his wishes without any loss of time; and on the other hand persons attracted by any exhibit will be able to obtain all the information available about it with the smallest expenditure of time. Branch bureaus will be established in all the buildings of the Exhibition.

Negotiations are being conducted with all the British Colonies and Dependencies, and it is anticipated that they will take advantage of the Franco-British Exhibition to demonstrate that within the boundaries of the British Empire can be obtained all the necessaries and luxuries demanded by modern civilisation.

Favourable arrangements for the conveyance of passengers and exhibits have been made with the various lines of railway by which continental travellers reach London, and excursion trains will be run direct to the grounds at Shepherd's Bush from the various provincial centres of population. A special committee will supervise the comforts of visitors from the country and abroad, protect them from overcharge, procure them accommodation at reasonable terms, and enable them to thoroughly inspect the Exhibition with the maximum of enjoyment, and at the minimum of fatigue.

Special attention has been given to the musical arrangements, which will be upon a scale of magnitude unprecedented at any exhibition ever held in London, and amusements of the most varied nature will be provided. But the area devoted to attractions will be apart from the Exhibition buildings.

The gastronomic fame of French caterers is a sufficient guarantee that the refreshment department of that portion of the buildings and grounds occupied by them will be worthy their high reputation. The British restaurants, tea rooms, etc., will be conducted on a scale of equal efficiency, and will be under the direct control of the Exhibition authorities.

A large area of space has already been applied for, and it is anticipated that the contributions of the British possessions beyond the seas will be larger than at any previous exhibition. British manufacturers and producers are therefore advised to send in their applications for space as speedily as possible, in order that they may be examined by the committee of the special group to which they belong, and which will decide whether they are worthy of admission, the charge for space, and all particulars.

PROSPECTUS.

THE SOUTH INDIAN INDUSTRIAL EXHIBITION, 1907.

It is proposed to hold the annual Provincial Industrial Exhibition this year at Vizagapatam early next June.

The Madras Provincial Industrial Exhibitions held annually since 1902 have served greatly to popularise and encourage the Indian arts and industries and their usefulness has been recognised by all sections of the press and the public.

The first of these Provincial Exhibitions was organized and held at Cocanada in connection with the Provincial Conference in June 1902 and has since then been held at Bellary in 1905 and at Tinnevelly in 1906. The Exhibition of 1907 will be similarly held in connection with the forthcoming Vizagapatam Session of the Madras Provincial Conference.

The management and organization of the Exhibition has been entrusted to a Committee representative of all sections of the community, the members of which need not in any way identify themselves with the politics of the Conference. The accounts of the Exhibition and the Conference have been kept separate since the Cocanada Exhibition of 1902 and this practice will be observed as regards the keeping the accounts of the forthcoming Exhibition.

An undertaking of this nature can only succeed with the active co-operation of all sections of the community and we hope that all will join hands to make the Exhibition a success.

Although the scope of the Exhibition is confined to articles of indigenous growth and manufacture, yet arrangements will be made for the exhibit of machinery and appliances of foreign manufacture which are likely to help and develop Indian industries.

All communications to be addressed to the General Secretary, Exhibition Office, Vizagapatam, and all remittances to the Honorary Treasurer, South Indian Industrial Exhibition, Vizagapatam.

THE

SOUTH INDIAN INDUSTRIAL EXHIBITION.

VIZAGAPATAM, 1907.

Rules and Regulations.

1. Articles of indigenous Art or Manufacture, as well as natural, mineral or agricultural products from Southern India (including the Nizam's Dominions) will, as a rule, be accepted for the Exhibition. Implements or machines of foreign manufacture, which in the opinion of the Exhibition authorities, are likely to promote and develop Indian industries, will also be accepted.

2. No explosive or any substance which, in the opinion of the Exhibition Authorities, is noxious or dangerous, will be admitted.

3. Intending exhibitors should refer to the printed lists, attached herewith, of the sections and divisions into which it is intended to classify the exhibits. The classified list is meant only to serve for general guidance, and will not prevent exhibitors from sending articles not specifically enumerated therein. Such articles will, however, be admitted at the discretion of the Exhibition authorities.

4. Works of Art and articles of special merit, including those of antiquarian interest, will be thankfully received from gentlemen who do not aim at any commercial advantage or benefit. All arrangements for the display of the exhibits lent will be made by the Exhibition authorities at their own expense.

Gentlemen desirous of sending exhibits on loan should write to the effect, giving all the necessary particulars about their exhibits, to the Secretaries, who will inform them of the acceptance of their offer and make with them all the necessary arrangements in connection with the exhibition of the offered articles.

5. Applications for space in the Exhibition buildings, specifying the space that will be required, should be made at once in the form annexed and should be accompanied by a fee of Rs. 2.

(It will be left to the option of the Exhibition authorities to reduce or remit the above-mentioned fee in such cases as they think fit).

6. Intending exhibitors are requested to send in to the Secretaries, as soon as possible, a list of their proposed exhibits, in the printed form attached herewith. These lists should reach the Secretaries at the latest by the 25th May.

7. Exhibitors are requested to mention in their application whether they intend to illustrate practically the process of their manufacture, and if so, to describe the nature of the demonstration.

8. The Exhibition authorities will inform the applicants whether they are registered as exhibitors and will state the number allotted to them.

9. Each registered exhibitor will be allowed a covered space of 5 feet by 5 feet free of charge, in each section but additional covered space may be obtained, subject to a minimum charge of 4 annas per square foot.

10. Exhibitors may obtain, on such special terms as may be agreed upon, open space for the exhibitors for practical demonstration of machinery, etc. They will be allowed to erect the necessary structures at their own expense but according to plans approved of by the Exhibition authorities.

11. The Exhibition authorities will have absolute discretion as regards the acceptance or rejection of exhibits and the allotment of space, covered or uncovered.

12. Exhibits will be received, from the 15th of May 1907, to the 1st of June 1907. They may be sent by Railway or Steamer as "Parcel" or "Goods," or through Post, or may be delivered personally, or through agents between the hours of 10 A.M. and 4 P.M. at the above address or at the Exhibition grounds and to authorised persons who will be in attendance there. Receipts will be granted for the articles so delivered. In case of goods forwarded by Railway, Steamer or Post, the freight must be prepaid and the parcels, preferably insured exhibits, forwarded "unpaid" will be refused.

13. All packages received or delivered must bear a label on the upper covering specifying the name and number of the Exhibitor, and addressed to the General Secretary. They must contain inside a list in duplicate with all particulars required under Rule 19 in regard to the exhibits in the package. This list will be compared with the previous list submitted by the exhibitor along with his application and a formal receipt will be given to the exhibitor for the articles found in good condition.

14. Exhibitors failing to send their goods and appropriate the space allotted to them by the 1st of June 1907, shall forfeit all right to exhibit, and shall not receive any refund of the payments made by them. No refund also will be given for occupying less space than that applied and paid for and allotted; and the unoccupied space will be disposed of as the Exhibition authorities deem fit.

15. Every facility will be afforded to exhibitors or their agents in connection with the transport, display, and care of their exhibits.

16. Exhibitors must bear all expenses incidental to the transport and the delivery of their exhibits, as well as their removal after the Exhibition is closed. If the exhibitors require for the display of their exhibits in the buildings special arrangement or construction, stands, cases, tables, shelves, etc., or have to mount their machinery and apparatus, they must carry out all this themselves, and at their own cost, and in accordance with plans approved by the Exhibition authorities.

17. Such assistants, servants, or other attendants as an exhibitor may require for service at his stalls may be allowed to enter the Exhibition Building, on obtaining a pass from the Secretaries. All such attendants shall have to obey the orders of the Exhibition authorities and the supervising staff appointed by them.

18. All reasonable precaution will be taken to guard the premises of the Exhibition, and secure the safety of the exhibits. The Exhibition authorities, however, do not at all hold themselves responsible for any damage or loss, howsoever occurring. Exhibitors wishing to insure their articles may apply to the Secretaries, who will arrange for the same on payment of the necessary charges. All valuable exhibits, such as jewelry, gold and silver plate, must be forwarded under the charge of an attendant.

19. Every exhibit must bear a label showing the name or description of the article, its price, the place and the date of its production or manufacture, the name of the manufacturer and the exhibitor, and if purchased, the place and the date of its purchase.

20. In the exhibition stalls orders for articles may be registered but no ready sale will be allowed.

21. Exhibitors who are unable to attend personally or send agents in charge of the exhibits may make special arrangements with the Secretaries for the exhibition of their goods, subject to the provisions of the foregoing rules, and on payment in advance of all estimated expenses, which may be ascertained on application.

22. The Exhibition authorities reserve the right to remove the exhibits of any person from the Exhibition grounds who does not conform to their rules and regulations.

23. No article exhibited may be copied, photographed, drawn, or reproduced in any manner, without the special permission of the exhibitor and the Exhibition authorities. General photographs of the stalls may, however, be taken with the permission of the Exhibition authorities.

24. Arrangements with reference to machinery in motion will form the subject of special regulation.

25. The Exhibition will be opened in the 1st week of June 1907, for the public and will continue for a month. An official catalogue of all exhibits with the names and addresses of

the Exhibitors and their Agent or Agents, if any, will be published by the Exhibition Committee, before the opening of the Exhibition. A Committee of specially qualified gentlemen will be appointed as Jurors, who will examine the exhibits, determine their relative merits and decide which of them deserve special recognition. The decision of the Jurors will be final. Gold, silver and bronze medals will be awarded according to their verdict. Certificate of merit will also be given. The names of the successful exhibitors will be published together with a description of the exhibits and the medals and certificates they have respectively obtained.

26. All persons who become exhibitors shall, by so doing, be held to signify their assent to, and acceptance of all the foregoing rules and regulations; and also such other regulations as the Exhibition authorities may hereafter issue.

On the completion of the three years' service, candidates will be placed in the branch for which they have been trained; and their service will thereafter be reckoned as eligible for pension according to Government Regulations, and their earnings will depend on their ability in the case of piece-work compositors, and as per rules for the time being in the case of others.

Candidates will be required to sign an agreement to continue in the Government Press for a period of three years, subject to the approval of the Superintendent, after their term of probation has expired, or to refund money received during probationary period.

As soon as candidates are sufficiently advanced in a knowledge of the work, they may attend morning or evening classes, without fee, with a view to appearing for the Madras Government Technical Examinations held annually in November at Bangalore centre, and holders of certificates will be given preference for the highest posts in the Press, as they become vacant, at the discretion of the Superintendent.

Government Proceedings No. Fl. 6767-75—Gen. Fin. 224-06-2, dated 8th March 1907, reviewing the report on the working of the Treasuries for the year 1905-06.

The attention of Deputy Commissioners is invited to the remarks of Government contained in para 2 of their Order regarding the omission to forward vouchers and subsidiary statements along with the list of payments and cash accounts to the Comptroller as required by Article 326 of the Civil Account Code. And as Government have repeatedly noted their dissatisfaction in the matter in successive reviews on the work of Treasuries, the Deputy Commissioners are requested to impress upon all Treasury Officers the necessity for the prompt and punctual despatch in future of the necessary vouchers and statements in a complete form to the Audit office. It should be brought home to them that omission or neglect on the part of Treasury Officers in this respect tends to retard work in the Audit office and involves waste of valuable official time and labour in the correspondence that is necessitated thereby and specific cases of gross delay or omission on their part should be reported to the undersigned for such notice as they may deserve.

Should he fail to do so, the deposit made by him under para 2 will be forfeited, the shop will at once be put up again on the above conditions, and he will be debarred from bidding again for the same or for any other shop.

4. The person to whom the shops have been knocked down, and who has made deposits as provided in paras 2 and 3, shall also be required to leave his address with the sale-conducting officer in order that the confirmation of the sale may be communicated to that address by a notice, etc., and he shall, within seven days after the service of the said notice by its presentation to the purchaser or any adult male member in the place of the said address, or by its being affixed thereto, or by its forwardal duly registered by post, pay at the Taluk Treasury concerned such further sum as, with the first and second deposits, will make up an amount equal to two months' rent for each shop knocked down to him; and shall take out licenses and execute a counterpart engagement, in the prescribed forms, on the conditions hereinafter set forth. On the failure of any person to make the deposit or to take out license or to execute the counterpart engagement, as aforesaid, the shop will be re-sold at the risk of such person, or, if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

5. Re-sales effected under para 3 will be at the risk of the defaulting bidder, who will forfeit all gain; and in the event of a loss by re-sale or other disposal, he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale or other disposal. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

6. The license to be taken out under para 4 above, shall be subject to the following conditions, namely:—

(1) The amount for which the privilege has been purchased shall be payable into the Taluk Treasury on the prescribed challan in equal monthly instalments commencing from July 1907; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on or before the 20th of the same month on the challan prescribed for the purpose. If such amount be less than Rs. 12, it shall be paid up in not more than three quarterly instalments commencing from 1st July 1907. The deposit of two months' rent made by the licensee, will be taken in payment of the rents due for the last two months of the period of the license. Failing payment by the 20th of the same month or before the end of the quarter for which the instalment is due, the Amildar may, with the sanction of the Deputy Commissioner by record in writing, suspend or cancel the license or order the forfeiture of all deposits made by the defaulter and proceed to re-sell or otherwise dispose of the shop at the defaulter's risk (as soon after the last day of the month or quarter as may be possible) with effect from date of issue of license to the new purchaser or from the date of other disposal. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.

(2) The price of Ganja and Majum shall be Re. 1-0-0 and Re. 0-6-6, respectively, per seer of 80 tolas; and these prices shall be in addition to Excise duty, at the rate of Rs. 5-0-0 per seer of Ganja and Re. 1-1-0 per seer of Majum, (including local cess).

(3) The licensee shall pay the above duty and price into a Taluk Treasury, and shall obtain a receipt in the prescribed printed form. On production of such receipt, the Bonded Depot-keeper shall issue the quantity of Ganja or Majum equal to the amount of duty and price shown in the said receipt. The Depot-keeper aforesaid shall issue a pass in the prescribed form for the transport of Ganja or Majum from the Bonded Depot.

(4) The Ganja sold by the licensee, shall be of good quality and unadulterated, and it shall be sold by him at Rs. 10 for a seer of 80 tolas of Ganja or annas 2 per tola of Ganja and at Rs. 1-10-8 for a seer of Majum; and the whole stock of Ganja and Majum on hand shall be kept in the licensed shop and not elsewhere on any pretext whatever, without special permission.

(5) The licensee shall use such scales and weights as may from time to time be prescribed by Government, and provide himself with the printed forms of accounts and permits or passes for transport of drugs, which forms shall be purchased from local Excise officers.

(6) The licensee shall be bound to take over any drugs which may remain as stock in hand belonging to the out-going licensee on the 1st July 1907 in the existing shop, paying to the latter such compensation for the same as may be fixed by the Deputy Commissioner.

(7) The licensee shall be bound by the rules in force, and by such further rules as may be issued from time to time by Government. He shall not, during the term of his license, without the written permission of the Excise Commissioner, have any

interest direct or indirect in any intoxicating drug shop outside the Mysore State or in the Civil and Military Station.

(8) No female shall be employed in the sale of intoxicating drugs.

(9) The remaining terms and conditions shall be as set forth in the prescribed license.

7. In the case of any breach of the above conditions either by the licensee or, with his connivance and privity, by any person in his employment, or in the event of the licensee neglecting to open his shop or to carry on his business with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding Rs. 10 for every such breach or neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license and to re-sell or to otherwise dispose of the privilege at the risk of the licensee; and all loss thereby caused, together with the loss accruing to Government in consequence of the licensee not carrying on his business by opening his shop on 1st July 1907, shall be made good by him. When a license is cancelled, the rent for the whole period of the license shall become due at once, which shall be recovered together with all losses as if they were arrears of land revenue.

8. The penalties laid down in the last preceding clause shall not exempt the licensee or his employees from prosecution for any offence committed against the Excise laws or rules in force.

Resolved that the acquisition of Survey No. 28, temple inam, is not feasible; that the house be built further west on Survey No. 27; and that the estimated sum of Rs. 50 payable towards the acquisition of the land be met by reappropriation of the current year's budget grants.

III. Read Secretary's docket No. 6002—Med. 97-06-9, dated 3rd January 1907, requesting to be furnished with a list of the villages at which the Board propose to open branch dispensaries; and the resolutions of the marginally noted Taluk Boards on the subject.

Koratagere, Turuvekere, Pavagada | Gubbi, Kunigal and Chiknayakanhalli

Resolved that the branch dispensaries be opened at the villages noted below; that the Taluk Board of Chiknayakanhalli be asked why a branch dispensary should not be opened at Kandikere village, and that the resolutions of the other Taluk Boards on this subject be considered when received.

(1) Tovinkere village (Koratagere Sub-Taluk.)
(2) Hoskote (Pavagada.)
(3) Kadaba (Gubbi Taluk.)

IV. Read Secretary's docket No. 6233-48—L. F. 190-06-1, dated 11th January 1907, forwarding for report with the Board's Resolution Dasara Representative Assembly Subject *in re* the introduction of Village Sanitation Rules into the villages containing 50 houses; and the resolutions of the Taluk Boards of Koratagere, Turuvekere, Kunigal, Chiknayakanhalli, Pavagada and Gubbi on the subject.

V. Read Secretary's docket No. 8360—76-06-4, dated 18th March 1907, requesting to be furnished with the views of the District Board and the Executive Engineer as to the desirability of raising the bungalows from the 3rd to the 2nd class with a view to provide for the proper and efficient care of them, etc.

Resolved that all the superfluous establishment of a 2nd class bungalow is not wanted and that it would be ample if each III class bungalow is provided with a scavenger on a pay of Rs. 6 per mensem as already proposed.

The Officiating Executive Engineer who was present was of the above opinion.

VI. Read Government Proceedings No. 9322-3—L. B. 388-06-2, dated 9th April 1907, requesting that the matter of acquiring 22 square yards of land for widening the road in the Goragondanahalli village, Tiptur Taluk, may be placed before the District and Taluk Boards and that copies of their resolutions thereon may be sent pointing out the source in the current year's District Fund grant from which the compensation of Rs. 10 is to be met, etc.

Resolved that the proposed extent of land be acquired and that the amount of compensation, *viz.*, Rs. 10 be met out of the District Fund grants under other heads by reappropriation, if possible.

VII. Read Government Proceedings No. 9952-61—Med. 133-04-4, dated 27th April 1907, stating that the Presidents of Municipal and District Boards are informed that in cases in which the reflooring of the dispensaries named in the enclosed statement could be undertaken during the current year they should state whether the funds can be made available from the current year's Municipal and District Fund budgets and if so, to what extent and how the balance in each case could be met, and that the resolutions of the Boards concerned with detail estimate in each case may be forwarded.

Resolution.—Out of the provision of Rs. 500 in the current year's District Fund budget on account of repairs to dispensaries, a sum of Rs. 400 has been already appropriated during the current year and there remains a balance of Rs. 100, for which the Senior Surgeon has applied for being appropriated towards the repairs of dispensaries at Turuvekere and Pavagada. As the full cost of menial establishment and other hospital charges of the three dispensaries (Koratagere, Turuvekere and Huliyurdurga) referred to in the Government Order read above, is borne exclusively by District Funds no quota is paid therefor out of Municipal Funds. There being no funds available for the reflooring of the abovenamed three dispensaries during the current year, the same may be reserved for consideration the next year. The Executive Engineer may be asked to furnish the detailed estimates for the reflooring of the dispensaries in question for being forwarded to Government as required in the Government Proceedings read above.

VIII. Read Executive Engineer's docket No. 12, dated 10th January 1907, stating that on certain roads the traffic is very heavy, that their mileage grant may be increased to Rs. 200 a mile, as otherwise the roads will soon get so bad that a heavy initial outlay will be necessary to bring them to formation and proposing that the required funds may be raised, if necessary, by establishing a toll-gate at a suitable point of the road.

Resolved that there are no funds to increase the present mileage grant of the roads referred to and that the question of levying tolls be deferred to the next meeting of the Board.

IX. Read letter from the Rev. W. B. Trewhella asking for a grant of Rs. 50 for sinking a fresh water well at the back of the Christian church near Gubbi and papers connected therewith.

X. As per Gubbi Sub-Division Assistant Commissioner's yadies Nos. 672 and 673, dated 26th March 1907, the supplemental estimate for Rs. 139 for deepening the fresh water well at Kadaba, Gubbi Taluk, was sanctioned and the amount required for it was met out of the amount sanctioned from Shettihalli well in the same Taluk which was abandoned.

Resolution.—Approved.

XI. Read Gubbi Sub-Division Assistant Commissioner's yadi No. 732, dated 20th April 1907, forwarding Chiknayakanhalli Taluk Amildar's report proposing that the sum of Rs. 319-3-4, sanctioned in the incomplete list of works on account of wells at Giriyappanaghati, and Gowdanhalli, may be appropriated for the wells in the Chiknayakanhalli travellers' bungalow compound and Aralikere village.

Resolution.—Sanctioned.

XIII. Read and approved the list of estimates for works received from the Executive Engineer countersigned by the President.

XIV. Read and approved the list of vessels and furniture to be supplied to the 3rd class travellers' bungalows and musafirkhanas at an estimated cost of Rs. 760 (Rs. 360 for vessels and Rs. 400 for furniture).

XV. Read Kunigal Amildar's report No. 473, dated 15th January 1907, forwarding Taluk Board's resolution stating that in Huliyurdurga there are two sweepers on pay of Rs. 5 each one for the musafirkhana and the other for the travellers' bungalow, that in a portion of the travellers' bungalow the school and dispensary are also located; that as there are no furniture, etc., in the travellers' bungalow, services of a care-taker there are not necessary, and proposing that the travellers' bungalow be converted into a musafirkhana and that a new musafirkhana be

constructed on the road-side near Yediyur to which place the care-taker employed at Huliyur-durga travellers' bungalow be posted.

Resolution.—There is a chattar at Chakenahalli, which is near Yediyur and the road, and no new musafirkhana is needed near Yediyur.

XVI. Read Kunigal Amildar's report No. 475, dated 16th January 1907, forwarding Taluk Board's resolution stating that a portion of the musafirkhana at Kunigal is occupied from a long time by the Police Department causing inconvenience to the travelling public, that for the period occupied by them a fee may be levied, etc.

Resolved that the inconvenience to the travelling public be removed at an early date by providing other accommodation to the Police and that the Deputy Commissioner be addressed on the subject. Fees at usual rates may be levied for the occupation until now.

G. HANUMANTHA RAO,
for *President.*

MYSORE CITY IMPROVEMENT TRUST BOARD.

PROCEEDINGS OF AN ORDINARY MEETING OF THE BOARD OF TRUSTEES FOR THE IMPROVEMENTS OF THE CITY OF MYSORE, HELD AT THE CHAIRMAN'S OFFICE ON WEDNESDAY THE 29TH MAY 1907.

Mr. D. Sitarama Rao, Chairman.

TRUSTEES.

Present.

Dr. T. S. Nanjappa, Civil Surgeon.
Mr. G. Hanumantha Rao, Vice-President.
„ Mahomed Jaffer Sahib.
„ M. Anantharajaiya.
„ M. Venkatakrishnaiya.
„ M. C. Ranga Iyengar.

Absent.

Mr. E. Maconochie, I.C.S.

Subjects.

I. Official Memorandum No. 9990—Ml. (481-06)-3, dated the 29th April 1907, from the Secretary to Government, General and Revenue Departments, forwarding for report petition from A. Ramanuja Iyengar, complaining against the acquisition of the 'nine houses Agrahar,' and enquiring what arrangements the Board would propose in the matter with a view, if possible, to preserve the integrity of the charitable grant.

Resolutions.

Resolved that the Government be informed that the nine Agrahar houses were owned by different persons and have changed hands, thus breaking up the integrity of the original private charitable grant, that the present owners, including the petitioner A. Ramanuja Iyengar, have voluntarily agreed to these houses being acquired by the Board, and have executed "Muchalikas" consenting to receive money compensation settled therefor, that some of them have received the amount of compensation and made over their houses to the Board, which have been demolished, and that, in view of the facts stated above, the Board is of opinion that in the present case no special arrangement need be made for the construction of houses by the Board in lieu of those taken up, especially, seeing that, of several owners, A. Ramanuja Iyengar is the only one who, nearly two months after voluntarily consenting to the acquisition, has now come forward, objecting to the acquisition and the amount of compensation, because he is not to get the whole or any portion of the compensation money, owing to the house having been admittedly mortgaged by him to M. R. Narasimhachar.

Adjourned for personal inspection of the locality.

II. Letter No. 127—14, dated the 23rd April 1907, from the Honorary Secretary to the Managing Committee of the Sadvidya Patasala, *in re* the acquisition of a portion of the compound of the Patasala.

III. Correspondence ending with letter No. 1999, dated the 27th April 1907, from the officer in charge of the Palace Establishments, regarding the acquisition of houses of Palace servants in the Fort.

Resolved that the officer in charge of the Palace Establishments be informed in reply to his queries as follows:—

Query No. I.—That sites are available either in the Chetnahalli extension, where a large area is specially reserved for the purpose, or in one or other of the several cleared areas in the City.

Query No. II.—Under existing conditions, the Board regrets that it cannot undertake the construction of houses in lieu of those acquired. According to the project for the Fort area prepared by City Improvement Committee, reallotment of sites for building purposes is not contemplated. The sites behind City Magistrate's Court in Lashkar Mohalla, are very costly and it is very doubtful if all the displaced servants of the Palace can be conveniently accommodated in that locality, and the attention of the Palace Officer is invited to the subjoined extract from the proceedings of the Board held on the 29th August 1906.

IV. Letter dated 1st May 1907, from Mr. S. Venkatavaradan Iyengar, District and Sessions Judge, Mysore, requesting that the plot of vacant land to the west of his bungalow, near the Subbarayanakere, may be finally given to him.	Reserved for inspection.
V. Disposal of the reclaimed portion of the northern arm of Doddakere.	Adjourned for inspection.

D. SITARAMA RAO, *Chairman.*

Legislative Measures and Rules thereunder.

NOTIFICATION.

No. Fl. 9082—*S. R.* 140-06-1, *dated* 8*th June* 1907.

The Government of His Highness the Maharaja have been pleased to frame the following Order in exercise of the powers conferred by the Mysore Stamp and Court Fees Regulations, 1900, and of all other powers enabling them in this behalf :—

No. Fl. 9083-125—S. R. 140-06-1, dated Bangalore, 8th June 1907.

"Order.—The Government observe that the existing arrangements in regard to the administration of stamp revenue are not sufficient either for developing the revenue from that source or for protecting the interests of Government against fraud, and that, as a consequence, the stamp revenue of the State has been on the decline during the past few years.

2. With a view to remedy this state of things, the Government resolved, as an administrative measure, to appoint a Commissioner of Stamps and entrust the functions of this office to the Inspector-General of Registration without prejudice to the other duties at present assigned to the holder of the last mentioned appointment. The duty of the *ex-officio* Stamp Commissioner will be to administer the stamp revenue, subject to the control of Government, and to see that the Stamp Laws and Rules are not evaded.

3. The Excise Divisional Officers and such other officers as Government may determine from time to time will be appointed Inspectors of Stamps under the Commissioner of Stamps. The Excise Divisional Officers are appointed accordingly *ex-officio* Inspectors of Stamps.

4. The Commissioner of Stamps (as also each Inspector of Stamps within his jurisdiction) is expected to inspect the record rooms of Civil, Criminal and Revenue Courts, with a view to ascertain whether the Stamp Laws and Rules are strictly carried out, and whether any frauds are committed by the omission to deface stamps once used. He will also see that the standing orders respecting the indent, supply, store, safe custody and vend of stamps in each district are not violated ; and that periodical returns are promptly and punctually submitted, and tabulated and compiled in his own office for submission to higher authority, whose attention he will

invite to any administrative points worthy of notice. The Commissioner of Stamps is requested to issue the needful instructions for the guidance of the Inspectors of Stamps.

5. The duties connected with the indenting for and the custody and supply of stamps will be performed by the respective District Treasury Officers as *ex-officio* District Stamp Officers.

6. The existing arrangements for the control and supervision of the Stamp Manufactory are not very efficient, and Government consider that a thorough overhauling of the arrangements connected with the manufacture of stamps is urgently necessary in the interests of the stamp revenue. The Commissioner of Stamps will accordingly be entrusted with the supervision of the Stamp Manufactory also.

7. The powers of the Chief Controlling Revenue Authority under the Mysore Stamp and Court Fees Regulations will remain vested in Government as heretofore.

8. The control over the Central, Branch and Local Depôts will be vested in the Commissioner of Stamps as the authority responsible for the provincial administration of the stamp revenue. The Superintendent of Stamps will be subordinate to the Commissioner of Stamps, and it will be one of the duties of the former officer to bring to the notice of the latter the fall in the stock of stamps in any local depôt below the prescribed amount. The District Stamp Officers, on the other hand, should report to the Commissioner of Stamps the failure on the part of the Superintendent of Stamps to speedily comply with their indents. The Commissioner of Stamps will be competent to direct in any particular case that the supply of stamps to be kept in any particular branch depôt shall be equal to the probable demand for three months.

9. With a view to enable Government to see how far inspections are regularly conducted, the Commissioner of Stamps should append to his annual report, (which should be submitted to Government not later than the 1st October of each year) a statement showing the amount of stamp inspection work performed and remaining to be performed in each district."

By Order,
K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

I. Read docket No. 7168—L. B. 321-06-3, dated the 19th February 1907, from the Secretary to the Government, intimating that it has been decided by the Chief Commissioner of Coorg to advise the District Board of Coorg to abolish their Kyatehole toll-gate, so that one might be established by the Hassan District Board on the Arkalgud-Kodlipet-Manjarabad road, on the Mysore side of the Hassan District, and requesting the placing of this matter before the Hassan District Board for consideration and submission of a copy of their resolution for the orders of Government, with a sketch showing the position of the existing British toll-gates and the place where it is proposed to open a toll-gate on the Mysore side of Kyatehole.

Resolution.—Resolved that the proposal of the Chief Commissioner of Coorg to open a toll-gate on the Mysore side of the Arkalgud-Kodlipet-Manjarabad road, be adopted, the toll-gate being located at the junction of the above road with the Banawasi-Yeslurpet road. It is recommended that, as suggested by the Chief Commissioner of Coorg, only one toll be collected, either at the Mysore toll-gate or the Coorg toll-gate, on carts passing the toll-gate within twenty-four hours.

II. Read General and Revenue Secretary's docket No. 7647—L. B. 162-06-4, dated the 6th March 1907, requesting a report if the Hassan District Board are willing to bear half the cost of construction of bridle paths in Mysore in continuation of those in Coorg, *i.e.*, from Sómwarpet joining the Arkalgud-Konanur and Saklespur-Bisleghat roads, since the entire cost cannot be debited to Local Funds General.

Resolution.—The Board express their inability, at present, to meet the moiety of the cost of construction of the road.

III. Read the General and Revenue Secretary's docket No. 9081—L. B. 224-06-3, dated the 2nd April 1907, forwarding for report with the resolution of the District Board, Subject No. 497 of the Dasara Representative Assembly of 1906, in the matter of opening a feeder road to Tiptur-Huliyar road from Hosdurga to Honnavalli.

Resolution.—The Board considers that so far as the interest of this district is concerned, it is at present unnecessary to open a road from Hosdurga to Honnavalli.

IV. Read the General and Revenue Secretary's docket No. 9321—L. B. 402-05-8, dated the 9th April 1907, observing that, as the proposed classification of shops in santes for the levy of fees therein leads to complication, Government consider that the scale of fees levied in santes elsewhere may be tried as a tentative measure, and requesting to report whether this is agreeable to the Board, and if so, which of the rates they would prefer, and also to state what conveniences are intended to be provided for persons attending the santes, to justify the levy of fees in santes.

Resolution.—On a reconsideration of the question, the Board is of opinion that the question of the levy of tax on shops in santes may be dropped for the present.

V. Read the General and Revenue Secretary's memo No. 9780, dated the 24th April 1907, forwarding a copy of his docket No. 9779—L. B. 54-05-10, dated 24th April 1907, in the matter of meeting the cost of construction of a bridge across the halla falling into the Cauvery near Kerlapur, and observing that, if the Hassan District Board cannot contribute at least a third of the cost, there is no chance of the work being undertaken.

Resolution.—The Executive Engineer having suggested that the road may be diverted over the bund of the Budanur tank so as to avoid the halla altogether, resolved that he be requested to have the matter investigated in detail and favor the Board with his opinion in the matter.

BANGALORE,
19th June 1907.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

Report of Dr. E. J. BUTLER, M.B., F.L.S., Cryptogamic Botanist to the Government of India, on the palmyra disease in the Godavari delta.

1. In 1904 the outbreak of a serious disease in the palmyra palms of the Godavari delta was reported. In 1905 information was received that cocoanut palms were also attacked, and the danger which might arise in the rich palm plantations of Southern India was at once apparent. The following account is the result of a visit to the delta for the purpose of investigating the disease in August 1905.

2. The disease is said to have been noticed as far back as 1897. It has, however, only attracted attention by its extension within the past two or three years. It is said to have been seen first in Addunkivarilanka in the north channel of the Godavari. From here it spread into the Amalpuram Taluk on the southern bank and to the Ramachendrapuram Taluk on the northern bank. It is now found in an area on both sides of the northern channel, occupying the whole of the Amalpuram Taluk, except the swampy district towards the sea, while on the Ramachendrapuram side it has reached Anaparti about 12 miles from the river. Along the banks it extends about thirty miles on both sides from the vicinity of the French Settlement of Yanam near the village of Kolanka to Madiki and Lolla. As in most other cases of infectious epidemics it does not occupy an absolutely continuous area. Some villages have escaped although surrounded by diseased localities, and in some directions extension has progressed much more rapidly than in others. Thus the disease has been known at Kolanka for six or eight years and a mile or two to the east, the palms are dead in great numbers, yet another mile further on not a single case was seen in thousands of palms visible from the canal.

3. It may, however, be said in a general way that in a circle from the centre at Addunkivarilanka where it is said to have started, with a radius of fourteen miles, most of the villages are affected. In the portion of Cocanada Taluk towards the river some twenty-five villages have also reported the presence of the disease to the Tahsildar.

4. The sharp limitation of the affected locality, which is evident, for instance, between Kolanka and Yanam, joined to the slow extension though an almost continuous area indicates an infection by some germ incapable of rapid transmission. It is hence opposed to the view which was believed by some of the local officials that insects such as cockchafers which are common enough in the diseased tree can be other than remotely concerned with it. It is also opposed in a general way to the idea that any fungus possessing small or light spores formed on the surface of the affected parts can be the cause. As will be seen, the organism to which the disease is attributed is just such a one as would account for the somewhat peculiar type of extension.

5. The extent of the damage can only be estimated very roughly. Along the Amalpur East Bank Canal seventy-six per cent of one hundred and thirty consecutively numbered palms were dead. This was in a very bad place. In a similar line near Kolanka thirty per cent were dead. Elsewhere every proportion down to few or no dead trees was seen. Possibly about ten per cent of the palmyra palms of the above mentioned area have been killed. The trees are said to be worth about two rupees per annum and the loss already sustained must run into lakhs.

6. Possibly, the most serious feature of the position is the fact that cocoanut palms are undoubtedly subject to infection. In Ramachendrapuram Taluk a few cases were seen, but in Amalpur they are numerous, though the cocoanut palm is never, in any of the localities visited, so frequently attacked as the palmyra. This is perhaps due to its harder tissues which oppose a barrier to infection. In Modenurru some two hundred dead trees were seen, but elsewhere only a dozen or two. The danger that the disease may increase in virulence in regard to cocoanut palms, if permitted, to rage unchecked, is one that need hardly be emphasised. A few betel palms (areca catechu) were found suffering from apparently the same disease, but the cases were too far advanced for satisfactory examination.

7. Little or nothing is known of the diseases to which palms are liable. I have seen three distinct palm affections within the past two years. In Mysore the betel palms have been killed in large numbers by a disease called locally *Koleroga* probably caused by a fungus of the genus *phytophthora*, the same genus to which the fungus which causes potato disease belongs, and a near ally of that to which I attribute the present disease. In Sylhet, recently, I found enormous numbers of the same palm dying from a root destroying fungus which appears to extend through the soil. A somewhat similar or perhaps identical disease was described by Sir George Watt from Eastern Bengal in Agricultural Ledger No. 8 of 1901. In the West Indies and neighbouring localities a disease of the cocoanut palm known as "bud rot" is causing considerable anxiety at the present time. Jamaica, Trinidad, Cuba, British Honduras and British Guiana are affected, and there appears to be no doubt that the disease is spreading. The part involved is the green top or "cabbage" of the palm which may be entirely destroyed while the stem and roots are still healthy. In this case the rot is said to originate in the heart of the bud and to extend outwards, which is the reverse of the case in the Godavari palm disease. The cause is unknown, but it is suspected to be a rotting bacillus and as the matter is engaging the attention of the Agricultural Department of the United States and of the British West Indies, some light may be expected on what is evidently a rather mysterious affection in the near future. Dr. E. F. Smith, United States Department of Agriculture, who

studied it in Cuba in 1904, says in his report that if it continues to spread as it has done during the past ten years, it will inevitably destroy the cocoanut industry of the island and that too within the next ten or fifteen years. This case is referred to as it is evident that the cocoanut palm is liable to epidemic disease and disease of a serious nature and the possibility of a similar state of affairs arising in the immensely valuable cocoanut districts of the Madras littoral by the extension of the disease from the Godavari delta is not one to be neglected. In all these diseases the ultimate effect is the same, for in all the green top eventually withers and falls off, leaving the stem standing as a bare pole.

8. The symptoms of the palmyra disease are such that it can be recognised fairly easily. Most of the proprietors who were questioned were able to point out even the early cases, their statements being checked by cutting down a number of the trees pointed out. The earliest sign is an alteration in colour of one of the leaves, usually one of those recently expanded, towards the centre of the head. This turns white and soon afterwards commences to wither. Other leaves are attacked in succession, the heart of the bud is reached, and the whole top withers and falls off, the last stage often being reached only after a considerable time. In cocoanut palms the same general course is followed, but here if the nuts have been formed before the attack becomes severe they are often dropped prematurely. No new nuts are formed once the characteristic symptoms show. The following account is taken from the examination of diseased palmyra palms, but the description applies closely to the disease in cocoanut palms and the same fungus was found associated with it in both cases.

9. The whole of the stem and root system is perfectly healthy up to a late stage in the disease. The latter was excavated and examined with particular care in a number of cases owing to the previous experience with the Sylhet Betel-nut palm disease. It, however, was early evident that the seat of the disease is the crown of the tree. Here the expanded parts of the leaves are unaltered and apparently healthy until withering sets in. In the leaf-sheaths, however, which are such a marked feature of the palm bud, the case is otherwise. These surrounded the apex of the pole forming twenty or thirty tube-like layers closely applied one over the other, so as to form a funnel at the bottom of which is the growing point of the tree. On examination irregular sunken-in spots were found in greater or less number on the sheaths of all diseased trees. In the earlier stages and particularly in the inner layers where young spots are numerous, they are white, later on becoming brown but always sunken and usually with somewhat raised edges. They may be traced in from the outer sheaths, sometimes passing through every succeeding layer until the heart of the bud is reached. These necrosed spots often spread more rapidly in the inner layers and new lines of extension may arise from large affected areas within the bud which pass outwards to give rise to new spots on the outer leaves. This gives a false appearance of extension from within outwards, but in all cases where the course could be accurately followed, the first spots appeared on the outer sheaths and as a general rule, the progress is inwards until the tender centre of the shoot is eventually reached. The earlier spots are dry and either show no signs of a foreign organism on their surface or are covered with a whitish felt of fungus growth. Very soon a wet rot follows, which extends with great rapidity in the delicate central tissues of the bud and the whole of the heart becomes a foul-smelling mass of putrefaction, in which everything is involved and the original agent is lost sight of. It is at this stage that a cockchafer grub which has been often noticed in diseased trees and was considered by some of the local cultivators to cause the disease makes its appearance possibly attracted by the smell. The mere fact that it is absent in many deceased trees is sufficient to exclude it from an active part in the epidemic. No one species of insect was found to be invariably present though naturally fly larvæ and other insects abound in the later stages of putrefaction and even scorpions were found in considerable numbers in some cases.

10. It is only by examining young spreading spots at a period before the wet rot sets in that there is any prospect of ascertaining the cause of the disease. At a later stage the tissues are so broken down, and such a multitude of organisms appear in the fermenting mass, that it would prove a task of great difficulty to separate out the different species for purposes of study. At this period too the organism originally present in the spots had disappeared with the possible exception of its resting spores and the labour of examining cases far advanced in the disease is just so much time wasted.

11. In young spreading spots large unseptate filaments of a fungus are found extending through the tissues in the shrunken area. These are entirely confined to the parenchymatous tissues and do not penetrate the fibro-vascular bundles. Many of the young spots are covered with a thick white felt of these filaments, which may be traced into the interior in direct continuation of those within the tissues. They are fairly characteristic being irregularly branched, swollen, without anastomoses or junctions and entirely unseptate. On the surface of the spots this mycelium produces its spores which are those distinctive of the genus *Pythium*. The filaments within the tissues lie between the cells, not inside them, but send short processes through the cell wall by means of which the cell contents are taken up as food by the fungus. No other *Pythium* is known which obtains its food in this manner and as those other classes of fungi which do so are all strict parasites, it is possible that this species is only capable of feeding on living matter. The presence of this peculiarity is almost conclusive proof that the fungus is a vigorous parasite and strongly supports the view that it is the cause of the disease.

12. A number of the *Pythiaceae* are parasitic though all, so far as is known, can grow also on dead matter. In all the parasitic species which have been studied, the effects are similar to the present case, except in one particular. The hyphae of other species destroy the cell contents directly by entering them, no action being produced except in the vicinity of the growing mycelium, but each cell being killed as the filaments reach or come near it. After the tissues are dead the fungus continues to grow and forms its reproductive bodies in the interior or on the surface of the affected area. In the present case, many of the cells are not entered by the fungus, and those which are, only have short processes pushed into them, yet the cell destruction in the affected areas is complete; the only explanation must be that the fungus can destroy cell life at some little distance beyond its own body. Many similar cases are known and all such as have been investigated are found to act by means of destructive ferments given off from the fungus mycelium.

13. The full description of the species will be published elsewhere. A brief account is, however, necessary to enable its probable life history to be understood.

14. The fungus body as described above consists merely of a loose web of filaments or hyphae produced by the repeated branching of those which arise from germinating spores. This web extends within the diseased spot and afterwards appears on the surface. Each filament is a clear transparent tube filled with colourless protoplasm in which are droplets of oil and other bodies. After attaining a certain development the tips of free branches swell up into roundish or more usually inverted pear-shaped spores. The swelling is cut off from its supporting branch by a cellulose wall and matures while still attached. When ripe, it usually falls off and if it drops into water from rain or dew, germinates rapidly.

15. This it does by the free end pushing out a small colourless papilla which becomes altered and highly refractive to light. The papilla softens into a gelatinous substance which blows out into a bladder through pressure developed within the spore. Into this bladder, formed of a wall little thicker than that of a soap bubble, the contents of the spore stream leaving the spore itself empty. Within the bladder the spore protoplasm soon divides up into a number of small masses which become motile and swim away by the beating of two cilia, rupturing the bladder. These are the zoospores, as many as thirty or forty being sometimes formed from a single spore and, being motile, they serve to disseminate the species. As the spores are very thin (about one-seven hundreth of an inch), very little water is sufficient to submerge them, and then zoospores are produced. When their movement comes to an end, the zoospores themselves germinate by putting out a filament which can penetrate the palm tissues and give rise to a new spot of disease.

16. This last stage, that of infection, has not been followed out in the species under consideration owing to the investigation being made at a distance from working facilities, but it is given from the analogy of other species. Until, however, infection has been obtained by sowing a healthy leaf with the zoospores and finding that their germ filaments can penetrate and kill the tissues, the evidence that the fungus is the real cause of the disease is incomplete. All the probabilities point that way, however, and the fact that it alone is found in the spot in the early stages of disease joined to its parasitic structure is strongly in favor of this view. An organism of this type, too, would account for the slow extension of the disease. Its spores are produced chiefly in the inner layers of the bud and then not often in great quantities, while being comparatively large and requiring to fall into water in order to germinate, a number of conditions have to be favorable to allow of extension to new trees.

17. A second type of spore is found on older spots. This is a sexually produced zoospore, a thick walled body suited to withstand conditions which would kill the more delicate spores above described. On germination this form gives rise to a short mycelium on which spores of the first type are produced.

18. Dissemination may be brought about in several ways. Withering of the head may expose the inner sheaths where most of the spores are produced, or some of the latter may occasionally form on the outer layer especially on the secondary spots which develop from extension from diseased areas within the bud, and in either case they would be carried about by the wind. Once the wet rot which invariably follows as appeared, this mode of spread is not likely to occur as only the second spore form can survive in the putrid mass, and it is questionable if even this can stand it long. Insects might very easily carry infection should they gain access to the spore-bearing mycelium on the surface of the spots. Infection may also be carried by the knives of the toddy-drawers since each tree is climbed every year either to draw toddy or to cut the leaves. In all these cases the danger is lessened by the fact that spore formation occurs usually between the inner layers of the bud and this probably accounts for the slow spread.

19. From the above it can be seen that the disease may be fought in two ways. The formation of spores may be checked by cutting off the bud from the stem as soon as the first leaf turns white. This entails little loss except the cost of labour, for recovery does not appear ever to occur, and the flow of toddy during the remainder of the life of the tree is small. At the same time infection of healthy trees can be guarded against by brushing or spraying the outside of the bud below the expanded leaves with Bordeaux mixture. The area affected is at present small, extension is comparatively slow and it is well worth while endeavouring to stamp out the disease now.

20. The suggestions which I should make for an organised campaign against the disease are as follows. Their carrying out will necessitate the formation of a special staff for the purpose, for it is certain that at first at least, the villagers will be slow to take measures for their own protection. If, however, the results bear out the value of the work, real co-operation may be expected before long. A number of expert palm climbers (such as toddy-drawers) should be selected under the charge of an Agricultural Inspector or some similar official and provided with small axes. They should be instructed to climb all diseased trees, both those in the early stages and those already dead, and to cut off the green tops below the swelling of the leaf sheaths. It is particularly essential that all trees in the early stages should be dealt with and these can be recognised, where the villagers themselves are unable to do so, by the whitening of one of the leaves towards the centre of the head. After cutting off the heads the whole of the tops should be collected into a heap in each village and burnt. In this way, every dead or attacked palm in a selected area should have its power of spreading infection destroyed by burning the diseased parts, and this measure alone, if steadily pursued, is certain to give good results. The infectious matter is confined to the head of the palm and as the tree is doomed once the disease appears and will yield little or no further profit, its removal costs little but the actual expense of labour in cutting it down and burning it.

21. To save healthy trees within the affected districts in places where they are surrounded by large numbers of dead or dying trees is difficult unless the above measures are very thoroughly carried out. But the chances of their infection may be very largely diminished if they are brushed with Bordeaux mixture on the leaf sheaths when the removal of diseased trees commences. Bordeaux mixture is a substance which adheres strongly to the surfaces of plants, and being poisonous to fungus spores it prevents their germination or kills the young germ filaments as soon as they appear. A second gang of toddy drawers should be employed for this work and provided with small vessels containing the mixture and mops of rags for brushing it on to the sheaths. The expanded leaves need not be brushed, but only the leaf sheaths below these. One man should be able to do from 30 to 50 trees in a day and if the work is done at the time that the trees are climbed for cutting the leaves, the cost of the labour should be small. The men employed for removing diseased trees should not be allowed to climb healthy ones as there is some danger of their conveying the infection on their persons or axes. The cost of the materials used cannot be exactly given as it depends on the price at which copper sulphate can be landed in the district and the availability of a supply of good lime in the neighbourhood. A pint would probably be enough to treat one tree and this should not cost more than about one pie.

22. Instructions for preparing Bordeaux mixture are appended. The best time for commencing operations is probably the cold season, as I obtained some indications that the disease is most active at that time. I can provide some trained assistance from my office and can probably arrange to spend some time in the Godavari to superintend the commencement of the work should the Madras Government decide to adopt my recommendations.

Instructions for making Bordeaux Mixture.

23. To prepare 50 gallons of the mixture weigh out 6 lb. copper sulphate, break to powder and dissolve in 25 gallons of cold water by suspending in a piece of gunny sacking in the water. The latter must not be contained in a metal vessel but in a barrel or big earthenware pot. In another vessel weigh out 4 lb. of fresh quick lime. Slake this gradually till it falls to powder and then add water up to 25 gallons. Let cool. When cool add to the copper sulphate solution through a sieve so as to retain any lumps which would clog the sprayer. A thick bluish liquid results which on standing throws down a bluish precipitate leaving the other part of the liquid clear. To test it fit for use add a few drops of ferrocyanide of potassium to a small quantity of the clear liquid in a dish. If a brownish precipitate appears more lime must be added till no precipitate is given on testing. Or a steel knife may be dipped in it and if more lime is necessary a deposit of copper will form on the knife. If none is formed it is ready for use. Stir well before using.

* This appointment will not be filled up as long as the separate appointment of Muzrai Secretary is maintained.

II. All future admissions to the Mysore Civil Service shall be only in one of two ways, *viz.* :—

(2) into the B Schedule, by special selection made by His Highness the Maharaja,—

(*a*) from members of the lower ranks of the Mysore public service, who have rendered meritorious service and have shown themselves fit in every way for holding higher appointments, and who have also qualified themselves by passing the prescribed examinations,

(*b*) or on family or other considerations of fitness.

III. A competitive examination for admission to the Civil Service shall be held in the year 1908, and once every two years thereafter; provided that in consideration of the fact that no such examinations were held during the five years previous to 1906 two additional examinations shall be held one in 1907 and the other in 1909. The subjects for examination, the dates on which and the manner in which it is to be held, and the proportion of marks required for passing, shall be duly notified at least three months before the examination. Both in point of severity of the tests applied, and range of subjects, the compotitive examination shall be similar to that adopted for the Provincial Civil Service in British India.

IV. Candidates for the competitive examination must not be over twenty-five years of age on the date of examination, and must have graduated in Arts in an Indian or other University: provided that, if a candidate is not a native of or domiciled in Mysore, he must be a graduate of either the Madras or the Bombay University.

V. Candidates who fulfil these conditions, and who are desirous of competing, shall send in their names, with evidence of age and qualifications, and information as to their place of birth, caste, family, occupation and social status, and also with certificates of character and conduct, to the General and Revenue Secretary to Government, not later than a date to be fixed. From these candidates selection will be made by His Highness the Maharaja, and the names of those selected shall be notified in the official Gazette. Within a month of such notification, the selected candidates shall present themselves before a Medical Board at a place and on a date to be notified by Government. It shall be an instruction to this Board to reject all candidates not possessed of a good physique and constitution, and not especially fitted for the active duties of an executive officer. The candidates passed by the Board shall then be eligible for the examination.

VI. Two candidates shall be selected from the top of the list of candidates who have passed a satisfactory examination, and admitted on probation to the grade of Assistant Commissioner, 5th class, Schedule A.

VII. Persons admitted into the Mysore Civil Service by competition as above will draw pay at Rs. 200 a month during the period of probation, which shall be for a term of two years. During that period they shall pass—

X. Persons admitted into the Mysore Civil Service on family or other considerations of fitness will be appointed on probation to the grade of Assistant Commissioner, 5th class, Schedule B, on a pay of Rs. 200 a month, the period of probation in their case being three years. CIRCULAR MEMORANDUM.

No. 15511-90, *dated* 21*st*—26*th June* 1907.

Under Section 7 of the Forest Regulation, 1900, the Forest Settlement Officer is required to enquire not only into all claims duly preferred under Section 5 (*d*) of the Regulation but also into the existence and extent of any rights which have not been formally claimed. The Deputy Commissioners and the District Forest Officers are also enjoined to take special care that all customary rights known or believed to be enjoyed by any wild jungle tribes are brought to the notice of the Forest Settlement Officer in view to their being admitted and recorded by him. *Vide* Rule 16 of Rules regulating the procedure of the Forest Settlement Officers, published with Government Notification No 249-1304, dated 2nd October 1901. But it has been brought to notice that these provisions have seldom, if ever, been availed of and that the Forest Settlement Officer has to confine his enquiry ony to the claims urged before him, probably owing to want of co-operation of the local Revenue officers, thereby causing considerable inconvenience not only to the agricultural classes but also to all the villagers generally who begin to prefer their grievances after the Forest Rules are put into operation in the tract. With a view, therefore, to enable the Forest Settlement Officer to collect as much information as is necessary to fully justify the agricultural and other needs of the locality and meet the convenience of the villagers residing in the proximity of the Forest, the Revenue Commissioner desires to impress on all Amildars the necessity of their keeping themselves in touch with the Forest Settlement proceedings in their taluks and bringing to the notice of the Settlement Officer such interests of Government or rights of the people as are apt to be overlooked by him owing to insufficient representation.
